Setup and Assembly

For detailed step-by-step assembly instructions, please refer to the official Installation Manual (PDF) available here.

General assembly tips:

- Ensure all components are present before beginning assembly. Refer to the parts list in the manual.
- Use the provided tools and hardware. All necessary screws and tools are included for assembly.
- Attach the headboard securely to your existing metal bed frame. The headboard is designed to attach all the way down to your frame.
- Consider using foam washers (not included) between the headboard and bed frame attachment points to minimize potential noise from movement, especially if your bed frame is not a Zinus brand.

Packaging: The headboard components are compactly packaged for shipping, ensuring all parts are protected and organized for assembly.

Operating Instructions

Once assembled and securely attached to your bed frame, the ZINUS Jessica Headboard requires no special operating procedures. It serves as a comfortable and supportive backrest for reading, watching TV, or simply relaxing in bed. The foam-padded upholstery provides a soft surface, enhancing your comfort.

Maintenance

To maintain the appearance and longevity of your headboard, follow these simple care instructions:

- **Cleaning:** Wipe with a dry cloth to remove dust and light debris.
- **Stains:** For spills or stains on the upholstered polyester fabric, blot immediately with a clean, dry cloth. For tougher stains, a mild fabric cleaner designed for polyester upholstery may be used, but always test on an inconspicuous area first. Avoid harsh chemicals or abrasive cleaners.
- **General Care:** Avoid leaning against the headboard with hair products or oils, as these may cause permanent staining on the fabric.
- **Tightening:** Periodically check and tighten all screws and connections to ensure the headboard remains stable and secure.

Troubleshooting

Here are some common issues and their potential solutions:

- **Wobbling or Instability:**
  - Ensure all bolts connecting the headboard to the bed frame are securely tightened.
  - Verify that the headboard legs are properly aligned with your bed frame's attachment points.
  - If using a non-Zinus bed frame, check for compatibility issues or consider universal headboard brackets if needed.
- **Squeaking or Noise:**
  - Tighten all connections. Loose bolts can cause friction and noise.
  - As mentioned in Setup, consider adding foam washers between metal-to-metal contact points to dampen vibrations.
- **Fabric Stains or Discoloration:**
  - Refer to the "Maintenance" section for cleaning instructions.
  - Promptly address spills. Some substances, especially oils or certain hair products, may cause permanent marks if not cleaned immediately.
