## Melitta 212382

# Melitta Premium Organic Bio Liquid Coffee Machine Descaler

**Model:** 212382

Instruction Manual

## 1. INTRODUCTION

The Melitta Premium Organic Bio Liquid Descaler is designed for effective removal of stubborn limescale deposits from various coffee machines, kettles, and single-portion machines. This product is suitable for use in food preparation areas. Regular descaling helps maintain appliance performance and extends its lifespan.

This manual provides essential information for the safe and effective use of the descaler. Please read it carefully before use.

## 2. SAFETY INFORMATION

**Important:** Always handle descaling agents with care. Refer to the hazard symbols and warnings on the product label.

- Keep out of reach of children.
- Avoid contact with eyes. In case of contact, rinse immediately with plenty of water and seek medical advice.
- Do not ingest. If swallowed, seek medical advice immediately and show this container or label.

- Always follow the specific descaling instructions provided by your appliance manufacturer.

### 3. PRODUCT OVERVIEW

Image: Front view of the Melitta Anti Calc Bio Liquid descaler bottle, highlighting its organic composition and multi-usage capability.

The Melitta Premium Organic Bio Liquid Descaler is formulated with citric acid, which is already dissolved for immediate use. It is designed for compatibility with various coffee machines, including those from Nespresso, Delonghi, and Jura, as well as kettles and other automatic coffee machines.

Organic Formula

Highly Effective

Up to 6 Uses

Multi-Appliance Compatibility

## 4. SETUP AND PREPARATION

The Melitta Premium Organic Bio Liquid Descaler is ready for immediate use after dilution. No prior mixing or dissolving of powder is required.

1. Ensure your appliance is switched off and cooled down before starting the descaling process.
2. Consult your appliance's instruction manual for specific descaling procedures and recommended dilution ratios.
3. Prepare the descaling solution according to your appliance's manual, typically by diluting a portion of the Melitta descaler with water.

## 5. OPERATING INSTRUCTIONS

The descaling process varies depending on the type and model of your coffee machine or kettle. It is crucial to follow the manufacturer's guidelines for your specific appliance.

Image: A woman holding the Melitta descaler bottle next to a coffee machine, emphasizing the importance of consulting the appliance's instruction manual for descaling.

### General Steps (Always refer to your appliance manual for specifics):

1. **Dilution:** Dilute the Melitta descaler with water as specified by your appliance's manual. A common ratio is 1 part descaler to 2-3 parts water, but this can vary. The 250ml bottle provides approximately

6 treatments.

2. **Application:** Pour the diluted descaling solution into the water tank of your coffee machine or kettle.
3. **Descaling Cycle:** Initiate the descaling program on your appliance. If your appliance does not have an automatic program, follow the manual's instructions for manual descaling (e.g., running a portion of the solution through, letting it sit, then running the rest).
4. **Rinsing:** After the descaling cycle is complete, thoroughly rinse the appliance. Fill the water tank with fresh, clean water and run several rinsing cycles until no descaler residue remains. This is critical to remove any chemical traces.
5. **Disposal:** Dispose of the used descaling solution and rinse water according to local regulations.

For optimal results, descale your appliance regularly, especially in areas with hard water, to prevent limescale buildup.

## 6. MAINTENANCE AND STORAGE

---

- Store the Melitta descaler in a cool, dry place, away from direct sunlight and extreme temperatures.
- Ensure the bottle cap is tightly closed after each use to prevent evaporation or contamination.
- Keep the product in its original packaging.

## 7. TROUBLESHOOTING

---

If your appliance is not descaling effectively or if you encounter issues during the process:

- Verify that you have followed the specific descaling instructions for your appliance model precisely.
- Ensure the correct dilution ratio of descaler to water was used.
- If limescale buildup is severe, a second descaling cycle may be necessary.
- For persistent issues, consult your appliance's user manual or contact the appliance manufacturer's support.

## 8. SPECIFICATIONS

---

Feature	Detail
Brand	Melitta
Model Number	212382
Item Form	Liquid
Material Feature	Organic
Scent	Unscented
Item Volume	250 Millilitres
Net Quantity	250.0 Milliliters
Item Weight	320 Grams
Product Dimensions (LxWxH)	32 x 73 x 200 Millimeters
Specific Uses For Product	Coffee machines, kettles, single-portion machines
Special Feature	Descaler, Removes limescale
Treatments per bottle	Approximately 6
GTIN (from product image)	4006508217700
