JLab METAL-BLKBLU

JLab JBuds Metal Earbuds Instruction Manual

Model: METAL-BLKBLU

Introduction

Welcome to the JLab JBuds Metal Earbuds instruction manual. These rugged earbuds are engineered for durability and high-quality audio performance. This guide provides essential information to help you set up, operate, and maintain your earbuds for optimal use and longevity.

Package Contents

Please verify that all items are present in your package:

- JLab JBuds Metal Earbuds
- 4 Sets of Ear Tip Sizes (various sizes for personalized comfort and fit)
- Shirt Cable Clip (for securing the earbud cable to clothing)

Image: JLab JBuds Metal Earbuds retail packaging. The packaging highlights key features such as Metal Build, Powerful Sound, Complete Comfort, and Controls & Mic. It also lists package contents including 4 tip sizes and a shirt cable clip, and mentions a 3-month free Pandora Premium offer.

Setup

Follow these steps to begin using your JLab JBuds Metal Earbuds:

1. **Choose Ear Tips:** Select the ear tip size that provides the most comfortable and secure fit. A proper seal is essential for optimal sound quality, especially for bass response. Experiment with

the four provided sizes to find your ideal fit.

2. **Connect to Device:** Insert the 3.5mm audio jack firmly into your audio device's headphone port. Ensure it is fully inserted to establish a stable connection and proper audio transmission.
3. **Secure Cable:** Utilize the included shirt cable clip to attach the earbud cable to your clothing. This helps minimize cable noise and prevents the earbuds from being dislodged during movement.

Operating Instructions

The JLab JBuds Metal Earbuds feature an in-line remote with a built-in microphone for convenient control of your audio playback and phone calls.

- **Play/Pause:** Press the control button once to play or pause audio playback.
- **Next Track:** Press the control button twice quickly to skip to the next audio track.
- **Previous Track:** Press the control button three times quickly to return to the beginning of the current track or go to the previous track.
- **Answer/End Call:** Press the control button once to answer an incoming phone call or to end an active call.
- **Decline Call:** Press and hold the control button for approximately 2 seconds to decline an incoming call.
- **Activate Voice Assistant:** Press and hold the control button for approximately 1 second to activate your device's voice assistant (e.g., Siri, Google Assistant).

Maintenance

Proper care and maintenance will extend the lifespan of your earbuds:

- **Cleaning Ear Tips:** Regularly remove the silicone ear tips and clean them with a damp cloth and mild soap. Ensure they are completely dry before reattaching them to the earbuds.
- **Cleaning Earbuds:** Gently wipe the earbud housing and cable with a soft, dry cloth. Avoid using harsh chemicals, solvents, or abrasive materials, as these can damage the finish.
- **Storage:** When not in use, store your earbuds in a clean, dry place, ideally in a protective pouch or case, to prevent tangling, dust accumulation, and physical damage.
- **Cable Care:** Avoid sharp bends, excessive pulling, or twisting of the cable to prevent internal wire damage and ensure consistent audio performance.

Troubleshooting

If you encounter any issues with your JLab JBuds Metal Earbuds, refer to the following troubleshooting guide:

Problem	Solution

Problem	Solution
No sound or low volume	Ensure the 3.5mm jack is fully inserted into your device's audio port. Check your device's volume settings and ensure it is not muted. Test the earbuds with another audio device to determine if the issue is with the earbuds or the source device. Gently clean any debris from the earbud grilles that might be obstructing sound.
Poor sound quality (e.g., lack of bass, distorted audio)	Ensure you have a proper seal with the ear tips. Try different sizes to achieve the best fit. Inspect the cable and 3.5mm jack for any visible damage or bends. Test with another audio source to isolate the problem.
Microphone not working	Confirm the 3.5mm jack is fully inserted into your device. Check your device's microphone input settings to ensure the correct input is selected. Test the microphone functionality with another device or application.

Specifications

- **Model Name:** METAL-BLKBLU
- **Connectivity Technology:** Wired
- **Headphones Jack:** 3.5 mm Jack
- **Material:** Metal housing
