Trisonic FBA_TS-RC413

Trisonic 6 Way All in One Universal Remote Control User Manual

MODEL: FBA_TS-RC413

Introduction

The Trisonic 6 Way All in One Universal Remote Control is designed to simplify your home entertainment experience by consolidating up to six different audio/video devices into a single, easy-to-use remote. This manual will guide you through the setup, programming, and operation of your new universal remote.

Front view of the Trisonic 6 Way Universal Remote Control, showing all buttons and layout.

Getting Started: Battery Installation

Before using your remote control, you must install two AAA batteries (not included).

1. On the back of the remote, push down on the tab and lift the cover off.

2. Match the batteries to the + and - marks inside the battery case. Insert two AAA Alkaline batteries.

3. Press the battery cover back into place until it clicks securely.

DVD Functions (labeled in Blue)

SCAN+ and **SCAN-** buttons control the speed of Fast Forward and Reverse Playback respectively.

CHAPTER+ and **CHAPTER-** buttons respectively locate the succeeding or preceding Chapters or Tracks on a disc.

REPEAT A-B button performs DVD players "A-G Repeat" (or RPT A.B) function for repeat play of current Chapter or Track.

INFO/SELECT button brings up DVD Display or Control Menu for Chapter/Track/Title number, Time remaining/elapsed indication, system information, etc.

MENU brings up the DVD disc Menu screen – use with the **UP,DOWN,LEFT & RIGHT** navigation buttons.

OK button is used for on-screen Menu selection. Note some DVD players require the Play button to be used.

SUBTITLE ON-OFF (CC) Turns the subtitles on or off.

QUIT Exit On-Screen Menus and/or Return to previous On-Screen selection.

Note, not all DVD Players support all the functions described above.

SAT Functions

GUIDE button displays on-screen Satellite Channel Guide.

CHAPTER+ and **CHAPTER-** buttons perform the "Page+" and "Page-" function for on-screen Guide Menus used by some Satellite systems.

INFO/SELECT button brings up Satellite Display screen for current Channel and system information.

MNEU brings up the Satellite Menu screen – use with the **UP,DOWN,LEFT & RIGHT** navigation buttons.

OK button is used for on-screen Menu selection.

QUIT button is used to Exit or Clear on-screen Menu displays.

TV/VCR/INPUT

When in TV mode the **TV/VCR/INPUT** button performs the INPUT source switch function.

When in a mode that has been programmed for VCR the **TV/VCR/INPUT** button performs the TV/VCR antenna switch function.

When in a mode that has been programmed for Cable the **TV/VCR/INPUT** button performs the A.B switch function.

When in a mode that has been programmed for SAT the **TV/VCR/INPUT** button performs the TV/SAT switch function.

When in a mode that has been programmed for DVD the **TV/VCR/INPUT** button performs the DVD Setup function.

Battery Installation

1. On the back of the remote. Push down on the tab and lift the cover off.
2. Match the batteries to the + and – marks inside the battery case, then insert 2 AAA Alkaline batteries.
3. Press the battery cover back into place.
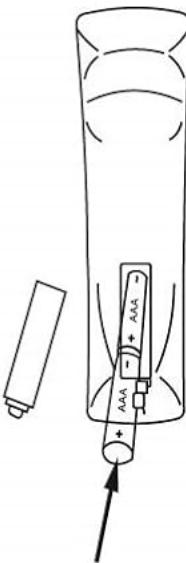

Battery Saver

Your remote automatically turns off if the buttons are depressed more than 30 seconds. This will save your batteries should your remote get stuck in a place where the buttons remain depressed (e.g., between the sofa cushions).

Code Saver

Codes are stored in permanent memory while you are changing batteries so you will not lose any codes stored in the remote while you are changing batteries.

Power-On Default

The remote powers on in TV mode.

Code Setup

The **CODE SEARCH** button is used to setup the remote. You can either setup the remote using the code for your brand of product, from the code tables (on separate sheet), or you can search through the library of codes until you find a code that works for your product.

Please refer to "Programming with Code Search" on page 8 for more information on using the code search feature to learn how to search through the library of codes for your products.

