STANLEY STHT36031S

STANLEY STHT36031S 25' DualLock Tape Measure Instruction Manual

Brand: STANLEY

PRODUCT OVERVIEW

The STANLEY STHT36031S 25 ft DualLock Tape Measure is designed for accurate and easy measurements. It features a fractional read blade for quick interpretation, a dual locking mechanism for secure blade hold and controlled retraction, and a Tru-Zero hook for precise internal and external measurements. The Tylon blade coating enhances durability.

Key Features

- Multi-function lock for smooth, controlled retraction or firm blade hold even when applying tension.
- Tru-Zero hook for accurate internal and external measurements.
- Fractional blade graphics for quick and easy measurements.
- Tylon blade coating for blade durability.
- Limited lifetime warranty.

PRODUCT COMPONENTS

The STANLEY STHT36031S tape measure consists of a durable casing, a flexible metal blade with measurement markings, a Tru-Zero hook at the blade's end, and a dual-locking mechanism.

SETUP

The STANLEY STHT36031S tape measure is ready for immediate use out of the packaging. No assembly or battery installation is required.

OPERATING INSTRUCTIONS

Extending the Blade

To extend the blade, simply pull the end of the tape measure. The dual-locking mechanism will automatically engage, holding the blade in place at the desired length.

Taking Measurements

External Measurements: Place the Tru-Zero hook against the edge of the object you wish to measure. Extend the blade until the desired length is reached. The Tru-Zero hook is designed to compensate for its own thickness, ensuring accuracy.

Internal Measurements: For internal measurements, such as inside a window frame, push the Tru-Zero hook against the inside surface. The hook will slide slightly to account for its thickness, providing an accurate reading.

Reading Fractional Measurements

The blade features fractional graphics, making it easy to read measurements down to 1/8, 1/4, 1/2, and 3/4 inch increments without complex calculations.

Locking and Retracting the Blade

The dual-locking mechanism provides two ways to secure the blade:

- **Automatic Lock:** The blade automatically locks when extended, providing a firm hold under tension.
- **Manual Lock:** For additional security or to hold the blade at a specific length, use the multi-function lock switch located on the top of the casing.

To retract the blade, disengage the manual lock (if applied) and gently press the multi-function lock switch. This allows for a smooth, controlled retraction, preventing the blade from snapping back too quickly.

MAINTENANCE

- Keep the tape measure clean and free from dirt and debris. Wipe the blade with a dry cloth after use.
- Avoid exposing the tape measure to excessive moisture or extreme temperatures.
- Do not force the blade during retraction; use the controlled retraction feature to prevent damage.
- Store in a dry place.

TROUBLESHOOTING

Blade does not retract smoothly:

Check for any debris or obstructions in the blade opening. Ensure the blade is clean. If the issue persists, avoid forcing the retraction and contact customer support.

Hook appears loose:

The Tru-Zero hook is designed to move slightly to ensure accurate internal and external measurements. This movement is normal and necessary for precision.

SPECIFICATIONS

Feature	Detail
Brand	STANLEY
Model Number	STHT36031S
Blade Length	25 Feet (7.6 m)
Lock Type	DualLock (Multi-function)

Blade Coating	Tylon
Hook Type	Tru-Zero
Measurement System	Metric and Imperial (Fractional)
Item Weight	12 ounces
Product Dimensions	5.5 x 3.2 x 1.75 inches
UPC	076174360318

WARRANTY AND SUPPORT

Warranty Information

This STANLEY SHT36031S 25' DualLock Tape Measure is backed by Stanley's Limited Lifetime Warranty. For details regarding warranty coverage and claims, please refer to the official Stanley website or contact customer service.
