

Prayer 2103035

Prayer Glass Candle 2103035 User Manual

Model: 2103035 | Brand: Prayer

INTRODUCTION

This manual provides essential information for the safe and effective use of your Prayer Glass Candle, Model 2103035. This unscented, solid red candle is crafted from compression molded wax with lead-free wicks, designed for a clean burn. Please read all instructions carefully before use.

SAFETY INFORMATION

WARNING: To prevent fire and serious injury:

- Burn candle within sight.
- Keep away from drafts and vibrations.
- Keep out of reach of children and pets.
- Never burn candle on or near anything that can catch fire.
- Always use on a heat-resistant surface.
- Do not burn candle for more than 4 hours at a time.
- Keep wax pool free of debris.
- Trim wick to 1/4 inch before each lighting.
- Stop use when 1/2 inch of wax remains.

SETUP

1. **Unpack:** Carefully remove the candle from its packaging.
2. **Placement:** Place the glass candle on a stable, heat-resistant surface, away from flammable materials, drafts, and direct sunlight. Ensure there is adequate clearance above and around the candle.
3. **Wick Preparation:** Before the first burn, ensure the wick is trimmed to approximately 1/4 inch (6 mm). Use a wick trimmer or scissors for a clean cut.

OPERATING INSTRUCTIONS

1. **Lighting the Candle:** Using a long match or lighter, carefully light the wick. Ensure the flame is stable before leaving the candle.
2. **First Burn:** For the first burn, allow the candle to burn long enough for the entire top surface of the wax to melt evenly to the edges of the glass. This prevents tunneling and ensures a longer, more even burn for future uses. This may take several hours.
3. **Burn Duration:** Do not burn the candle for more than 4 hours at a time. Excessive burning can cause the glass to overheat and may lead to an unstable flame.
4. **Extinguishing the Flame:** Use a wick snuffer to extinguish the flame. Avoid blowing out the candle, as this can cause wax to splatter and the wick to smoke excessively.

MAINTENANCE

- **Wick Trimming:** Before each subsequent burn, trim the wick to 1/4 inch (6 mm). A shorter wick provides a cleaner, brighter flame and prevents excessive soot.
- **Keep Wax Pool Clean:** Ensure no debris, such as wick trimmings or matches, falls into the melted wax pool. Debris can act as secondary wicks, leading to an uncontrolled flame.
- **Storage:** Store the candle in a cool, dry place away from direct sunlight and extreme temperatures to prevent discoloration or melting.
- **Glass Care:** The glass jar may become hot during use. Allow it to cool completely before handling or moving.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Tunneling (wax melts only in the center)	First burn was too short; wick not trimmed properly.	Ensure the first burn creates a full melt pool. Trim wick to 1/4 inch before each use.
Excessive smoke or soot	Wick is too long; candle is in a drafty area.	Trim wick to 1/4 inch. Move candle away from drafts.
Weak or small flame	Wick is too short or clogged with debris.	Extinguish, allow to cool, gently remove any debris, and re-light. Ensure wick is not too short.
Flame goes out repeatedly	Wick is too short; not enough oxygen; debris in wax.	Trim wick to 1/4 inch. Ensure proper ventilation. Remove debris from wax pool.

SPECIFICATIONS

- **Model:** 2103035
- **Brand:** Prayer
- **Color:** Red
- **Scent:** Unscented
- **Wax Type:** Compression molded wax
- **Wick Type:** Lead-free
- **Dimensions:** 5.5 x 5.5 x 20.5 cm (approximately 2.17 x 2.17 x 8.07 inches)
- **Weight:** 0.457 kg (approximately 1 pound)
- **Burn Feature:** Clean burn

WARRANTY AND SUPPORT

For information regarding warranty, returns, or product support, please refer to the retailer's policy where the product was purchased. Keep your proof of purchase for any warranty claims.
