## De'Longhi DEX12, DEX14

# De'Longhi DEX12 DEX14 Dehumidifier Air Filter Instruction Manual

Model: DEX12, DEX14 Compatible Dehumidifiers

## 1. PRODUCT OVERVIEW

This document provides instructions for the De'Longhi original air filter, designed for use with De'Longhi DEX12 and DEX14 series dehumidifiers. This filter is a crucial component for maintaining the air quality and efficiency of your dehumidifier by capturing dust and airborne particles.

**Image 1.1:** Front view of the De'Longhi dehumidifier air filter. This image displays the filter's white rectangular frame and the fine mesh grid designed to capture airborne particles.

## 2. COMPATIBILITY

---

This air filter is compatible with the following De'Longhi dehumidifier models:

- **DEX 12** (Codes: 0148712230, 0148712231)
- **DEX 14** (Codes: 0148714230, 0148714231)

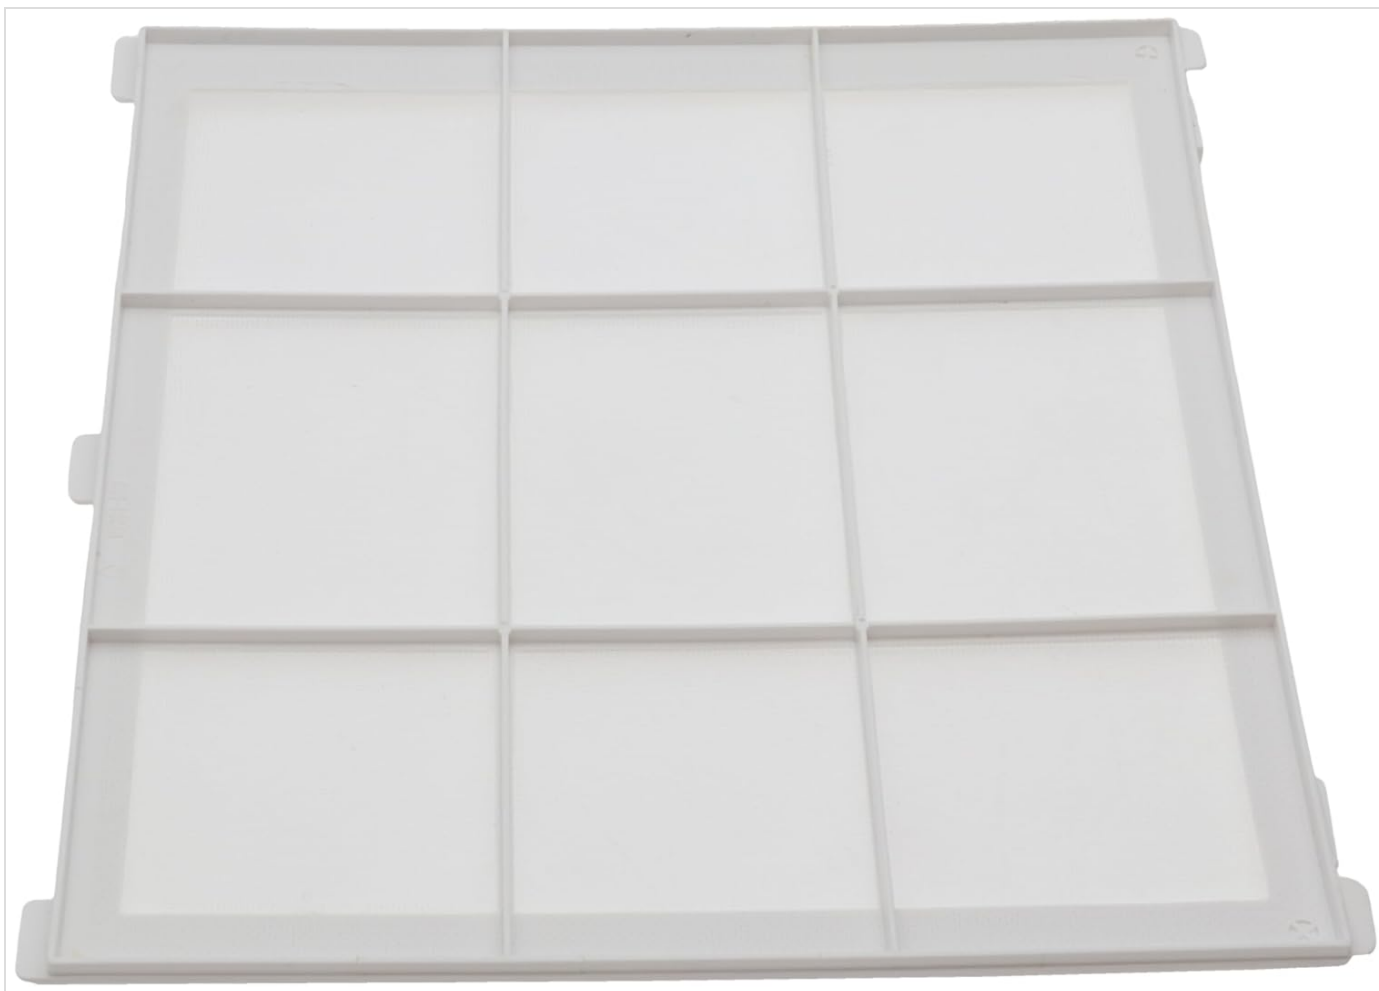

Please verify your dehumidifier's model number before purchasing to ensure correct fit and function. If your model is not listed, please consult your dehumidifier's manual or contact De'Longhi customer support for assistance.

## 3. INSTALLATION

---

Follow these steps to install or replace the air filter in your De'Longhi dehumidifier:

1. **Power Off:** Ensure the dehumidifier is turned off and unplugged from the power outlet before proceeding.
2. **Locate Filter Compartment:** Refer to your dehumidifier's user manual to locate the air filter compartment. This is typically on the back or side of the unit.
3. **Remove Old Filter:** Carefully open the filter compartment cover and remove the existing air filter. Note its orientation for correct installation of the new filter.
4. **Insert New Filter:** Place the new De'Longhi air filter into the compartment, ensuring it is seated correctly and securely. The filter should fit snugly without forcing.
5. **Close Compartment:** Close the filter compartment cover.
6. **Restore Power:** Plug the dehumidifier back into the power outlet and turn it on.

**Image 3.1:** Rear view of the De'Longhi dehumidifier air filter. This image shows the reverse side of the filter, highlighting the structural integrity and mesh design.

**Important:** Always ensure the dehumidifier is unplugged before handling internal components to prevent electric shock.

## 4. MAINTENANCE

---

