2. PACKAGE CONTENTS AND COMPONENTS

Before assembly, ensure all parts are present and undamaged. Unpack all components and lay them out on a soft, clean surface to prevent scratches. While a detailed component list is not provided, the suite typically includes:

- Main L-shaped desk sections (typically two primary desk tops and supporting panels)
- Integrated keyboard tray assembly
- Storage cabinet with door
- Drawer unit with multiple drawers (e.g., file drawer, utility drawers)
- Hardware pack (screws, dowels, cam locks, etc.)
- Adjustable feet or glides
- Power/USB grommet (if applicable)

3. ASSEMBLY INSTRUCTIONS

Assembly requires at least two people. Use appropriate tools and follow safety guidelines. Do not overtighten screws.

1. **Prepare Workspace:** Clear a large, open area. Lay down a blanket or cardboard to protect the desk components and your floor during assembly.
2. **Identify Components:** Sort all panels and hardware according to the included parts list (if available). Familiarize yourself with the different sections of the desk.
3. **Assemble Base Units:** Begin by assembling the base cabinet and drawer units. Attach side panels, back panels, and bottom/top panels using the provided hardware. Ensure all connections are secure.
4. **Install Drawers and Cabinet Door:** Once the drawer and cabinet frames are assembled, install the drawer slides and then the drawers themselves. Attach hinges and the door to the cabinet unit.
5. **Connect Desk Tops:** Carefully position the main L-shaped desk tops. Connect them to the assembled base units and to each other using the designated connectors. Ensure the L-shape is correctly aligned.
6. **Attach Keyboard Tray:** Install the keyboard tray slides underneath the designated desk section. Secure the keyboard tray to the slides.
7. **Install Handles and Accessories:** Attach all handles to drawers and cabinet doors. Install any integrated power grommets or charging stations into their designated cutouts on the desk surface.
8. **Final Adjustments:** Once fully assembled, gently move the desk to its final position. Adjust any leveling feet to ensure the desk is stable and level on your floor.

4. OPERATING YOUR DESK SUITE

Your Latitude Run L-Shape Desk Office Suite is designed for optimal functionality and organization.

4.1 Keyboard Tray

The integrated keyboard tray provides a convenient pull-out surface for your keyboard and mouse, helping to maintain an ergonomic posture and free up desk space.

5. CARE AND MAINTENANCE

Proper care will ensure the longevity and appearance of your desk suite.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals, abrasive cleaners, or polishes that may damage the finish. For the glass top (if applicable), use a standard glass cleaner.
- **Spills:** Immediately wipe up any spills to prevent staining or damage to the wood finish.
- **Heat and Moisture:** Avoid placing hot items directly on the surface. Use coasters for drinks. Protect the desk from excessive moisture and direct sunlight.
- **Moving:** When moving the desk, always lift it rather than dragging it to prevent damage to the legs and frame.
- **Hardware:** Periodically check and tighten all hardware connections to ensure stability.
