Raycop LITE-100A

RAYCOP LITE-100AWH Allergen Vacuum User Manual

Model: LITE-100A

1. Introduction

Thank you for purchasing the RAYCOP LITE-100AWH Allergen Vacuum. This manual provides essential information for the safe and effective use, maintenance, and troubleshooting of your device. Please read this manual thoroughly before operating the vacuum and retain it for future reference.

Important Safety Instructions

When using an electrical appliance, basic precautions should always be followed, including the following:

- Read all instructions before using this appliance.
- To reduce the risk of fire, electric shock, or injury, do not leave the appliance unattended when plugged in.
- Do not use outdoors or on wet surfaces.
- Do not allow to be used as a toy. Close attention is necessary when used by or near children.
- Use only as described in this manual. Use only manufacturer's recommended attachments.
- Do not use with a damaged cord or plug. If appliance is not working as it should, has been dropped, damaged, left outdoors, or dropped into water, return it to a service center.
- Do not pull or carry by cord, use cord as a handle, close a door on cord, or pull cord around sharp edges or corners. Do not run appliance over cord. Keep cord away from heated surfaces.
- Do not unplug by pulling on cord. To unplug, grasp the plug, not the cord.
- Do not handle plug or appliance with wet hands.
- Do not put any object into openings. Do not use with any opening blocked; keep free of dust, lint, hair, and anything that may reduce airflow.
- Keep hair, loose clothing, fingers, and all parts of body away from openings and moving parts.
- Turn off all controls before unplugging.
- Use extra care when cleaning on stairs.
- Do not use to pick up flammable or combustible liquids, such as gasoline, or use in areas where they may be present.
- Do not pick up anything that is burning or smoking, such as cigarettes, matches, or hot ashes.
- Do not use without dust bag and/or filters in place.
- Store the appliance indoors. Put away after use to prevent tripping accidents.

- The UV-C lamp emits ultraviolet light. Avoid direct exposure to eyes and skin. The lamp is designed to automatically turn off when lifted from a surface.

2. Product Overview

The RAYCOP LITE-100AWH is a handheld allergen vacuum designed for cleaning fabric surfaces such as mattresses, pillows, and upholstery. It features a HEPA filter system and a UV-C sanitizing lamp to help reduce allergens.

Components

- Main Unit (Handheld Vacuum)
- Dust Box with HEPA Filter
- Rotating Brush
- UV-C Sanitizing Lamp (located on the underside)
- Power Cord

Product Features

- **Bagless Design:** Easy to empty dust box.
- **HEPA Filtration:** Captures fine dust and allergens.
- **UV-C Sanitization:** Helps neutralize bacteria, viruses, and dust mites.
- **Pulsating Pad:** Loosens dust mites and fine particles from fabric.
- **Lightweight and Handheld:** Designed for comfortable use on various fabric surfaces.

This image shows the underside of the vacuum, clearly displaying the UV-C lamp strip and the rotating brush, which are crucial for its allergen removal capabilities.

3. Setup

Unpacking and Initial Inspection

1. Carefully remove all components from the packaging.
2. Inspect the vacuum for any signs of damage. If any damage is found, do not operate the device and contact customer support.

3. Ensure all listed components are present.

The RAYCOP LITE-100AWH does not require assembly. It is ready for use after unpacking.

First Use

1. Ensure the dust box and HEPA filter are correctly installed in the unit. Refer to the "Maintenance" section for details on filter installation.
2. Plug the power cord into a suitable electrical outlet.
3. The vacuum is now ready for operation.

4. Operating Instructions

The RAYCOP LITE-100AWH is designed for effective cleaning and sanitization of fabric surfaces.

Powering On/Off

- To turn on the vacuum, press the power button located on the handle.
- To turn off the vacuum, press the power button again.

Using the Vacuum

1. Plug the vacuum into a power outlet.
2. Place the vacuum head flat against the fabric surface you wish to clean (e.g., mattress, sofa, pillow). The UV-C lamp will activate automatically when the unit is placed on a surface.
3. Press the power button to start the vacuum and pulsating pad.
4. Slowly move the vacuum across the surface in overlapping passes. Ensure the entire area is covered.
5. For optimal sanitization, allow the UV-C lamp to pass over the area for a few seconds.
6. When finished, press the power button to turn off the vacuum and unplug it from the outlet.

Note: The UV-C lamp is equipped with a safety sensor and will only operate when the vacuum head is pressed against a surface. Lifting the vacuum will automatically turn off the UV-C lamp to prevent accidental exposure.

This image illustrates the proper way to hold and operate the RAYCOP LITE-100AWH vacuum on a fabric surface, such as a mattress, for effective cleaning.

5. Maintenance

Regular maintenance ensures optimal performance and extends the lifespan of your RAYCOP LITE-100AWH vacuum.

Emptying the Dust Box

1. Ensure the vacuum is turned off and unplugged before performing any maintenance.
2. Locate the dust box release button, typically near the handle or top of the unit.
3. Press the release button and carefully remove the dust box from the main unit.
4. Open the dust box and empty its contents into a waste bin.
5. Close the dust box securely and reinsert it into the vacuum until it clicks into place.

Cleaning the HEPA Filter

The HEPA filter should be cleaned regularly, ideally after every few uses, or when suction power decreases.

1. With the dust box removed, carefully take out the HEPA filter.
2. Tap the filter gently over a waste bin to dislodge accumulated dust.
3. If necessary, rinse the filter under cool running water. Ensure it is completely dry before reinserting.**Do not use hot water or detergents.**
4. Once dry, place the HEPA filter back into the dust box, ensuring it is seated correctly.

Cleaning the Rotating Brush

Periodically check the rotating brush for tangled hair or debris.

1. Turn off and unplug the vacuum.
2. Turn the unit over to access the brush area on the bottom.
3. Use scissors or a brush cleaning tool (if included) to carefully cut and remove any hair or fibers wrapped around the brush.
4. Ensure the brush spins freely after cleaning.

UV-C Lamp Care

The UV-C lamp does not typically require cleaning. If you notice a decrease in UV-C effectiveness or suspect a malfunction, contact customer support. Do not attempt to replace the UV-C lamp yourself.

6. Troubleshooting

If you encounter issues with your RAYCOP LITE-100AWH, refer to the following table for common problems and solutions.

Problem	Possible Cause	Solution
Vacuum does not turn on.	Not plugged in correctly. Power outlet malfunction. Power button not pressed.	Ensure the power cord is securely plugged into a working outlet. Test the outlet with another appliance. Press the power button firmly.
Reduced suction power.	Dust box is full. HEPA filter is clogged. Air inlet/outlet blocked. Brush is tangled.	Empty the dust box. Clean or replace the HEPA filter. Check for and remove any obstructions. Clean the rotating brush.
UV-C lamp not illuminating.	Vacuum not placed flat on surface. Safety sensor malfunction. Lamp failure.	Ensure the vacuum head is pressed firmly against the cleaning surface. If the issue persists, contact customer support.
Unusual noise during operation.	Debris caught in brush or motor. Loose component.	Turn off and unplug. Inspect the brush and air pathways for obstructions. If noise persists, contact customer support.

7. Specifications