NOTE: You can store any kind of code under any mode (except TV).I.E. you can store a VCR code under the **CBL** button, or a DVD code under the **VCR** button, etc. However, you can only store TV codes under the **TV** button.

Illustration detailing the correct method for inserting AAA batteries into the remote control's battery compartment.

Battery Saver Feature:

Your remote automatically turns off if the buttons are depressed for more than 30 seconds. This saves battery life. Codes are stored in permanent memory, so you will not lose any codes if batteries are removed or depleted.

Button Functions

Familiarize yourself with the buttons on your Trisonic universal remote control:

Button Functions

Note: The **REC** button must be pressed TWICE to record from your VCR. For some brands of VCRs, you might need to press the **REC** button once, then press it again for three seconds.

Button Functions, cont.
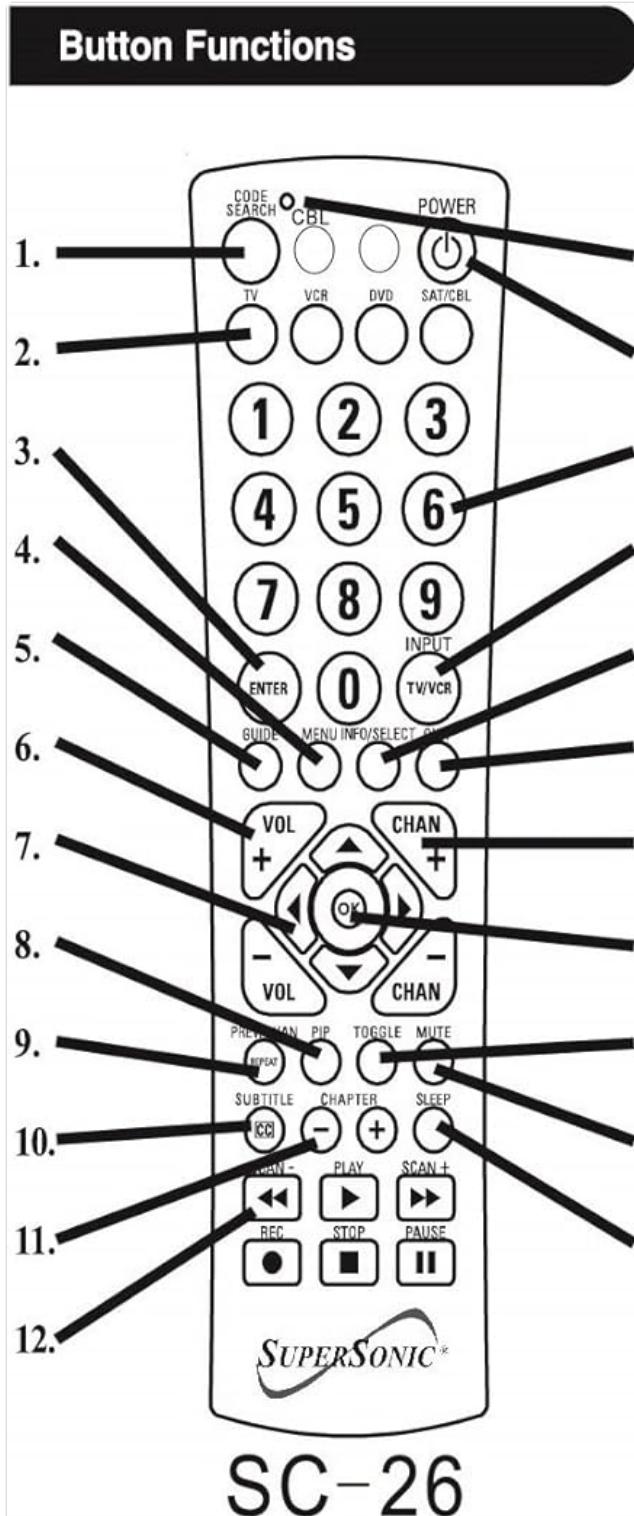

1. **CODE SEARCH** Used for setup.
2. **TV, VCR, DVD, SAT/CBL** Selects product to be operated.
3. **ENTER** Used after direct channel number entry to immediately change to the selected channel.
4. **MENU** brings up the DVD disc Menu screen - use with the **UP, DOWN, LEFT & RIGHT** navigation buttons.
5. **GUIDE** Displays on-screen program guide.
6. **VOLUME UP/DOWN** Changes the volume level of the product, normally the TV.
7. **UP, DOWN, LEFT & RIGHT** navigation buttons.
8. **PIP** TV Picture-in- Picture control.
9. **PREV. CHAN** Returns to the previously selected channel, or DVD repeat toggle. **REPEAT** performs DVD players "A-B Repeat" (or RPT A.B) function for repeat play of current Chapter or Track.
10. **CC (SUBTITLE)** TV Closed Caption (if your TV has this feature) or DVD Subtitle toggle.
11. **CHAPTER +/-** controls DVD/CD track selection i.e. DVD/CD Track Skip Up/Down (in DVD and SAT modes). Note the **VCR** buttons also control DVD when in DVD Mode.
12. **RECORD, PLAY, STOP, REW, FF, PAUSE** VCR control buttons operate your VCR even when the remote is set to operate the TV. Also operates DVD Scan -/+.
13. **SLEEP** Turns off the TV after a period of 1 to 99 minutes.
14. **MUTE** Turns off the TV sound while the picture remains.
15. **TOGGLE** Swaps TV PIP screens.
16. **OK** Selects menu items for the device you are controlling.
17. **CHANNEL UP/DOWN** Changes the channels.
18. **QUIT** Used to exit menu functions.
19. **INFO/SELECT** Displays/selects on-screen channel

