REVLON RVFB7033

Revlon Bubbling + Massaging Foot Spa Instruction Manual

Model: RVFB7033 | Brand: REVLON

PRODUCT OVERVIEW

The Revlon Bubbling + Massaging Foot Spa, Model RVFB7033, is designed to provide a soothing and relaxing experience for your feet. This at-home spa bath features invigorating bubble massage and a contoured base for enhanced comfort and support. Its smart heat technology helps maintain the water temperature for a consistent and enjoyable session.

Key Features:

- **Soothing Relief:** Relaxes sore, achy feet for an at-home spa experience.
- **Toe-Touch Settings:** Features a waterproof On/Off button for easy control of vibration and bubbles.
- **Contoured Base:** Designed with grip technology for massage and to reduce slippage.
- **Smart Heat:** Fill the foot spa with desired warm water. The unit will not heat cold water, but helps maintain the temperature.
- **Fits Most Feet Sizes:** Accommodates various foot sizes for comfortable use.

IMPORTANT SAFETY INSTRUCTIONS

Please read all instructions carefully before using the Revlon Bubbling + Massaging Foot Spa. Failure to follow these instructions may result in electric shock, fire, or serious injury.

General Safety:

- For external use only.
- Always ensure the unit is unplugged from the power outlet before filling or emptying water.
- Do not immerse the unit in water.
- Keep out of reach of children.
- Do not use if you have open wounds, infections, or any medical conditions affecting your feet without

consulting a physician.

- Always use the foot spa while seated. Do not stand in the unit.
- Do not overfill the unit beyond the maximum fill line to prevent spills.
- Avoid using soaps, bath salts, or harsh chemicals in the foot spa, as this may damage the unit or affect its functionality.
- If the unit shows signs of damage, overheating, or malfunction, discontinue use immediately and contact customer support.
- Do not use attachments not recommended by the manufacturer.

SETUP GUIDE

Follow these steps to prepare your foot spa for use:

1. Place the foot spa on a flat, stable, and dry surface.
2. Ensure the unit is unplugged from the power outlet before adding water.
3. Fill the foot spa with warm water up to the indicated fill line. Note: The unit is designed to maintain the temperature of warm water, not to heat cold water.
4. Plug the power cord into a standard electrical outlet.
5. Sit comfortably in a chair and carefully place your feet into the foot spa.

OPERATING YOUR FOOT SPA

The Revlon Foot Spa features a convenient waterproof toe-touch control for easy operation.

1. Once your feet are in the water, gently press the power button located in the center of the foot spa with your toe.
2. The unit will activate the invigorating bubble massage function.
3. To turn off the unit, press the power button again with your toe.
4. Enjoy your foot spa session for a recommended duration of 15-20 minutes for optimal relaxation.

CARE AND MAINTENANCE

Proper care and maintenance will ensure the longevity of your foot spa.

1. **After Each Use:** Unplug the unit from the power outlet. Carefully empty the water from the foot spa.
2. **Cleaning:** Wipe the interior and exterior surfaces with a damp cloth and mild soap. Rinse thoroughly with clean water. Do not use abrasive cleaners or immerse the unit in water.
3. **Drying:** Allow the unit to air dry completely before storing.
4. **Storage:** Store the foot spa in a cool, dry place, away from direct sunlight and moisture.

TROUBLESHOOTING

If you encounter any issues with your foot spa, please refer to the following table:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Unit does not turn on.	Not plugged in; Power outlet malfunction; Unit malfunction.	Ensure the power cord is securely plugged into a working outlet. Try a different outlet. If the problem persists, contact customer support.
Bubbles/Massage not strong.	Water level too low/high; Unit malfunction.	Ensure water is filled to the recommended level. If the issue continues, contact customer support.
Water does not stay warm.	Initial water was cold; "Smart Heat" maintains, not heats.	Always fill the foot spa with warm water. The unit is designed to help maintain the temperature, not to heat cold water.
Water leakage from the bottom.	Unit damage; Internal seal issue.	Discontinue use immediately. Unplug the unit and contact customer support. Do not attempt to repair.
