

ZINUS AZ-FMS-5N

ZINUS 5 Inch Memory Foam Mattress User Manual

Model: AZ-FMS-5N

INTRODUCTION

This manual provides essential information for the setup, care, and maintenance of your ZINUS 5 Inch Memory Foam Mattress. Designed for comfort and support, this mattress is suitable for various compact spaces including bunk beds, trundle beds, day beds, and RVs. It features a green tea-infused memory foam layer for freshness and a supportive base foam for optimal sleep.

SETUP AND UNBOXING

Your ZINUS mattress is efficiently compressed and rolled into a box for convenient shipping and handling. Follow these steps for proper setup:

1. **Preparation:** Carefully remove the mattress from its shipping box. Ensure you have enough clear space for the mattress to expand.
2. **Unroll:** Place the rolled mattress on your bed frame or a flat surface. Carefully cut open the outer plastic wrapping.
3. **Expand:** Unroll the compressed mattress. It will begin to expand immediately. Remove the inner plastic layer.
4. **Full Expansion:** Allow **24 to 72 hours** for the mattress to fully expand to its original shape and firmness. Factors like room temperature and humidity can affect expansion time. Walking or gently crawling on the mattress can help accelerate the decompression process.

Mattress Size Guide

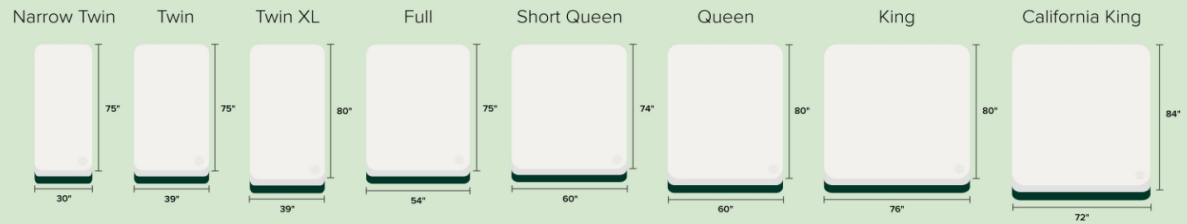

Image: Visual guide for unboxing and mattress expansion. This diagram illustrates the four key steps: preparing the bed base, unrolling the mattress from its box, encouraging decompression by light movement, and allowing up to 72 hours for full expansion.

PRODUCT FEATURES AND COMPONENTS

The ZINUS 5 Inch Memory Foam Mattress is constructed with multiple layers to provide optimal comfort and support:

- **Green Tea Memory Foam:** Infused with green tea extract to help maintain freshness and conform to the natural curves of your body for customized pressure relief.
- **Comfort Foam:** An additional layer of foam designed to provide enveloping comfort and soothe joints.
- **High-Density Base Support Foam:** A durable foundation layer that maintains strong structure and edge support for long-term dependability. This layer also features wave dynamics construction to increase airflow.
- **Jacquard Cover:** The mattress is encased in a soft and breathable terry fabric cover with a moisture barrier to protect against spills and messes.

