Allied Brass P-600-WSD-BKM

Allied Brass P-600-WSD-BKM Pipeline Collection Wall Mounted Soap Dish User Manual

INTRODUCTION

This manual provides instructions for the installation, operation, and maintenance of your Allied Brass P-600-WSD-BKM Pipeline Collection Wall Mounted Soap Dish. This product is designed for durability and functionality in bathroom environments, featuring a matte black finish and robust brass construction.

Figure 1: Allied Brass P-600-WSD-BKM Pipeline Collection Wall Mounted Soap Dish. This image displays the complete soap dish unit, showcasing its matte black finish and wall-mounted design.

SETUP AND INSTALLATION

The Allied Brass P-600-WSD-BKM soap dish is designed for secure wall mounting. Ensure you have the necessary tools before beginning installation. Color-coordinated mounting hardware is included with your purchase.

Required Tools (Not Included):

- Pencil for marking
- Drill
- Drill bits appropriate for your wall material and mounting hardware
- Screwdriver (Phillips or flathead, depending on screw type)
- Level
- Measuring tape

Installation Steps:

- Select Location:** Choose a suitable location on your bathroom wall for the soap dish. Ensure it is at a convenient height and clear of any obstructions or electrical wiring/plumbing within the wall.
- Mark Mounting Points:** Hold the soap dish assembly against the wall at the desired location. Use a pencil to mark the positions for the mounting screws through the pre-drilled holes on the mounting brackets. Use a level to ensure the marks are perfectly horizontal.
- Drill Pilot Holes:** Using the appropriate drill bit for your wall material (e.g., drywall anchors for drywall, masonry bit for tile/concrete), drill pilot holes at the marked points. If installing into drywall, insert the provided wall anchors into the pilot holes.
- Secure Mounting Brackets:** Align the soap dish's mounting brackets with the drilled holes/anchors. Insert the color-coordinated mounting screws through the brackets and tighten them securely into the wall. Do not over-tighten.
- Final Check:** Gently tug on the installed soap dish to ensure it is firmly attached to the wall and does not wobble.

OPERATION

The Allied Brass P-600-WSD-BKM Wall Mounted Soap Dish is designed for holding bar soap. Simply place your bar of soap onto the dish. The open design allows for proper drainage, helping to keep your soap dry and extend its life.

MAINTENANCE

To ensure the longevity and appearance of your Allied Brass soap dish, follow these simple maintenance guidelines:

- Regular Cleaning:** Clean the soap dish regularly with a soft, damp cloth. For more thorough cleaning, use a mild soap and water solution.
- Avoid Harsh Chemicals:** Do not use abrasive cleaners, scouring pads, or harsh chemical detergents, as these can damage the matte black powder coat finish and brass material.
- Drying:** After cleaning, wipe the soap dish dry with a soft cloth to prevent water spots and maintain its finish.
- Corrosion and Rust Resistance:** The product is protected with a highly durable powder coat and constructed from brass, providing excellent resistance to corrosion and rust. Proper cleaning will help maintain these properties.

TROUBLESHOOTING

This section addresses common issues you might encounter with your wall-mounted soap dish.

| Problem | Possible Cause | Solution |
|------------------------------------|---|--|
| Soap dish feels loose on the wall. | Mounting screws are not fully tightened or wall anchors are not secure. | Carefully tighten the mounting screws. If the issue persists, the wall anchors may need to be re-seated or replaced with more appropriate ones for your wall material. |
| Finish appears dull or stained. | Accumulation of soap residue or hard water spots. Use of abrasive cleaners. | Clean with a soft, damp cloth and a mild soap solution. Dry immediately. Avoid harsh chemicals. |
