OPERATING INSTRUCTIONS

The Roomie Tec SlimVac offers flexible cleaning modes for various needs:

- **Upright Mode:** For general floor cleaning, simply power on the vacuum using the main power button. The motorized floorhead and LED lights will activate, providing effective cleaning on both hard floors and carpets. The 180-degree swivel head allows for easy maneuverability around furniture.

- **Power Settings:** The vacuum features 2 power levels for different cleaning intensities. Adjust as needed for light debris or tougher messes.

MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your Roomie Tec SlimVac:

- **Emptying the Dust Bin:** The vacuum features a 1.5-liter bagless dust bin. It is recommended to empty the dust bin frequently, especially after each significant cleaning session, to maintain suction power.

TROUBLESHOOTING

If you encounter any issues with your Roomie Tec SlimVac, refer to the following common troubleshooting tips:

Problem	Solution
Motor does not turn on	Charge the vacuum cleaner for 4-5 hours. Ensure the handheld unit is properly inserted and clicked into place.
Reduced or low suction	Check for air blockage in the dust bin and the floor brush. Remove the brush roller and ensure the air passage is entirely clear. Empty the dust bin if full.
Battery light flashing, roller does not turn	Take the roller out and put it back tightly in the floor brush. Cut out tangled hair/strings around the rotating wheels. If necessary, contact customer service for a replacement roller brush.
