Lumaland LL-20242-012

Lumaland Luxurious 5ft Large Bean Bag Chair Instruction Manual

MODEL: LL-20242-012 | BRAND: LUMALAND

1. Introduction

Thank you for choosing the Lumaland Luxurious 5ft Large Bean Bag Chair. This manual provides essential information for the proper setup, use, care, and maintenance of your new bean bag chair. Please read these instructions carefully before initial use to ensure optimal comfort and longevity of the product.

2. Safety Information

- Allow up to 2 weeks for the bean bag to expand to its full size.
- Gently fluff the bean bag and break up any foam clusters to support and accelerate the expansion process.
- Be cautious while handling the bean bag, especially if children are present.
- Always supervise young children when they are using or around the bean bag chair to prevent any potential suffocation hazards.
- Follow the care instructions for proper cleaning and maintenance to ensure the longevity and safety of the product.
- Position the bean bag chair on a stable, flat surface to avoid tipping or instability.

3. Setup Instructions

Your Lumaland Bean Bag Chair ships compressed for efficient delivery. Follow these steps to prepare it for use:

1. **Unpack the Bean Bag:** Carefully remove the compressed bean bag from its shipping box and plastic bag.
2. **Remove Outer Cover:** Unzip the outer microsuede cover and set it aside. The inner beige polyester cover contains the shredded foam filling.
3. **Fluff the Foam:** The foam filling will be tightly compressed. To aid expansion, gently roll, flip, and knead

the inner bag to break up foam clusters and allow air to circulate. This process may take up to 2 hours of active fluffing.

4. **Allow to Expand:** The bean bag will gradually expand to its full size over 3 to 10 days, and potentially up to 2 weeks for peak coziness. Continue to fluff and rotate the bean bag periodically to encourage even expansion.
5. **Re-attach Outer Cover:** Once the foam has expanded sufficiently, place the outer microsuede cover back onto the inner bag and zip it closed.

Got my package... Now what?

Place package in the space you intend to keep it. Then remove the box, unzip the grey duffle and remove from plastic bag. Set aside the outer cover until bean bag has fully expanded.

Now the fun begins. Roll & flip the tan liner to get air into the vacuumed foam. This can take up to 2 weeks to fully expand. The more you fluff, the quicker it will grow to its giant size!

If its now the size of a small planet you are ready to put the outer cover on and take the best nap ever!

Image 2: A close-up view demonstrating the manual fluffing of the shredded foam filling to aid in its expansion.

4. Usage Guidelines

The Lumaland Bean Bag Chair is designed for versatile use and comfort in various settings:

- **Relaxation:** Ideal for lounging, reading, watching movies, or simply unwinding.

- **Gaming:** Provides a comfortable and supportive seat for extended gaming sessions.
- **Extra Seating:** A flexible seating option for guests in living rooms, dorms, basements, or family rooms.
- **Study Area:** Offers a relaxed environment for studying or schoolwork.

Image 4: A man casually seated on the 5ft navy blue bean bag chair, highlighting its spacious design.

5. Care and Maintenance

Proper care ensures the longevity and hygiene of your bean bag chair:

- **Outer Cover Cleaning:** The microsuede outer cover is machine-washable. Remove the cover by unzipping it. Wash in cold water on a gentle cycle with similar colors. Tumble dry on low heat or air dry. Do not bleach.
- **Inner Liner:** The inner beige polyester cover is not designed to be removed or washed. It securely contains the shredded foam filling.
- **Foam Maintenance:** To maintain the bean bag's fluffiness and shape, periodically fluff and rotate it. This helps redistribute the shredded foam and prevents flattening.
- **Spot Cleaning:** For small spills on the outer cover, spot clean with a mild detergent and damp cloth.

Image 5: A man demonstrating how to unzip and remove the outer cover for cleaning, revealing the inner foam-filled liner.

Image 6: A close-up of the robust zipper mechanism on the bean bag's outer cover, designed for durability and easy removal.

6. Troubleshooting

- **Bean Bag Not Fully Expanded:** Ensure you have thoroughly fluffed the foam filling to break up all compressed clusters. Continue fluffing daily and allow up to two weeks for full expansion. Warm environments can sometimes accelerate this process.
- **Unusual Odor:** A new foam product may have a slight odor upon unboxing due to manufacturing processes. This is normal and typically dissipates within a few days to a week in a well-ventilated area.
- **Cover Stains:** For stubborn stains on the microsuede cover, follow the machine-washing instructions. For immediate spills, blot gently with a clean cloth and mild soap solution.

7. Specifications

Feature	Detail
Brand	Lumaland
Model Number	LL-20242-012

Size	5 Foot (60 inches width x 23.7 inches height x 23.6 inches depth)
Color	Navy Blue
Fabric Type	100% Polyester Microsuede
Fill Material	Shredded Foam (Memory Foam)
Item Weight	55 pounds
Special Feature	Washable Outer Cover
Recommended Uses	Indoor, Versatile (Adult, Kid, Teen)