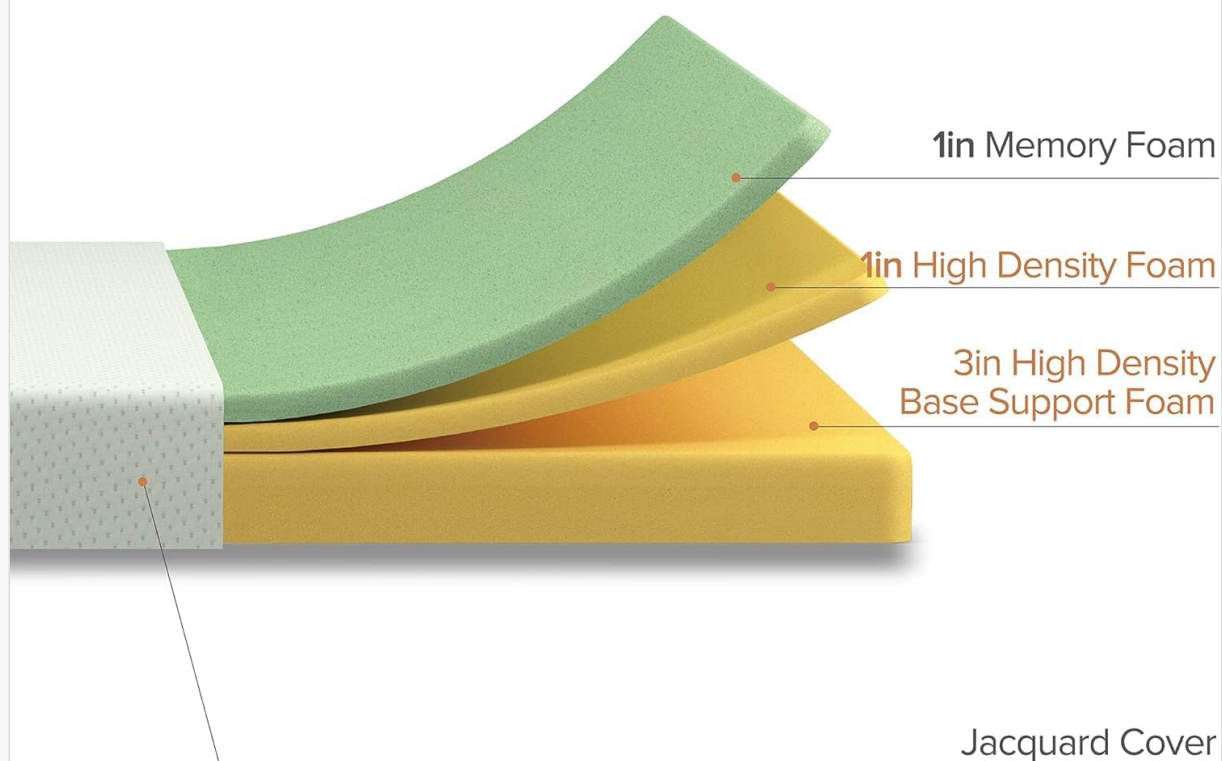

Image: Detailed view of the mattress's internal layers. This image shows the composition of the mattress, highlighting the CertiPUR-US certified foams and the distinct layers of memory foam, high-density foam, and base support foam, all encased in a jacquard cover.

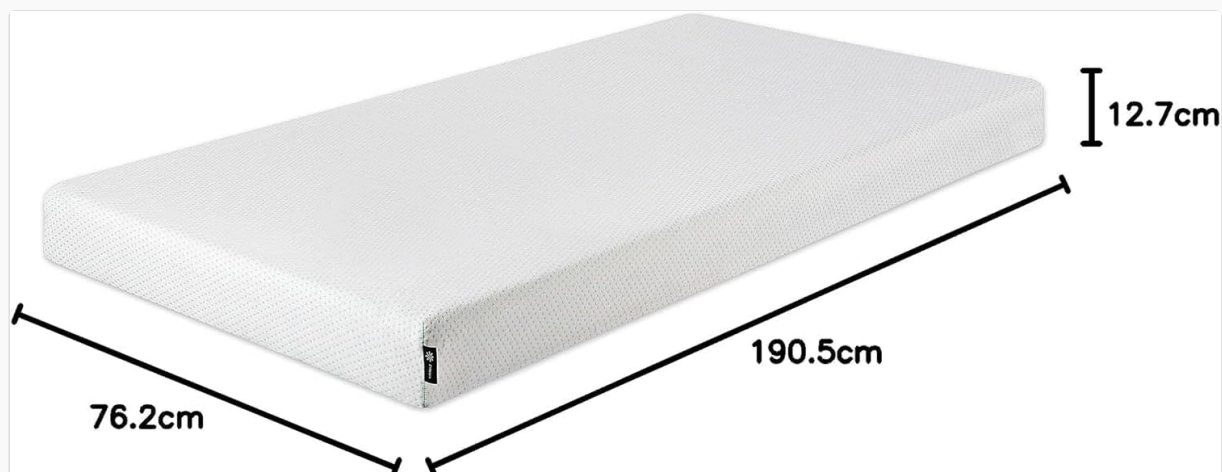

Image: Illustration of pressure relief. This diagram visually represents how the mattress conforms to the body's contours, providing supportive and pain-free sleep by distributing weight evenly and relieving pressure points.

