ZINUS OLB-QLSP-14F

ZINUS Abel Metal Platform Bed Frame Instruction Manual

Model: OLB-QLSP-14F

Product Overview

The ZINUS Abel Metal Platform Bed Frame is designed to provide a sturdy and minimalist foundation for your mattress. Featuring a Quick Lock® assembly system and durable steel construction, this frame eliminates the need for a box spring and offers generous under-bed storage space. Its sleek design integrates seamlessly into various bedroom aesthetics.

Setup and Assembly

The ZINUS Abel Metal Platform Bed Frame features a Quick Lock® assembly system designed for easy and quick setup. All necessary parts, tools, and instructions are included in one efficiently packed box. Assembly typically takes less than an hour with assistance.

Key Assembly Features:

- **Quick Lock® Assembly:** Components are designed to snap into place, reducing assembly time and complexity.
- **No Outside Tools Required:** All necessary tools are provided.
- **Secure Slats:** Metal slats are secured with minimal bolts, ensuring stability and preventing movement.

Operating Instructions

This platform bed frame is designed to support your mattress directly, eliminating the need for a traditional box spring. Simply place your mattress directly onto the steel slats. The frame's design ensures stable support for various mattress types, including latex, memory foam, or spring mattresses.

Under-Bed Storage:

The 14-inch platform provides approximately 12 inches of clearance underneath, offering ample space for storage. This allows you to utilize the area for storing boxes, bins, or other items, helping to keep your bedroom organized.

Maintenance

To maintain the cleanliness and longevity of your ZINUS Abel Metal Platform Bed Frame, simply wipe it with a dry cloth as needed. Avoid using harsh chemicals or abrasive cleaners that could damage the finish.

Troubleshooting

Mattress Sliding:

The frame is equipped with non-slip strips on the slats to help prevent the mattress from sliding. Ensure these strips are properly applied and free from debris. If sliding occurs, verify the mattress is centered and the strips are intact.

Noise Issues:

The metal slats are designed with plastic inserts to minimize noise from metal-on-metal contact. If you experience squeaking or noise, check that all bolts are securely tightened and that the plastic inserts are correctly seated in their respective slots.