Some buttons on the remote might have functions that are referred to by different names on the device you are controlling. E.G. **PREV.CHAN** may be called RECALL, or **ENTER** may be called DISPLAY. These differences depend on the brand and model of your product. Also, this remote can only operate features that exist on your product. E.G., your product must have **PREV.CHAN** ability for the **PREV.CHAN** button to operate this feature.

information, etc.

20. **TV/VCR/INPUT** For some TVs, press repeatedly to select from available viewing sources (antenna, cable box, VCR, etc.).

21. **NUMBERS** Enter numbers for direct channel selection. Some products require Enter to be pressed after channel selection.

22. **POWER** Turns product On or Off.

23. **Red Indicator** Lights when any button is pressed.

Detailed diagram of the remote control's buttons, with numbers corresponding to the descriptions below.

CODE SEARCH: Used for setup.

TV, VCR, DVD, SAT/CBL, AUDIO: Product select buttons.

POWER: Turns product On or Off.

NUMBERS (0-9): Enter numbers for direct channel selection.

ENTER: Used after direct channel number entry to immediately change to the selected channel.

MENU: Brings up the DVD disc Menu screen.

GUIDE: Displays on-screen program guide.

VOL +/-: Controls the volume level of the product.

CHAN +/-: Changes channels.

UP, DOWN, LEFT, RIGHT Arrows: Navigation buttons for menus and selections.

OK: Used for on-screen Menu selection.

PIP: Picture-In-Picture control.

PREV. CHAN: Returns to the previously selected channel, or DVD repeat toggle.

CC (SUBTITLE): TV Closed Caption (if your TV has this feature) or DVD Subtitle toggle.

CHAPTER +/-: Controls DVD/CD track selection.

SLEEP: Turns off the TV after a period of 1 to 99 minutes.

MUTE: Turns off the TV sound while the picture remains.

TOGGLE: Swaps TV PIP screens.

INFO/SELECT: Displays/selects on-screen channel information, etc.

TV/VCR/INPUT: For some TVs, press repeatedly to select from available viewing sources (antenna, cable box, VCR, etc.).

PLAY, STOP, REC, REW, FF, PAUSE: VCR control buttons. Note: The REC button must be pressed TWICE to record from your VCR.

SCAN +/-: Controls fast forward and reverse playback speed.

QUIT: Used to exit menu functions.

Programming Your Remote

Your Trisonic universal remote can be programmed using two methods: Direct Code Entry or Code Search.

Image showing programming instructions for Direct Code Entry and Code Search methods.

Method 1: Direct Code Entry

This method requires you to find the specific 3-digit code for your brand of product from the provided code list. If your brand has multiple codes, try each one until you find the correct code.

