Aquasonic SCTB

Aquasonic Black Series Ultra Whitening Toothbrush User Manual

Brand: Aquasonic

Model: SCTB

Introduction and Overview

The Aquasonic Black Series Ultra Whitening Toothbrush is a world-class modern electric toothbrush designed for superior oral care. It incorporates advanced technology to provide an effective and comfortable brushing experience.
Key features include an ultra-powerful motor delivering 40,000 vibrations per minute, a long-lasting lithium-ion battery with ultra-fast wireless charging, and 4 distinct brushing modes. The sleek, ultra-slim, lightweight, and IPX7 rated waterproof design ensures durability and ease of use.
This product has earned the prestigious ADA (American Dental Association) seal of approval, demonstrating its efficacy in removing plaque and helping to prevent and reduce gingivitis.

Setup

Unboxing and Initial Inspection

Upon opening the package, ensure all components are present:

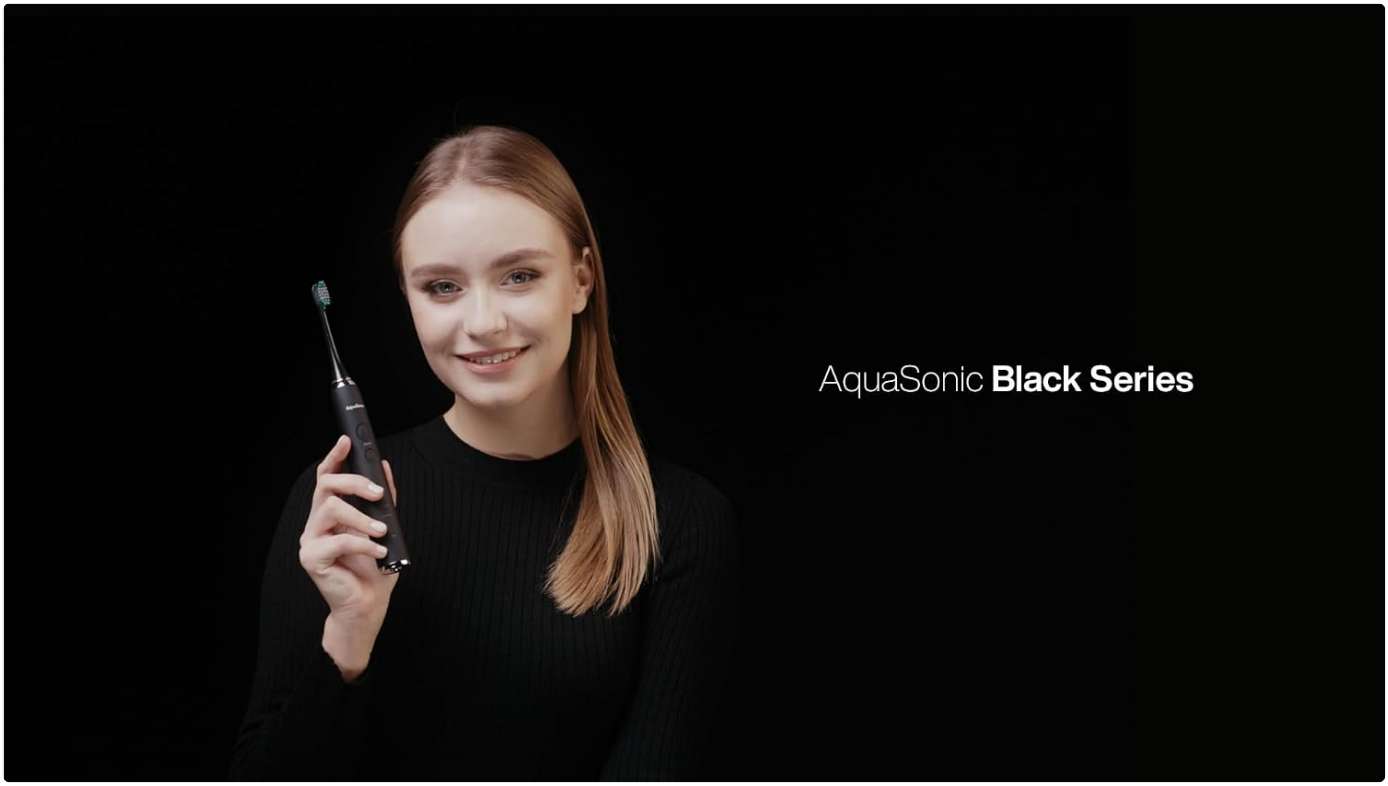

- 1 AquaSonic Black Series Smart Toothbrush
- 1 wireless charging base
- 8 DuPont brush heads
- 1 travel case
- Warranty card
- User manual

The Aquasonic Black Series Toothbrush along with its included accessories: 8 brush heads, wireless charging base, and a travel case.

Charging the Toothbrush

Fully charge the toothbrush before its initial use. The Black Series features ultra-fast wireless charging. Simply place the toothbrush onto the wireless charging base.

The Aquasonic Black Series Toothbrush positioned on its wireless charging base for convenient power replenishment.

The toothbrush can last for 4 full weeks (based on 2 minutes of brushing, twice a day) on a single full charge.

Operating Instructions

Brushing Modes

The Aquasonic Black Series offers 4 distinct brushing modes to cater to various oral care needs:

- **Clean:** Standard brushing mode for daily cleaning.
- **Soft:** Gentle mode suitable for sensitive teeth and gums.
- **Whiten:** Helps remove daily surface stains for a brighter smile.
- **Massage:** Delivers vibrating microbursts to gums for improved gum health.

The control panel of the toothbrush highlighting the four available brushing modes.

General Usage

1. Wet the toothbrush head and apply toothpaste.
2. Gently place the toothbrush head against your teeth and gums.
3. Turn on the toothbrush and select your desired mode.
4. Move the toothbrush across all teeth surfaces in a circular motion for about 2 minutes, twice a day.
5. Rinse your mouth and toothbrush thoroughly after brushing.
6. The smart vibration timers will guide you through brushing each quadrant of your mouth.

Maintenance

Brush Head Replacement

The toothbrush comes with 8 DuPont engineered brush heads. Each brush head is designed to last approximately 3-4 months, providing about 2.5 years of brushing with the included supply.
It is recommended to replace the brush head every 3-4 months to maintain optimal cleaning performance and hygiene.

A generous supply of 8 DuPont engineered brush heads are included, designed to last for over two years.

Cleaning the Toothbrush

After each use, rinse the brush head thoroughly under running water. Wipe the handle with a damp cloth to remove any toothpaste residue. Ensure the charging base is kept clean and dry to prevent mineral buildup.

Safety Information

Keep out of reach of children.

Troubleshooting

If you encounter any issues with your Aquasonic Black Series Toothbrush, please refer to the following common troubleshooting tips:

- **Toothbrush not turning on:** Ensure the battery is charged. Place it on the charging base for at least an hour.
- **Reduced vibration:** The battery might be low. Recharge the toothbrush. Also, ensure the brush head is securely attached.

- **Charging indicator not lighting up:** Check if the charging base is properly plugged into a working outlet. Ensure the toothbrush is correctly seated on the base.
- **Unusual noise:** Detach the brush head and reattach it firmly. If the noise persists, contact customer support.
