SKMEI SKMEI 9058

SKMEI 9058 Business Men's Quartz Watch - Instruction Manual

INTRODUCTION

Thank you for choosing the SKMEI 9058 Business Men's Quartz Watch. This manual provides essential information for the proper setup, operation, and maintenance of your new timepiece. Please read these instructions carefully to ensure optimal performance and longevity of your watch.

SETUP

Initial Inspection

Upon unboxing, inspect your watch for any visible damage. The watch comes with a pre-installed CR2 battery, designed for approximately 2 years of life.

Setting the Time and Date

1. To set the **date**: Gently pull the crown (the knob on the side of the watch) out to the **first position**. Rotate the crown clockwise or counter-clockwise until the desired date is displayed.
2. To set the **time**: Pull the crown out to the **second position**. Rotate the crown to move the hour and minute hands to the correct time. Ensure you account for AM/PM if setting the date, as the date changes at midnight.
3. Once the time and date are set, push the crown back into its original position to engage the movement and start the watch.

OPERATING INSTRUCTIONS

Your SKMEI 9058 watch is an analog timepiece powered by a precise Japanese quartz movement. It displays hours, minutes, seconds, and the current date.

- **Time Reading:** The watch features a classic analog dial with Roman numeral hour markers. The longer hand indicates minutes, the shorter hand indicates hours, and the thin sweeping hand indicates seconds.
- **Date Display:** The date window is located on the dial, typically at the 3 o'clock position, and updates automatically every 24 hours.

MAINTENANCE

Cleaning

To maintain the appearance of your watch, wipe the case and mineral glass dial window with a soft, dry cloth. For the leather strap, use a slightly damp cloth and allow it to air dry. Avoid using harsh chemicals or abrasive materials.

Water Resistance

This watch is rated for **30 meters (98 feet) water resistance**. This means it is suitable for daily use, such as hand washing, rain, and splashes. However, it is **not suitable for hot water baths, showering, diving, or any underwater activities**. Always ensure the crown is fully pushed in before any contact with water. **Do not pull the crown while the watch is in water.**

Strap Care

The watch features a PU leather strap. To prolong its life, avoid prolonged exposure to direct sunlight, extreme temperatures, and excessive moisture. If the strap becomes wet, dry it thoroughly with a soft cloth before wearing.

“ LEATHER STRAP

Featured inner calf leather strap, soft, comfortable and breathable comfort, Clear and simple, yet elegant brand has always been calm style.

High-grade embossed leather strap, to enhance the customer experience, more comfortable to wear.

TROUBLESHOOTING

- **Watch not running:** Ensure the crown is fully pushed in. If the watch still does not run, the battery may need replacement.
- **Incorrect time/date:** Refer to the "Setting the Time and Date" section to re-adjust.
- **Condensation under crystal:** If condensation appears, it may indicate a breach in water resistance. Avoid further water exposure and seek professional inspection.