1. Turn on the device (TV, VCR, etc.) you wish to control.

2. Press and hold the **CODE SEARCH** button until the red indicator light stays on, then release.

3. Press and release the desired mode button (TV, VCR, etc.). The red indicator blinks once, then stays lit.

4. Enter the 3-digit code for your brand. The red indicator blinks once for each digit entered. If the code is valid, the red indicator turns off. If the code is invalid, the red indicator flashes.

5. Test the remote by pressing **POWER**. If the device responds, the programming is complete. If not, repeat with another code for your brand.

Method 2: Code Search

Use this method if you cannot find your device's code or if Direct Code Entry does not work.

1. Turn on the device (TV, VCR, etc.) you wish to control.

2. Press and hold the **CODE SEARCH** button until the red indicator light stays on, then release.

3. Press and release the desired mode button (TV, VCR, etc.). The red indicator blinks once, then stays lit.

4. Point the remote at the device and repeatedly press the **POWER** button until the device turns off. (You may need to press it many times).

5. Once the device turns off, press the **ENTER** button to save the code. The red indicator light will turn off.

6. Test the remote by pressing **POWER** and other functions. If the device does not respond correctly, repeat the Code Search process.

Code List Reference

A comprehensive list of manufacturer codes for various devices (TV, VCR, DVD, SAT, CBL, AUX) is provided. This list is essential for the Direct Code Entry method. Locate your device type and brand, then find the corresponding 3-digit codes.

Example pages from the comprehensive manufacturer code list, used for programming the remote.

Operating Your Remote

Once programmed, your Trisonic universal remote is ready for use. Simply select the desired device mode button (TV, DVD, VCR, SAT/CBL, AUDIO) and then use the corresponding function buttons.

- **Switching Devices:** Press the appropriate device button (e.g., TV, DVD) to control that specific component.

- **Volume Control:** The master volume control feature allows you to control the volume of your TV regardless of which device mode the remote is currently set to. To activate, press and hold the **MUTE** button, then press the **VOL+** button. The red indicator will blink twice. To deactivate, press and hold the **MUTE** button, then press the **VOL-** button. The red indicator will blink twice.

- **Channel Control:** Use the **CHAN +/-** buttons to change channels.

- **Menu Navigation:** Use the **MENU** button and the arrow keys (UP, DOWN, LEFT, RIGHT) with the **OK** button to navigate on-screen menus.

Maintenance

To ensure the longevity and optimal performance of your Trisonic universal remote control, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the remote with a soft, dry cloth. Do not use abrasive cleaners or solvents.

- **Battery Replacement:** Replace batteries when the remote's response becomes sluggish or the red indicator light does not illuminate. Always replace both batteries at the same time with new AAA alkaline batteries.

- **Storage:** Store the remote in a cool, dry place away from direct sunlight and extreme temperatures.

Troubleshooting

If you encounter issues with your Trisonic universal remote, refer to the following common problems and solutions:

Problem	Possible Cause / Solution
Remote does not operate your product.	- Ensure the remote is pointed directly at the product. - Reprogram the remote with a new code. - Replace the batteries.
Remote operates some features but not others.	- The programmed code may not be the best match for your product. Try another code from the code list. - Some older products may not support all universal remote functions.
Red indicator blinks but remote doesn't work.	- The batteries may be low. Replace them. - Ensure you are pressing the correct device mode button.
Cannot find a working code for my device.	- Try the Code Search method. - Ensure your device is turned on during programming.

Specifications

Product Dimensions: 7.5 x 2 x 1 inches

Item Weight: 4 ounces

Model Number: FBA_TS-RC413

Max Number of Supported Devices: 6

Connectivity Technology: Infrared

Power Source: 2 x AAA Batteries (not included)

Compatible Devices: TVs, Blu-Ray/DVD Players, Cable/Satellite Receivers, Streaming Media Players, Soundbars, VCRs, and more.

Warranty and Support

For any issues not covered in this manual or for further assistance, please contact Trisonic customer support. Keep your purchase receipt for warranty purposes.
Please note that specific warranty terms and conditions may apply. Refer to your product packaging or retailer for detailed warranty information.