Certified Safe Foams & Fabrics

The foams used in this mattress are CertiPUR-US® certified, ensuring they are made without harmful chemicals, heavy metals, or ozone depleters. The cover is OEKO-TEX® certified, guaranteeing it is free from harmful substances and safe for human ecological requirements.

CARE AND MAINTENANCE

Proper care will extend the life and performance of your ZINUS mattress:

- **Cover Care:** The mattress cover is designed for easy maintenance. For cleaning, the care instructions specify **Hand Wash Only**. Do not machine wash or bleach.
- **Spills:** In case of spills, blot immediately with a clean, dry cloth. Do not saturate the mattress with liquids.
- **Ventilation:** Allow the mattress to air out periodically, especially during the initial expansion period, to dissipate any new foam odors.
- **Rotation:** Rotate your mattress head-to-foot every 3-6 months to promote even wear and extend its lifespan. This mattress is not designed to be flipped.
- **Support:** Ensure your mattress is placed on a suitable, sturdy bed frame or foundation that provides adequate support across the entire surface.

TROUBLESHOOTING

Here are solutions to common concerns you might encounter:

- **Mattress Not Fully Expanded:** It can take up to 72 hours for the mattress to fully decompress. Ensure the room temperature is moderate (around 68-72°F or 20-22°C) as cooler temperatures can slow expansion. Gentle movement on the mattress can also aid the process.
- **New Foam Odor:** A faint odor, often described as a "new foam" smell, is normal and harmless. This is common with compressed foam products and will dissipate within a few days to a week. Ensure good ventilation in the room.
- **Feeling Bed Frame Slats:** If you feel the bed frame slats through the mattress, it indicates insufficient support. Memory foam mattresses require a solid or closely slatted foundation (slats no more than 3 inches apart) to prevent sagging and provide proper support. Consider adding a bunkie board or plywood layer between the mattress and the slats.

SPECIFICATIONS

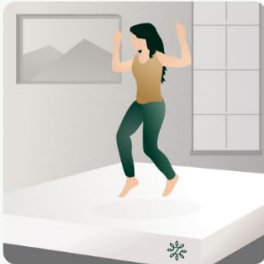

Attribute	Detail
Product Dimensions	75"L x 30"W x 5"Th (190.5 cm L x 76.2 cm W x 12.7 cm Th)
Item Weight	12.72 pounds (5.77 kg)
Thickness	5 Inches

Fabric Type	Memory, Comfort and Base Foams
Fill Material	Memory Foam
Weight Limit	Twin mattress supports a maximum weight of 250 lbs. All other sizes can support up to 500 lbs.
Special Feature	Breathable, Durable, Pressure Relief
Color	White
Cover Material	Terry

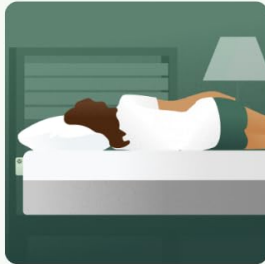

Unboxing your mattress

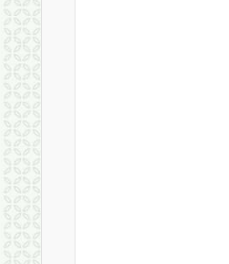

Use with platform beds, foundations, bed frames, and SmartBase®.

Open box within 72 hours and unroll mattress.

Crawl, walk, and jump on mattress to help decompress.

Sleep easy, our mattresses may take 72 hours to fully decompress.