Regular maintenance of your air filter is essential for optimal dehumidifier performance and air quality. While this filter is designed for replacement, you can extend its life and efficiency by periodically cleaning it:

- **Inspection:** Visually inspect the filter every 2-4 weeks, or more frequently if the dehumidifier is used in a dusty environment.
- **Cleaning:** If the filter appears dusty, gently remove it from the dehumidifier (following installation steps 1-3). Use a soft brush or a vacuum cleaner with a brush attachment to remove accumulated dust and debris. Do not wash the filter with water unless explicitly stated in your dehumidifier's manual, as this specific filter type may not be washable.
- **Replacement:** The air filter should be replaced every 3-6 months, or sooner if it becomes heavily soiled or damaged, to ensure efficient operation and prevent strain on the dehumidifier's motor.

## 5. TROUBLESHOOTING

---

If you experience issues after installing a new air filter, consider the following:

- **Dehumidifier Not Operating:** Ensure the filter is correctly seated and the compartment cover is fully closed. Some dehumidifiers have safety switches that prevent operation if the filter or cover is not properly installed.

- **Reduced Efficiency:** If the dehumidifier's performance decreases shortly after filter replacement, double-check that the correct filter model was installed and that it is clean. A heavily soiled filter will restrict airflow.
- **Unusual Noises:** Verify the filter is securely in place and not vibrating against the dehumidifier's casing.

For persistent issues, refer to your dehumidifier's main instruction manual or contact De'Longhi customer support.

## 6. SPECIFICATIONS

Feature	Detail
Brand	De'Longhi
Product Type	Dehumidifier Air Filter
Compatible Models	De'Longhi DEX12, DEX14 Series Dehumidifiers
Dimensions (L x W x H)	18 cm x 0.5 cm x 20 cm (approx. 7.09 in x 0.2 in x 7.87 in)
Weight	40 g (approx. 0.09 lbs)
Material	Plastic frame with filter mesh (specific material not provided)

## 7. WARRANTY AND SUPPORT

This De'Longhi original air filter is designed for quality and performance. For specific warranty information regarding this replacement part, please refer to the documentation provided with your original De'Longhi dehumidifier or visit the official De'Longhi website.

For technical support, replacement part inquiries, or further assistance, please contact De'Longhi customer service through their official channels.
