Targus AKB55TT

Targus Multi-Platform Bluetooth Keyboard User Manual

Model: AKB55TT

PRODUCT OVERVIEW

The Targus KB55 Multi-Platform Bluetooth Keyboard is a compact and portable wireless keyboard designed for seamless connectivity across various devices. It features Bluetooth 3.0 wireless technology, scissor-switch keys for responsive typing, and multi-platform compatibility with Windows, Mac, iOS, and Android operating systems. The keyboard is powered by two AAA batteries and includes a battery life indicator for convenience.

SETUP GUIDE

1. Battery Installation

The keyboard requires two AAA batteries (included). To install:

1. Locate the battery compartment cover on the underside of the keyboard.
2. Slide the cover open.
3. Insert the two AAA batteries, ensuring correct polarity (+ and -).
4. Close the battery compartment cover securely.

2. Powering On the Keyboard

Locate the power on/off switch on the keyboard. Slide the switch to the "ON" position. The battery life indicator light will briefly illuminate.

3. Bluetooth Pairing

To connect your keyboard to a device via Bluetooth:

1. Ensure the keyboard is powered on.
2. Press and hold the **Fn** key and the **Bluetooth pairing key** (usually indicated by a Bluetooth symbol or a specific F-key like F1, F2, or F3 depending on the model) for 3-5 seconds until the Bluetooth indicator light starts blinking. This indicates the keyboard is in pairing mode.
3. On your device (smartphone, tablet, computer), go to the Bluetooth settings.
4. Enable Bluetooth if it's not already enabled.
5. Search for available devices. The keyboard should appear as "Targus KB55" or similar.
6. Select the keyboard from the list to initiate pairing.
7. If prompted, enter the pairing code displayed on your device using the keyboard and press **Enter**.
8. Once successfully paired, the Bluetooth indicator light on the keyboard will stop blinking and remain solid or turn off, depending on the model.

OPERATING INSTRUCTIONS

Multi-Platform Compatibility

The Targus KB55 keyboard is designed to work with multiple operating systems. Some keys have dual labels (e.g., iOS, Android, Windows) to indicate their function across different platforms. The keyboard automatically adapts to the connected device's operating system for optimal functionality.

Function Keys (Fn)

Many keys on the top row have secondary functions, accessible by holding down the **Fn** key and pressing the desired

function key (F1-F12). These functions typically include media controls, volume adjustments, and screen brightness.

Typing Experience

The keyboard features scissor-switch keys, which provide a comfortable and responsive typing experience with a satisfying tactile feedback.

MAINTENANCE

Battery Life Indicator

The keyboard is equipped with a battery life indicator light. When the batteries are running low, this light will illuminate to notify you that it's time to replace them.

Cleaning the Keyboard

To clean your keyboard, ensure it is powered off. Use a soft, lint-free cloth slightly dampened with water or a mild cleaning solution. Avoid excessive moisture and do not spray cleaners directly onto the keyboard. For debris between keys, use compressed air.

TROUBLESHOOTING

- **Keyboard not connecting/pairing:**
 - Ensure the keyboard is powered on and the batteries are not depleted.
 - Make sure Bluetooth is enabled on your device and it is within range (up to 33 feet).
 - Put the keyboard back into pairing mode (Fn + Bluetooth pairing key).
 - Remove the keyboard from your device's Bluetooth list and attempt to re-pair.
 - Restart both the keyboard (power off/on) and your device.
- **Keys not responding:**
 - Check battery level and replace if necessary.
 - Ensure the keyboard is properly connected via Bluetooth.
 - Clean any debris that might be obstructing the keys.
- **Battery life is short:**
 - Ensure you are using quality AAA batteries.
 - Remember to turn off the keyboard using the power switch when not in use to conserve battery life.
