One For All URC1110

One For All URC1110 Apple TV Replacement Remote Instruction Manual

Model: URC1110

INTRODUCTION

This manual provides detailed instructions for setting up, operating, and maintaining your One For All URC1110 Apple TV Replacement Remote. This remote is designed to offer intuitive control over your Apple TV, as well as your television and audio devices, without requiring mode-switching. It features Siri Voice Control and backlit keys for enhanced user experience.

PRODUCT OVERVIEW

The One For All URC1110 remote is engineered for ease of use and comprehensive control. Below is an overview of its design and key features.

Figure 1: Front view of the One For All URC1110 remote, displaying the power, volume, mute, Siri, guide, menu, playback, and directional buttons.

Figure 2: A closer look at the One For All URC1110 remote, highlighting its button layout and branding.

Key Features:

- **Siri Voice Control:** Access content across live TV and streaming apps using voice commands.
- **Backlit Keys:** Buttons illuminate in low-light environments, activated by an in-built accelerometer.
- **Multi-Device Control:** Seamlessly control your Apple TV, television, and audio devices.
- **Live TV Access:** Dedicated program guide and channel keys for convenient access to live TV functions in supported applications.

SETUP

1. Battery Installation

The URC1110 remote requires two AAA batteries (not included).

1. Remove the battery cover located on the back of the remote by sliding it downwards.
2. Insert two AAA batteries, ensuring the positive (+) and negative (-) terminals align with the indicators inside the compartment.
3. Replace the battery cover by sliding it back into position until it clicks securely.

Figure 3: Back view of the remote showing the battery compartment.

2. Pairing with Apple TV

The One For All URC1110 remote utilizes Bluetooth for connection to your Apple TV. Pairing is typically automatic upon battery installation.

1. Ensure your Apple TV is powered on and within range of the remote.
2. After inserting the batteries, the remote should automatically attempt to pair with your Apple TV.
3. If prompted on your Apple TV screen, follow the on-screen instructions to complete the pairing process. This may involve bringing the remote closer to the Apple TV.

4. Once paired, the remote will control your Apple TV.

The remote is also designed to automatically control your TV and AV receiver volume via HDMI integration, eliminating the need for additional setup for these functions.

OPERATING INSTRUCTIONS

Basic Navigation

- Use the **directional buttons** (up, down, left, right) around the central select button to navigate menus and content.
- Press the **central button** to select an item or confirm an action.
- The **Menu button** returns you to the previous screen or the Apple TV home screen.
- The **TV button** (often depicted as a TV icon) provides quick access to the Apple TV app or home screen.

Siri Voice Control

To use Siri, press and hold the **Microphone button** (Siri button) on the remote. Speak your command or query clearly into the remote's microphone, then release the button. Siri can help you find content, launch apps, check weather, and more.

Figure 4: Using Siri voice control by speaking into the remote.

Volume and Playback Control

- Use the **Volume Up (+)** and **Volume Down (-)** buttons to adjust the audio level of your connected TV or audio device.
- The **Mute button** silences the audio.
- The **Play/Pause button** controls media playback.
- Use the **Fast Forward** and **Rewind buttons** to skip through content.

Backlit Keys

The remote features an in-built accelerometer that detects motion. When motion is detected, the keys will automatically illuminate, making it easy to use the remote in dimly lit environments. The backlight will turn off after a period of inactivity to conserve battery life.

MAINTENANCE

Battery Replacement

When the remote's performance degrades or the backlight becomes inconsistent, it may be time to replace the batteries. Follow the battery installation steps in the Setup section to replace the two AAA batteries.

Cleaning the Remote

To clean your remote, use a soft, dry cloth. Do not use liquid cleaners or abrasive materials, as these can damage the remote's surface or internal components.

TROUBLESHOOTING

- **Remote not responding:**
Ensure batteries are correctly installed and not depleted. Replace batteries if necessary. Verify the remote is within range of the Apple TV.
- **Pairing issues:**
If the remote does not pair automatically, try restarting your Apple TV. You may also need to unpair any existing remotes from your Apple TV settings and then attempt to pair the URC1110 again. Ensure the remote is close to the Apple TV during pairing.
- **Siri Voice Control not working:**
Check that the remote is properly paired via Bluetooth. Ensure you are pressing and holding the Microphone button while speaking and releasing it afterwards.
- **Backlight inconsistent or not working:**
This can indicate low battery power. Replace the AAA batteries. If the issue persists with new batteries, contact customer support.
- **Volume control not working for TV/Audio:**
Ensure your TV and audio devices are connected via HDMI and support HDMI-CEC (Consumer Electronics Control) for automatic volume control. Check your TV/audio device settings to ensure HDMI-CEC is enabled.
