MAINTENANCE

Proper maintenance will ensure the longevity and appearance of your Bush Business Furniture Series C office set.

- **Cleaning Surfaces:** Wipe laminate surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that can damage the finish.
- **Spills:** Clean spills immediately to prevent staining or damage to the laminate.
- **Hardware:** Periodically check and tighten all screws and fasteners to ensure stability. Do not overtighten.
- **Drawers and Casters:** Ensure drawer slides operate smoothly. If they become stiff, a silicone-based lubricant can be applied sparingly. Keep caster wheels free of debris to ensure smooth movement.

TROUBLESHOOTING

If you encounter issues with your furniture, refer to the following common solutions:

- **Wobbly Desk/Hutch:** Check that all assembly hardware is securely tightened. Ensure the unit is on a level surface; adjust leveling glides if necessary.
- **Sticking Drawers:** Verify that the drawer slides are properly aligned and free of obstructions. Ensure the drawer is not overloaded. A small amount of silicone lubricant can improve slide operation.
- **Hutch Doors Not Aligning:** Review the assembly instructions for the hutch doors. Ensure hinges are correctly installed and adjusted. Minor adjustments can often be made to hinge screws to align doors.
- **Lock Malfunction:** Ensure the key is fully inserted and turned correctly. Check for any obstructions in the locking mechanism. Do not force the lock.
- **Casters Not Rolling Smoothly:** Inspect wheels for hair, dust, or other debris and clean as needed.
