- 1 x Instruction Manual

## 2. SAFETY INFORMATION

---

Please read and understand all safety instructions before assembling and using the cat tree. Failure to follow these instructions may result in injury or damage to the product.

- **Adult Assembly Required:** This product requires adult assembly. Keep small parts away from children and pets during assembly.
- **Check Stability:** Ensure all screws and connections are tightened securely after assembly. Regularly

check the stability of the cat tree, especially if multiple cats use it.

- **Use Anti-Toppling Device:** Always use the provided anti-toppling device to secure the cat tree to a wall. This prevents accidental tipping, especially with active or larger cats.
- **Placement:** Place the cat tree on a flat, stable surface. Avoid placing it near windows without screens or other hazards.
- **Inspect Regularly:** Periodically inspect the cat tree for loose parts, damaged sisal, or worn fabric. Replace or repair damaged components immediately to prevent injury to your pet.
- **Weight Limit:** While designed for multiple cats, be mindful of the overall weight capacity. Overloading may compromise stability.

### 3. SETUP INSTRUCTIONS

---

Follow these steps to assemble your Feandrea Cat Tree PCT25G. It is recommended to lay out all components before beginning assembly.

#### Step-by-Step Assembly:

1. **Unpack Components:** Carefully remove all parts from the packaging. Verify that all components listed in the parts list (usually found in the included instruction manual) are present.
2. **Identify Base:** Start by identifying the base plate. This will be the largest and heaviest flat piece.
3. **Attach Lower Posts:** Secure the shortest scratching posts to the base plate using the provided screws and tools. Ensure they are tightly fastened.
4. **Add First Platform:** Place the first platform onto the attached posts and secure it with screws.
5. **Continue Building Upwards:** Continue attaching posts and platforms layer by layer, following the diagrams in your included manual. Pay attention to the orientation of platforms and the placement of the cat cave and hammock.
6. **Install Cat Cave and Hammock:** Assemble the cat cave and attach it to its designated platform. Secure the hammock using its carabiner hooks to the metal eyelets on the platforms.
7. **Attach Top Perch and Scratching Board:** Install the highest posts, the top perch, and the round scratching board.
8. **Secure Play Toys:** Attach any dangling fur balls or spring-loaded toys to the designated spots.
9. **Final Check and Anti-Toppling Device:** Once fully assembled, double-check all screws for tightness. Finally, install the anti-toppling device to a sturdy wall stud or anchor point to prevent the tree from tipping.

## 4. OPERATING INSTRUCTIONS

---

The Feandrea Cat Tree PCT25G is designed for your cat's enjoyment and natural behaviors. Here's how your cat can utilize its features:

- **Scratching:** Encourage your cat to use the sisal-wrapped posts and the round scratching board to sharpen claws and stretch.
- **Climbing and Exploring:** The multi-level design allows cats to climb, jump, and explore different heights, satisfying their natural instincts.
- **Resting and Napping:** The cozy cat cave, soft hammock, and plush top perch provide comfortable spots for napping and observing surroundings.
- **Playing:** The dangling fur balls and other interactive elements offer opportunities for playful engagement.

## 5. MAINTENANCE

---

Proper maintenance will extend the life of your Feandrea Cat Tree PCT25G and ensure a hygienic environment for your pet.

- **Cleaning:** The product care instructions specify "Spot Clean Only." Use a damp cloth with mild soap to clean soiled areas. Avoid saturating the fabric.
- **Vacuuming:** Regularly vacuum the plush surfaces to remove loose fur and dust.
- **Sisal Inspection:** Check sisal scratching posts and pads for wear and tear. Severely frayed sisal may need to be replaced to maintain effectiveness and prevent ingestion by pets.
- **Tighten Connections:** Periodically re-tighten all screws and bolts to ensure the cat tree remains stable and secure.
- **Toy Replacement:** If the dangling toys become damaged or detached, replace them with suitable pet-safe alternatives.

## 6. TROUBLESHOOTING

---

If you encounter issues with your Feandrea Cat Tree PCT25G, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
<b>Cat tree feels wobbly or unstable.</b>	Loose connections; anti-toppling device not installed or improperly secured; uneven floor surface.	Ensure all screws are tightened. Verify the anti-toppling device is securely anchored to a wall. Place the cat tree on a flat, level surface.
<b>Parts (e.g., top perch, cave) detach easily.</b>	Screws not fully tightened during assembly; repeated stress from active cats.	Disassemble the affected section and re-assemble, ensuring all connections are firmly secured. Regularly check and tighten connections.
<b>Cats are not using the scratching posts.</b>	Preference for other scratching surfaces; unfamiliarity with sisal.	Encourage use by placing catnip on the sisal. Gently guide your cat's paws to the scratching surface. Ensure the cat tree is in a prominent location.
<b>Dangling toys are broken or missing.</b>	Normal wear and tear from play.	Replace with new, pet-safe dangling toys. Ensure replacements are securely attached.
