# Bytech Universal Car Mount BYMOMO100BK Instruction Manual

Model: BYMOMO100BK

## INTRODUCTION

This instruction manual provides detailed guidance for the proper installation, operation, and maintenance of your Bytech Universal Car Mount, model BYMOMO100BK. Please read this manual thoroughly before use to ensure optimal performance and safety.

## PRODUCT OVERVIEW

The Bytech Universal Car Mount is designed to securely hold various portable electronic devices in your vehicle. Its features include:

- **Universal Compatibility:** Designed to fit most smartphones, GPS devices, and MP3 players.
- **Adjustable Holder:** Accommodates devices of various sizes.
- **Suction Cup Mount:** Provides secure attachment to windshields.
- **360° Adjustable View:** Allows for flexible positioning and optimal viewing angles.

Image 1: Bytech Universal Car Mount product packaging. The box highlights features such as 'Universal Car Mount', 'Windshield Mount', '360° Adjustable View', 'Adjustable Holder', 'Suction Cup Mount', and 'Fits Most Smartphones'. A smartphone is shown mounted, displaying a navigation application.

## SETUP INSTRUCTIONS

1. **Clean the Mounting Surface:** Ensure the windshield surface where you intend to mount the device is clean and dry. Use a clean cloth to wipe away any dust or residue.
2. **Attach the Suction Cup:** Press the suction cup firmly against the desired clean, flat surface on your windshield. Flip the lever (if present) on the base of the suction cup to lock it into place, creating a strong vacuum seal.
3. **Adjust the Mount Arm:** Loosen any adjustment knobs or levers on the mount arm to position it to your preferred height and angle. Tighten them once the desired position is achieved.
4. **Insert Your Device:** Gently expand the adjustable holder arms. Place your smartphone, GPS, or MP3 player into the holder, ensuring it is securely gripped by the arms. The holder is designed to accommodate various device widths.
5. **Final Adjustments:** Make any final adjustments to the device's angle using the 360° adjustable view feature for optimal visibility without obstructing your driving view.

**Important:** Do not mount the device in a location that obstructs your view of the road or interferes with airbag deployment.

## OPERATING INSTRUCTIONS

---

- **Securing Your Device:** Always ensure your device is firmly seated in the adjustable holder before driving.
- **Adjusting Viewing Angle:** The mount features a 360° adjustable view. Loosen the appropriate knob or joint, rotate your device to the desired orientation (portrait or landscape), and then tighten the knob to secure it.
- **Removing Your Device:** Gently press the release button or expand the holder arms to safely remove your device. Avoid pulling the device forcefully from the holder.

## MAINTENANCE

---

- **Cleaning:** Wipe the mount periodically with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners, as these may damage the material.
- **Suction Cup Care:** If the suction cup loses its grip, clean it with warm, soapy water and let it air dry. This can restore its adhesive properties.
- **Storage:** When not in use for extended periods, store the mount in a cool, dry place away from direct sunlight.

## TROUBLESHOOTING

---

**Problem: The suction cup does not stick to the windshield.**

**Solution:** Ensure the windshield surface is clean, dry, and smooth. Clean the suction cup with warm, soapy water and let it air dry before reattaching. Press firmly and engage the locking lever.

**Problem: My device does not fit in the holder.**

**Solution:** The holder arms are adjustable. Gently expand them to accommodate your device. If your device is exceptionally large or small, it may not be compatible.

**Problem: The mount is wobbly or does not hold its position.**

**Solution:** Check all adjustment knobs and levers to ensure they are securely tightened after positioning the mount and device.

## SPECIFICATIONS
