

## Ideal Standard E3240SG

# Ideal Standard Tempo 60 cm Bathroom Cabinet

MODEL: E3240SG - INSTRUCTION MANUAL

## Introduction

Thank you for choosing the Ideal Standard Tempo 60 cm Bathroom Cabinet, model E3240SG. This manual provides essential information for the safe and efficient assembly, operation, and maintenance of your new cabinet. Please read these instructions carefully before beginning assembly and retain them for future reference.

## Safety Information

- Always ensure all components are present and undamaged before assembly. Do not proceed with assembly if any parts are missing or damaged.
- Assembly should be performed by at least two adults to prevent injury and ensure proper handling of components.
- Use appropriate tools as specified. Do not overtighten screws, as this may damage the engineered wood material.
- Ensure the cabinet is placed on a level, stable surface. For free-standing units, verify stability to prevent tipping.
- Keep small parts and packaging materials away from children to avoid choking hazards.

## Package Contents

Before starting assembly, verify that all the following components are included in your package:

- Cabinet panels (sides, back, top, bottom)
- Drawer components (front, sides, back, bottom)
- Door panels (x2)
- Drawer slides and runners

- Hinges for doors
- Handles/knobs
- Assembly hardware (screws, dowels, cam locks, etc.)
- Instruction manual

If any parts are missing or damaged, please contact Ideal Standard customer support.

## Setup and Assembly

---

This cabinet requires assembly. Please follow the steps below carefully. It is recommended to lay out all components on a soft, clean surface to prevent scratches.

### Tools Required:

- Phillips head screwdriver
- Flathead screwdriver
- Hammer (rubber mallet recommended)
- Measuring tape
- Pencil

### Assembly Steps:

1. **Assemble the main cabinet frame:** Attach the side panels to the bottom panel using the provided dowels and cam locks. Ensure the grooves for the back panel are facing correctly.
2. **Insert the back panel:** Slide the back panel into the grooves of the assembled frame. Secure it with small nails or screws as indicated in the hardware pack.
3. **Attach the top panel:** Secure the top panel to the main frame using dowels and cam locks.
4. **Install drawer slides:** Mount the drawer slides to the interior side panels of the cabinet according to the pre-drilled holes. Ensure they are level and aligned.
5. **Assemble the drawer:** Connect the drawer sides, back, and front panels. Slide the drawer bottom into the grooves. Attach the drawer runners to the assembled drawer.
6. **Install hinges for doors:** Attach the hinges to the cabinet doors and then to the cabinet frame. Adjust hinges to ensure proper door alignment and smooth operation.
7. **Attach handles:** Secure the handles to the drawer front and door panels.
8. **Final placement:** Position the assembled cabinet in its desired location. This is a free-standing unit, so ensure it is stable and level.

## Operating Instructions

---

The Ideal Standard Tempo cabinet is designed for organized storage in your bathroom.

- **Drawers:** The cabinet features one drawer for storing smaller items such as toiletries, cosmetics, or personal care products. Pull the handle gently to open and push to close.
- **Doors:** The two doors open to reveal internal storage space, suitable for larger items like towels, cleaning supplies, or extra bathroom essentials. Use the handles to open and close the doors.
- **Weight Capacity:** Avoid overloading drawers and shelves. Distribute weight evenly to maintain stability and prevent damage to the cabinet structure.

## Maintenance

---

Proper care will ensure the longevity and appearance of your Ideal Standard Tempo cabinet.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. For stubborn marks, use a mild, non-abrasive cleaner specifically designed for engineered wood or lacquered surfaces. Avoid harsh chemicals, abrasive pads, or solvents.
- **Spills:** Immediately wipe up any spills, especially water, to prevent moisture damage to the engineered wood.
- **Dusting:** Regularly dust the cabinet with a dry, soft cloth to prevent buildup.
- **Hardware:** Periodically check all screws and fittings to ensure they remain tight. Retighten if necessary, but do not overtighten.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading or discoloration of the finish.

## Troubleshooting

Problem	Possible Cause	Solution
Drawer does not close smoothly or is misaligned.	Drawer slides are not aligned or are loose. Obstruction in the runner.	Check and adjust the drawer slides. Ensure no objects are blocking the runners. Retighten screws on slides.
Cabinet doors are misaligned or do not close properly.	Hinges are loose or require adjustment.	Adjust the screws on the hinges to align the doors. Refer to hinge manufacturer's instructions for specific adjustment points.
Cabinet feels wobbly or unstable.	Uneven floor surface. Loose assembly screws.	Ensure the cabinet is on a level surface. Use shims if necessary. Check and tighten all assembly screws.
Handles are loose.	Mounting screws are loose.	Tighten the screws securing the handles from the inside of the drawer/door.
