Flow Alkaline Spring Water - User Manual

Model: 628055429012

1. PRODUCT OVERVIEW

Flow Alkaline Spring Water offers naturally alkaline hydration sourced from artesian springs. This product is designed to provide essential minerals and electrolytes in an eco-friendly package, supporting both your well-being and environmental sustainability.

2. KEY FEATURES AND BENEFITS

- **Naturally Alkaline Spring Water:** Enjoy the thirst-quenching goodness of Flow Alkaline Spring Water. Our bottled water is naturally alkaline with a pH of 8.1 and rich in electrolytes and essential minerals for supercharged hydration.
- **Healthy & Clean Mineral Water:** Flow Alkaline Spring Water contains natural, essential minerals like calcium, potassium, magnesium, and bicarbonate—vital nutrients for optimal hydration. They also give Flow Alkaline Spring Water its fresh, smooth taste.
- **Eco-Friendly Packaging:** Flow Alkaline Spring Water comes in high-quality, eco-friendly packs designed with up to 70% renewable materials, is recyclable, and has a plant-based cap for a low carbon footprint.
- **Water With A Purpose:** We're not just committed to providing naturally alkaline and great-tasting spring water. We're also working to provide sustainable hydration and hold our products and packaging to the highest social and environmental standards.

3. SOURCING AND QUALITY

Flow Naturally Alkaline Spring Water comes from our family-owned artesian springs, rich in essential minerals. The water that flows from these springs is naturally alkaline with a pH of 8.1. We protect the source and environment to ensure that it stays that way, providing water with no added chemicals or artificial processing.

4. ENVIRONMENTAL COMMITMENT AND PACKAGING

Flow is committed to sustainability. Our packaging is designed with up to 70% renewable materials and features a plant-based cap made from sugarcane, contributing to a lower carbon footprint. The cartons are 100% recyclable, promoting a circular economy. Our company is B Corp certified, reflecting our

dedication to high social and environmental performance.

5. USAGE AND STORAGE

5.1. Operating Instructions

To consume, simply twist the plant-based cap counter-clockwise to open. Drink directly from the carton or pour into a glass. Recap tightly after use to maintain freshness.

5.2. Storage Guidelines

Store Flow Alkaline Spring Water in a cool, dry place away from direct sunlight. The cartons are designed for easy pantry storage. For a refreshing experience, you may chill the water before consumption. Ensure the cap is securely sealed when not in use.

6. MAINTENANCE

No specific maintenance is required for Flow Alkaline Spring Water. Simply ensure the cap is sealed tightly after each use to prevent contamination and maintain product quality.

7. TROUBLESHOOTING

7.1. Damaged Packaging / Leaking Cartons

In rare instances, cartons may arrive damaged or appear to be leaking due to transit or manufacturing defects. If you receive a product with compromised packaging or a strange odor, do not consume the water. Please contact Flow customer service immediately for assistance.

7.2. Taste or Quality Concerns

Flow Alkaline Spring Water is known for its pure and clean taste. If you experience any unusual taste or quality concerns, please ensure the product has been stored correctly and has not passed its expiration date. If issues persist, contact customer support with the product's batch number and expiration date.

8. SPECIFICATIONS

Attribute	Detail
Brand	Flow
Model Number	628055429012
