Spigen Neo Hybrid Herringbone Case User Manual

FOR iPhone SE (2022/2020) / iPhone 8 / iPhone 7

Introduction

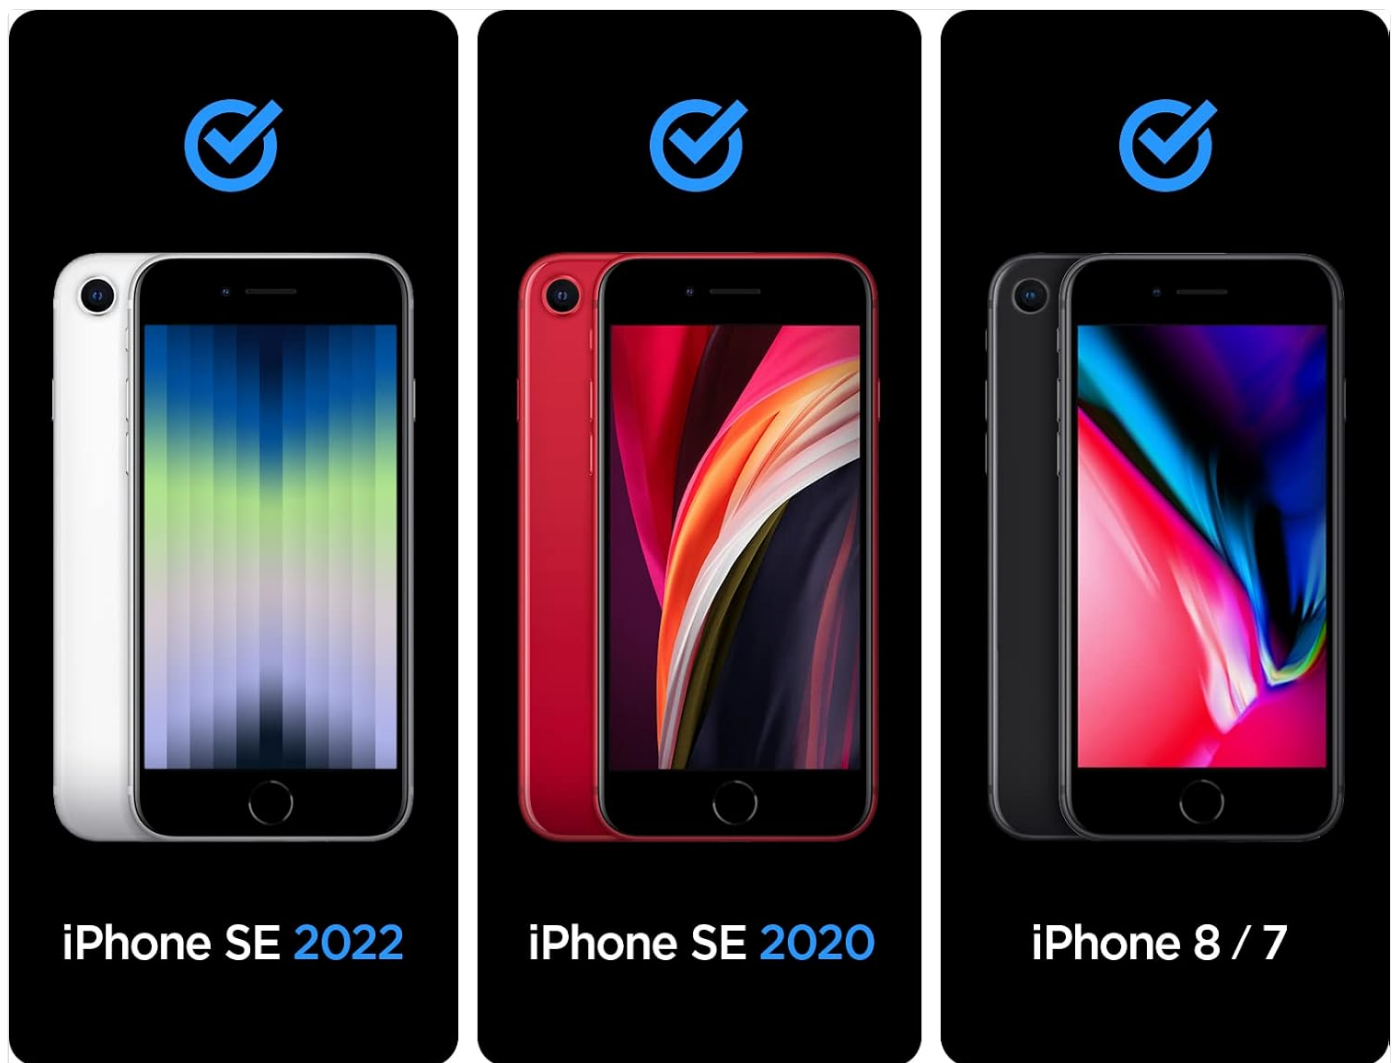

This manual provides comprehensive instructions for the installation, use, and maintenance of your Spigen Neo Hybrid Herringbone Back Cover Case. Designed specifically for the iPhone SE (2022/2020), iPhone 8, and iPhone 7, this case offers a durable hybrid structure with a reinforced bumper, combining polycarbonate and thermoplastic polyurethane for optimal protection.

