## 2. KEY FEATURES

---

- **High Quality USB 2.0 Data Cable:** Ensures efficient and stable data transfer and charging.
- **Broad Compatibility:** Works with a wide range of devices including iHome iBT33 BC iHM89 BC

Wireless BT Speakers, digital cameras, video cameras, MP3 players, PDAs, and cell phones.

- **2-in-1 Functionality:** Depending on your device's specifications, this cable supports both data synchronization and charging through a standard USB port.
- **Advanced Safety Features:** Built-in protections against over current, total power fluctuations, over voltage, and short circuits to ensure safe operation.
- **Durable Construction:** Manufactured with high-quality materials, including high-quality copper wire and a PVC insulation jacket, for long-lasting performance.
- **Certifications:** Complies with FCC, CE, and RoHS standards, ensuring product safety and environmental responsibility.

## High Quality Power Cable Design

Image 2.1: Illustration of the cable's internal structure, highlighting the high-quality copper wire and durable PVC insulation jacket for enhanced performance and longevity.

### 3. SETUP AND CONNECTION

---

Connecting your EPtech USB Charging Cable is straightforward:

1. **Identify Ports:** Locate the USB-A port on your power source (e.g., wall adapter, computer USB port, power bank) and the Micro-USB port on your device (e.g., iHome speaker, camera).
2. **Connect to Power Source:** Insert the larger USB-A end of the cable into the USB-A port of your power source.
3. **Connect to Device:** Carefully insert the smaller Micro-USB end of the cable into the Micro-USB port on your device. Ensure the connector is oriented correctly to avoid damage.
4. **Verify Connection:** Your device should indicate that it is charging or connected for data transfer.

### 4. OPERATION

---

Once connected, the EPtech USB Charging Cable facilitates two primary functions:

#### 4.1. Charging Your Device

When connected to a suitable USB power source, the cable will deliver power to your device's battery. The charging speed may vary depending on the power source's output and your device's charging capabilities.

## 4.2. Data Synchronization

If connected to a computer with the necessary drivers and software, the cable allows for data transfer between your device and the computer. This enables you to sync files, update firmware, or manage content on your device.

## 5. MAINTENANCE AND CARE

---

To ensure the longevity and optimal performance of your EPtech USB Charging Cable, follow these care guidelines:

- **Avoid Bending:** Do not excessively bend or kink the cable, especially near the connectors, as this can damage internal wires.
- **Proper Storage:** Store the cable loosely coiled in a dry, cool place when not in use. Avoid tightly wrapping it around objects.
- **Clean Connectors:** If connectors appear dirty, gently wipe them with a dry, lint-free cloth. Do not use liquids or abrasive cleaners.
- **Handle with Care:** Always pull from the connector head, not the cable itself, when unplugging from a device or power source.
- **Environmental Conditions:** The cable is designed for both indoor and outdoor usage, but avoid prolonged exposure to extreme temperatures or moisture.

## 6. TROUBLESHOOTING

---

If you encounter issues with your EPtech USB Charging Cable, consider the following:

- **Device Not Charging:**
  - Ensure both ends of the cable are securely connected.
  - Try a different USB power source (e.g., another wall adapter, a different USB port on your computer).
  - Test the cable with a different compatible device to rule out a device issue.
  - Check if the power source is active and providing power.
- **Device Not Syncing Data:**
  - Verify that your computer recognizes the device when connected.
  - Ensure necessary drivers for your device are installed on your computer.
  - Try a different USB port on your computer.
  - Restart both your device and computer.
- **Loose Connection:** If the cable feels loose in the port, check for any debris in the device's port or the cable's connector.

If problems persist after attempting these steps, please contact customer support.

## 7. SPECIFICATIONS

---

<b>Brand</b>	EPtech
<b>Model Number</b>	M1706260153
<b>Connector Type</b>	USB 2.0 (USB-A to Micro-USB)
<b>Cable Type</b>	USB
<b>Compatible Devices</b>	iHome iBT33 BC iHM89 BC Wireless BT Speaker, Digital Cameras, Video Cameras, MP3 Players, PDAs, Cell Phones
<b>Special Feature</b>	Short Circuit Protection, Over Current Protection, Over Voltage Protection
<b>Color</b>	Black
<b>Connector Gender</b>	Male-to-Male
<b>Shape</b>	Round
<b>Unit Count</b>	1.0 Count
<b>Usage Environment</b>	Outdoor, Indoor
<b>Manufacturer</b>	EPtech
<b>Date First Available</b>	June 26, 2017

## 8. WARRANTY AND SUPPORT

---

EPtech products are manufactured with the highest quality materials and undergo rigorous quality control procedures. While specific warranty details are not provided in this manual, the product is designed for durable and safe operation.

For any questions, concerns, or support needs regarding your EPtech USB Charging Cable, please do not hesitate to contact our customer service team:
