1. INTRODUCTION

The pedalo Table Curling Game, Model 173110, is an engaging game designed for up to four players. It requires strategy, tension, and dexterity, making it suitable for both children and seniors. This manual provides instructions for setting up, playing, and maintaining your game to ensure long-lasting enjoyment. This product is manufactured in Germany by pedalo, a company with over 50 years of experience in producing quality play equipment, sports equipment, and therapeutic devices from natural wood.

2. PRODUCT COMPONENTS

The pedalo Table Curling Game includes the following components:

- 1x Game Board (75 x 75 x 1 cm, made of birch multiplex)
- 1x Rubber Cord (integrated around the perimeter of the board)
- 20x Game Pieces (4 sets of 5 pieces, typically in different colors like red, blue, green, natural)

3. SETUP

1. **Unpack Components:** Carefully remove all components from the packaging. Inspect for any damage.
2. **Choose a Surface:** Place the game board on a flat, stable surface. The board dimensions are 75 x 75 cm, so ensure adequate space.
3. **Prepare Game Pieces:** Distribute the 20 game pieces among 2 to 4 players. Each player or team will use 5 pieces of a specific color.
4. **Starting Position:** Players typically start by placing their pieces at one edge of the board, ready to be propelled.

4. OPERATION (GAMEPLAY)

The objective of the pedalo Table Curling Game is to strategically place your pieces closer to the center target circles than your opponents' pieces, while also knocking their pieces out of scoring positions.

4.1 Basic Gameplay

1. **Taking a Turn:** Players take turns propelling one of their game pieces across the board.
2. **Propelling Pieces:** Use a finger to flick or push a piece from the starting edge of the board towards the target area. The rubber cord around the perimeter can be used to bounce pieces strategically.
3. **Scoring:** After all pieces have been played, points are awarded based on the final position of the pieces within the target circles. Pieces closer to the center score higher. Only the pieces of the player or team whose piece is closest to the center are counted for scoring in that round. Opponent pieces within the scoring zones are removed.
4. **Winning:** The game can be played over multiple rounds, with the player or team accumulating the most points winning. The game description mentions "20 interesting exercise forms," suggesting variations beyond basic scoring.

4.2 Strategic Considerations

- **Placement:** Aim for the highest scoring zones in the center.
- **Defense:** Position your pieces to block opponents or protect your high-scoring pieces.
- **Offense:** Use your pieces to knock opponents' pieces out of favorable positions. A well-aimed shot can significantly change the game's outcome.

5. MAINTENANCE

Proper care and maintenance will extend the life of your pedalo Table Curling Game.

- **Cleaning:** Wipe the wooden board and game pieces with a dry or slightly damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the wood finish.
- **Storage:** Store the game in a dry place, away from direct sunlight and extreme temperature fluctuations, to prevent warping or damage to the wood.
- **Inspection:** Periodically check the rubber cord for wear and tear. While durable, excessive use or exposure to elements might degrade it over time.

6. TROUBLESHOOTING

This section addresses common issues you might encounter with your pedalo Table Curling Game.

- **Game pieces not sliding smoothly:** Ensure the game board surface is clean and free of dust or debris. A very light application of a wood-safe polish or wax can sometimes improve glide, but test on an inconspicuous area first.
- **Board warping:** This is typically caused by exposure to moisture or extreme temperature changes. Always store the board in a dry, stable environment. If minor warping occurs, placing heavy, flat objects on the board in a dry environment might help flatten it over time.
- **Lost game pieces:** Replacement pieces may be available directly from the manufacturer. Refer to the support section for contact information.

7. SPECIFICATIONS

| Feature | Detail |
|--------------------------------|---|
| Model Number | 173110 |
| Product Dimensions (L x W x H) | 75 x 75 x 1 cm (approximately 29.5 x 29.5 x 0.4 inches) |
| Product Weight | Approximately 4 kg (8.8 lbs) |
| Main Material | Birch Multiplex Wood |
| Recommended Age | 3 years and up |
| Number of Players | 1 - 4 players |
| Educational Value | Concentration, Dexterity, Strategy |