Key features include Air Cushion Technology for shock absorption, anti-fingerprint and anti-slip properties, and a slim fit design to maintain your device's profile.

Compatibility

The Spigen Neo Hybrid Herringbone case is precisely engineered for the following Apple iPhone models:

- iPhone SE (2022)
- iPhone SE (2020)
- iPhone 8
- iPhone 7

Compatibility.
Please check the model.

Installation Instructions

Follow these steps to properly install your Spigen Neo Hybrid Herringbone case:

1. **Prepare your device:** Ensure your iPhone is clean and free of dust or debris.
2. **Separate the case components:** The Neo Hybrid case consists of two parts: a flexible TPU inner layer and a rigid polycarbonate bumper frame. Gently separate the bumper frame from the TPU layer.
3. **Insert the phone into the TPU layer:** Carefully place your iPhone into the flexible TPU inner layer, ensuring all edges and corners are properly seated.
4. **Attach the bumper frame:** Align the polycarbonate bumper frame with the TPU layer. Start by snapping one side of the bumper onto the TPU layer, then work your way around the phone, ensuring all clips engage securely.
5. **Verify fit:** Once installed, check that the case fits snugly around your iPhone, and all buttons and ports are accessible and functional.

Operating Instructions

Your Spigen Neo Hybrid Herringbone case is designed for seamless daily use:

- **Button Access:** The case features precise cutouts and responsive button covers, allowing full access to volume controls, power button, and mute switch without obstruction.
- **Port Access:** All ports, including the charging port and speaker grilles, are easily accessible through accurately designed openings.
- **Wireless Charging:** The slim design of the case ensures full compatibility with wireless charging pads. You do not need to remove the case to charge your device wirelessly.
- **Enhanced Grip:** The patterned TPU and matte finish provide an anti-slip surface, reducing the risk of accidental drops.

Other essentials for your day to day grind.

Sleek Style

Modern and form-fitted design for sophisticated look.

Wireless charging

Need more power? Just charge on with the case.

Protection Features

The Neo Hybrid Herringbone case incorporates several design elements to safeguard your iPhone:

- **Air Cushion Technology:** Integrated into the corners of the TPU layer, this technology absorbs and disperses impact forces from drops and bumps.
- **Raised Bezels:** The case features raised edges around the screen and camera cutout. This design lifts the phone's display and camera lens off flat surfaces, preventing direct contact and potential scratches.
- **Hybrid Structure:** The combination of a flexible TPU body and a rigid polycarbonate bumper provides dual-layer protection against impacts and daily wear.

Protect what's important.

Maintain pristine condition.

Care and Maintenance

To ensure the longevity and appearance of your Spigen Neo Hybrid Herringbone case, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft, damp cloth with mild soap and water to clean the case. Avoid harsh chemicals or abrasive cleaners, as these can damage the material or finish.
- **Drying:** Allow the case to air dry completely before reattaching it to your phone.
- **Storage:** When not in use, store the case in a cool, dry place away from direct sunlight to prevent material degradation.

Troubleshooting

If you encounter any issues with your Spigen Neo Hybrid Herringbone case, consider the following:

- **Case not fitting properly:** Ensure you have the correct model of iPhone (SE 2022/2020, 8, or 7). Re-check the installation steps, ensuring the TPU layer is fully seated and the polycarbonate bumper is securely snapped into place around all edges.
- **Buttons are stiff or unresponsive:** Verify that the case is correctly aligned with your phone's buttons. Sometimes a slight adjustment can resolve this.
- **Wireless charging issues:** Confirm that your wireless charger is functional and your phone is correctly positioned on the charging pad. The case is designed to be compatible with wireless charging, so removal should not be necessary.

Product Specifications

Brand	Spigen
Model Name	Neo Hybrid Herringbone
Model Number	054CS22202
Compatible Phone Models	iPhone SE (2022/2020), iPhone 8, iPhone 7
Material	Polycarbonate, Thermoplastic Polyurethane (TPU)
Product Features	Air-cushion technology, Anti-Fingerprint, Anti-Slip, Shock-Absorbent, Slim Fit
Item Dimensions (L x W x H)	7.6 x 1 x 15.2 Centimeters
