Aimole 613D

Aimole Short Gold Blond Synthetic Wig User Manual

Model: 613D

1. Introduction

Thank you for choosing the Aimole Short Gold Blond Synthetic Wig. This manual provides essential information for the proper use, care, and maintenance of your wig. Please read these instructions carefully before first use to ensure optimal performance and longevity of your product.

2. Safety Information

- **Heat Resistance:** This wig is made from high-temperature heat-resistant fiber. While it can withstand heat styling, always use the lowest possible heat setting and perform a strand test on an inconspicuous area first to prevent damage.
- **Flammability:** Keep the wig away from open flames, excessive heat sources, and sparks. Synthetic hair can melt or burn.
- **Chemicals:** Avoid applying harsh chemicals, dyes, or perms to the wig, as these can damage the synthetic fibers.
- **Children:** Keep the wig out of reach of small children to prevent accidental ingestion or entanglement.

3. Product Overview

The Aimole Short Gold Blond Synthetic Wig is designed for a natural look and comfortable fit. It features a short, straight style in a gold blond color (Model 613D) and is constructed with high-temperature heat-resistant synthetic fiber.

- **Length:** Approximately 8 inches
- **Style:** Straight
- **Color:** Gold Blond (613D)
- **Material:** High Temperature Heat Resistant Fiber
- **Cap Type:** New rose net cap for comfort and breathability
- **Cap Size:** Average (22-22.75 inches), adjustable to fit most head sizes

4. Setup and Preparation

4.1 Preparing Your Natural Hair

1. **Clean and Dry:** Ensure your natural hair is clean and completely dry before wearing the wig.
2. **Flatten Hair:** For short hair, simply comb it back. For longer hair, braid it into flat cornrows or pin it up securely against your head to create a smooth, flat surface.
3. **Wig Cap (Optional but Recommended):** Place a wig cap over your natural hair to further flatten it and provide a barrier between your hair and the wig.

4.2 Preparing the Wig

- **Remove from Packaging:** Carefully remove the wig from its packaging.

- **Shake Gently:** Gently shake the wig to help it regain its style and volume.
- **Adjust Straps:** Locate the adjustable straps inside the wig cap. Adjust them to a comfortable size that will fit snugly around your head without being too tight. The cap size is average (22-22.75 inches) and can be adjusted.

5. Wearing Instructions

1. **Position the Wig:** Hold the wig by the ear tabs. Place the front edge of the wig at your natural hairline.
2. **Pull Back:** Gently pull the wig back over your head, ensuring all your natural hair is tucked inside the cap.
3. **Adjust for Fit:** Adjust the wig so that it sits evenly and comfortably. Use the ear tabs to center the wig.
4. **Style:** Lightly comb or finger-style the wig to achieve your desired look.

6. Maintenance and Care

6.1 Washing the Wig

1. **Detangle:** Before washing, gently detangle the wig using a wide-tooth comb or your fingers, starting from the ends and working your way up.
2. **Prepare Water:** Fill a basin with cool or lukewarm water. Add a small amount of wig shampoo (specifically designed for synthetic wigs).
3. **Wash:** Submerge the wig in the water and gently swish it around. Do not rub, scrub, or twist the wig, as this can cause tangling and damage.
4. **Rinse:** Rinse the wig thoroughly under cool running water until all shampoo is removed.
5. **Condition (Optional):** Apply a small amount of wig conditioner, focusing on the ends. Let it sit for a few minutes, then rinse thoroughly.

6.2 Drying the Wig

1. **Towel Dry:** Gently blot the wig with a clean towel to remove excess water. Do not wring or twist.
2. **Air Dry:** Place the wig on a wig stand or a clean, dry towel in a well-ventilated area away from direct sunlight or heat. Allow it to air dry completely. Do not use a blow dryer unless on a very low, cool setting, as excessive heat can damage synthetic fibers.

6.3 Styling the Wig

- **Combing:** Use a wide-tooth comb or your fingers to style the wig once it is dry.
- **Heat Styling:** This wig is heat-resistant. If using heat tools (curling iron, straightener), ensure they are set to the lowest possible temperature. Always test on a small, hidden section first. Excessive heat can still cause damage.
- **Products:** Use styling products specifically designed for synthetic wigs. Avoid heavy gels or sprays that can cause buildup.

Image 6.1: Side view of the wig on a mannequin, illustrating the short cut and how it frames the face.

7. Storage

Proper storage helps maintain the wig's shape and extends its lifespan.

- **Wig Stand:** Store the wig on a wig stand or mannequin head when not in use to help maintain its shape and prevent tangling.
- **Cool, Dry Place:** Keep the wig in a cool, dry place away from direct sunlight, dust, and extreme temperatures.
- **Original Packaging:** If a wig stand is not available, you can store it in its original packaging or a satin bag to prevent friction and tangling.

8. Troubleshooting

- **Tangling:** Synthetic wigs can tangle, especially with friction. Gently detangle with a wide-tooth comb or your fingers, starting from the ends. Use a wig detangling spray if needed.
- **Shedding:** Minor shedding is normal, especially during the first few uses. Excessive shedding may indicate rough handling during washing or styling.
- **Loss of Luster:** Over time, synthetic wigs may lose some of their original luster. Washing with wig shampoo and conditioner can help restore it. Avoid using regular hair products.
- **Uncomfortable Fit:** Adjust the straps inside the wig cap to achieve a more comfortable and secure fit. Ensure your natural hair is properly flattened underneath.

9. Specifications

Brand Name	Aimole
Model Number	613D
Material Type	High Temperature Heat Resistant Synthetic Fiber
Hair Type	Straight
Color	Gold Blond (#613D)
Length	Approx. 8 inches
Cap Size	Average (22-22.75 inches), adjustable
Item Weight	3.84 ounces
UPC	614993624022
ASIN	B073S4ZV9D

10. Warranty and Support

Aimole strives to provide high-quality products. Specific warranty information for this product is not provided in the available documentation.
