

## KES A2164-P2

# KES SUS 304 Stainless Steel Wall Mounted Hook

MODEL: A2164-P2

## 1. Introduction

Thank you for choosing the KES SUS 304 Stainless Steel Wall Mounted Hook. This product is designed for durability and functionality in various environments such as bathrooms, kitchens, and garages. Constructed from premium grade SUS 304 stainless steel, it offers excellent resistance against corrosion and rust, ensuring long-lasting performance with minimal maintenance.

The polished silver finish provides a sleek, modern aesthetic that resists daily scratches and tarnishing. Each hook features a horizontal part length of 1.29 inches, providing ample space for hanging multiple items, and a vertical height of 1.06 inches to prevent items from falling off.

## 2. Package Contents

Please verify that all components are present before proceeding with installation:

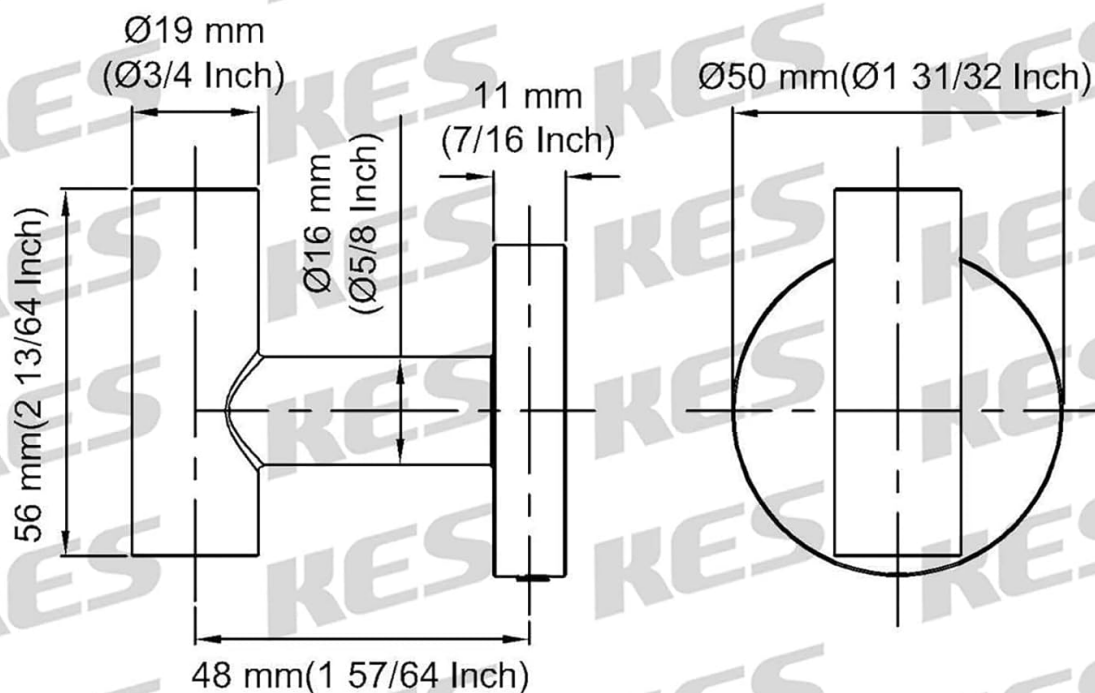

- 2 x KES Towel Hooks
- Screws Pack (including stainless steel screws and anchors)
- Installation Instructions (this manual)

## 4. Setup and Installation

The KES hooks are designed for screw-mounted installation, providing a secure and stable attachment to various surfaces such as drywall, wood, and metal. All necessary stainless steel screws and anchors are included in the package.

### Installation Steps:

1. **Prepare the Mounting Location:** Choose a suitable location on your wall. Use a pencil to mark the desired position for the hook's base.
2. **Drill Pilot Holes:** Using a drill, create pilot holes at the marked locations. If installing into drywall without a stud, insert the provided wall anchors into the pilot holes. If installing into a wood stud, drill a smaller pilot hole suitable for the screw.
3. **Mount the Base Plate:** Attach the hook's base plate to the wall using the provided screws. Ensure it is firmly secured.
4. **Attach the Hook:** Align the hook with the mounted base plate and secure it using the small set screw with the included Allen key. Ensure the hook is tight and does not wobble.

### Product Comparison and Durability:

The KES hooks are engineered with superior materials and design compared to standard alternatives. They feature thicker components and a more secure locking mechanism to prevent loosening and falling off over time.

## 5. Operating Instructions

To use the KES wall mounted hook, simply hang your desired items such as towels, robes, coats, or garments onto the hook. Ensure the weight of the items does not exceed the maximum weight limit of 5 kilograms (11 lbs) to maintain optimal performance and prevent damage.

Image 5.1: The KES hooks in a bathroom setting, demonstrating their use for hanging a small brush and a hand towel, showcasing their practical application and aesthetic appeal.

## 6. Maintenance

---

Due to its SUS 304 stainless steel construction, the KES hook requires minimal maintenance. To keep your hook looking new, simply wipe it clean with a soft, damp cloth. Avoid using abrasive cleaners or harsh chemicals, as these may damage the polished finish.

## 7. Troubleshooting

---

- **Hook feels loose after installation:** Ensure all screws are tightened securely. If installed into drywall, verify that the wall anchors are properly seated and expanded. Re-tighten the set screw on the hook using the Allen key.
- **Items falling off the hook:** Confirm that the total weight of items hung on the hook does not exceed the maximum weight capacity of 5 kilograms (11 lbs).

## 8. Warranty and Support

---

The KES SUS 304 Stainless Steel Wall Mounted Hook comes with a **One Year Manufacturer's Warranty**. KES is committed to providing lifetime support and 24/7 customer service. For any inquiries, assistance, or to request free replacement parts, please contact KES customer support.
