

BONECO S250

BONECO S250 Steam Humidifier User Manual

Model: S250

INTRODUCTION

This manual provides essential instructions for the safe and efficient operation, maintenance, and troubleshooting of your BONECO S250 Steam Humidifier. Please read this manual thoroughly before using the appliance and retain it for future reference. Proper use ensures optimal performance and longevity of your humidifier.

PRODUCT OVERVIEW AND KEY FEATURES

The BONECO S250 is a high-performance steam humidifier designed to provide hygienic humidity in rooms up to 480 square feet. It features a digital display and offers both manual and automatic operation modes.

Key Features:

- **Hygienic Steam Humidification:** Produces clean, warm mist without the need for filter pads or additives.
- **Automatic Humidity Control:** Unit automatically adjusts to your desired relative humidity level using a programmable hydrostat.
- **Warm Mist Output:** A unique cooling fan ensures the mist is cooled to a warmer, safer temperature, suitable for environments with children and pets.
- **Digital Display:** Provides clear information and allows for easy control.
- **Essential Oil Compatibility:** Includes a fragrance container for use with essential oils.
- **Easy Maintenance:** Features a cleaning mode for simplified descaling.
- **Compact Design:** Dimensions of 12.4 inches (W) x 6.8 inches (D) x 11 inches (H).

Figure 2: Diagram highlighting key features such as automatic humidity adjustment, smart functions with programmable hydrostat, and suitability for essential oils.

Figure 3: Visual representation of the BONECO S250's dimensions (11 in H, 6.8 in D, 12.4 in W) and capacity (480 sq ft room size, 1.9 gal/day humidity output).

SETUP

1. Unpacking

Carefully remove the humidifier from its packaging. Ensure all components are present: the main unit, removable water tank, and fragrance container.

2. Placement

Place the humidifier on a firm, level, and water-resistant surface. Ensure it is positioned away from walls and furniture to allow for optimal mist distribution. The recommended room size for effective humidification is up to 480 square feet.

Figure 4: Example placement of the BONECO S250 in a living room environment.

3. Filling the Water Tank

1. Remove the water tank from the main unit.
2. Unscrew the tank cap and fill the tank with clean, cool tap water. The water capacity is 0.8 gallons.
3. Securely screw the tank cap back on.
4. Place the filled water tank back onto the main unit, ensuring it is seated correctly.

4. Power Connection

Plug the power cord into a suitable electrical outlet. The digital display will illuminate.

OPERATING INSTRUCTIONS

1. Power On/Off

Press the power button () on the digital display to turn the humidifier on or off.

2. Setting Desired Humidity

Use the ▲ (Up) and ▼ (Down) buttons to adjust the desired relative humidity level. The humidifier will automatically work to maintain this level. The digital display shows the current humidity percentage.

3. Operating Modes

The BONECO S250 offers both manual and automatic operation. Refer to the digital display for mode selection. In automatic mode, the unit will adjust its output to reach and maintain the set humidity level.

4. Using Essential Oils

To use essential oils, add a few drops directly into the designated fragrance container. Do not add essential oils directly into the water tank, as this can damage the unit.

Figure 5: Close-up view of the digital display showing humidity percentage and control buttons for power, mode, and adjustment.

MAINTENANCE

Regular maintenance ensures the hygienic operation and extends the lifespan of your humidifier. The S250 does not require filter pads.

1. Daily Maintenance

- Refill the water tank with fresh, clean water.
- If using essential oils, clean the fragrance container as needed.

2. Weekly Cleaning and Descaling

To prevent mineral buildup (scale) on the heating element, regular descaling is necessary. The S250 features a dedicated cleaning mode.

1. Turn off and unplug the humidifier.
2. Remove the water tank and empty any remaining water from both the tank and the base unit.
3. Follow the instructions in the user interface to activate the cleaning mode. This typically involves adding a descaling solution (e.g., citric acid or a specialized descaler) to the base unit and running the cleaning cycle.
4. After the cleaning cycle, thoroughly rinse the base unit and heating element to remove all descaling solution and loosened scale.
5. Wipe down all surfaces with a soft, damp cloth.

Note: Using distilled water can significantly reduce the frequency of descaling required.

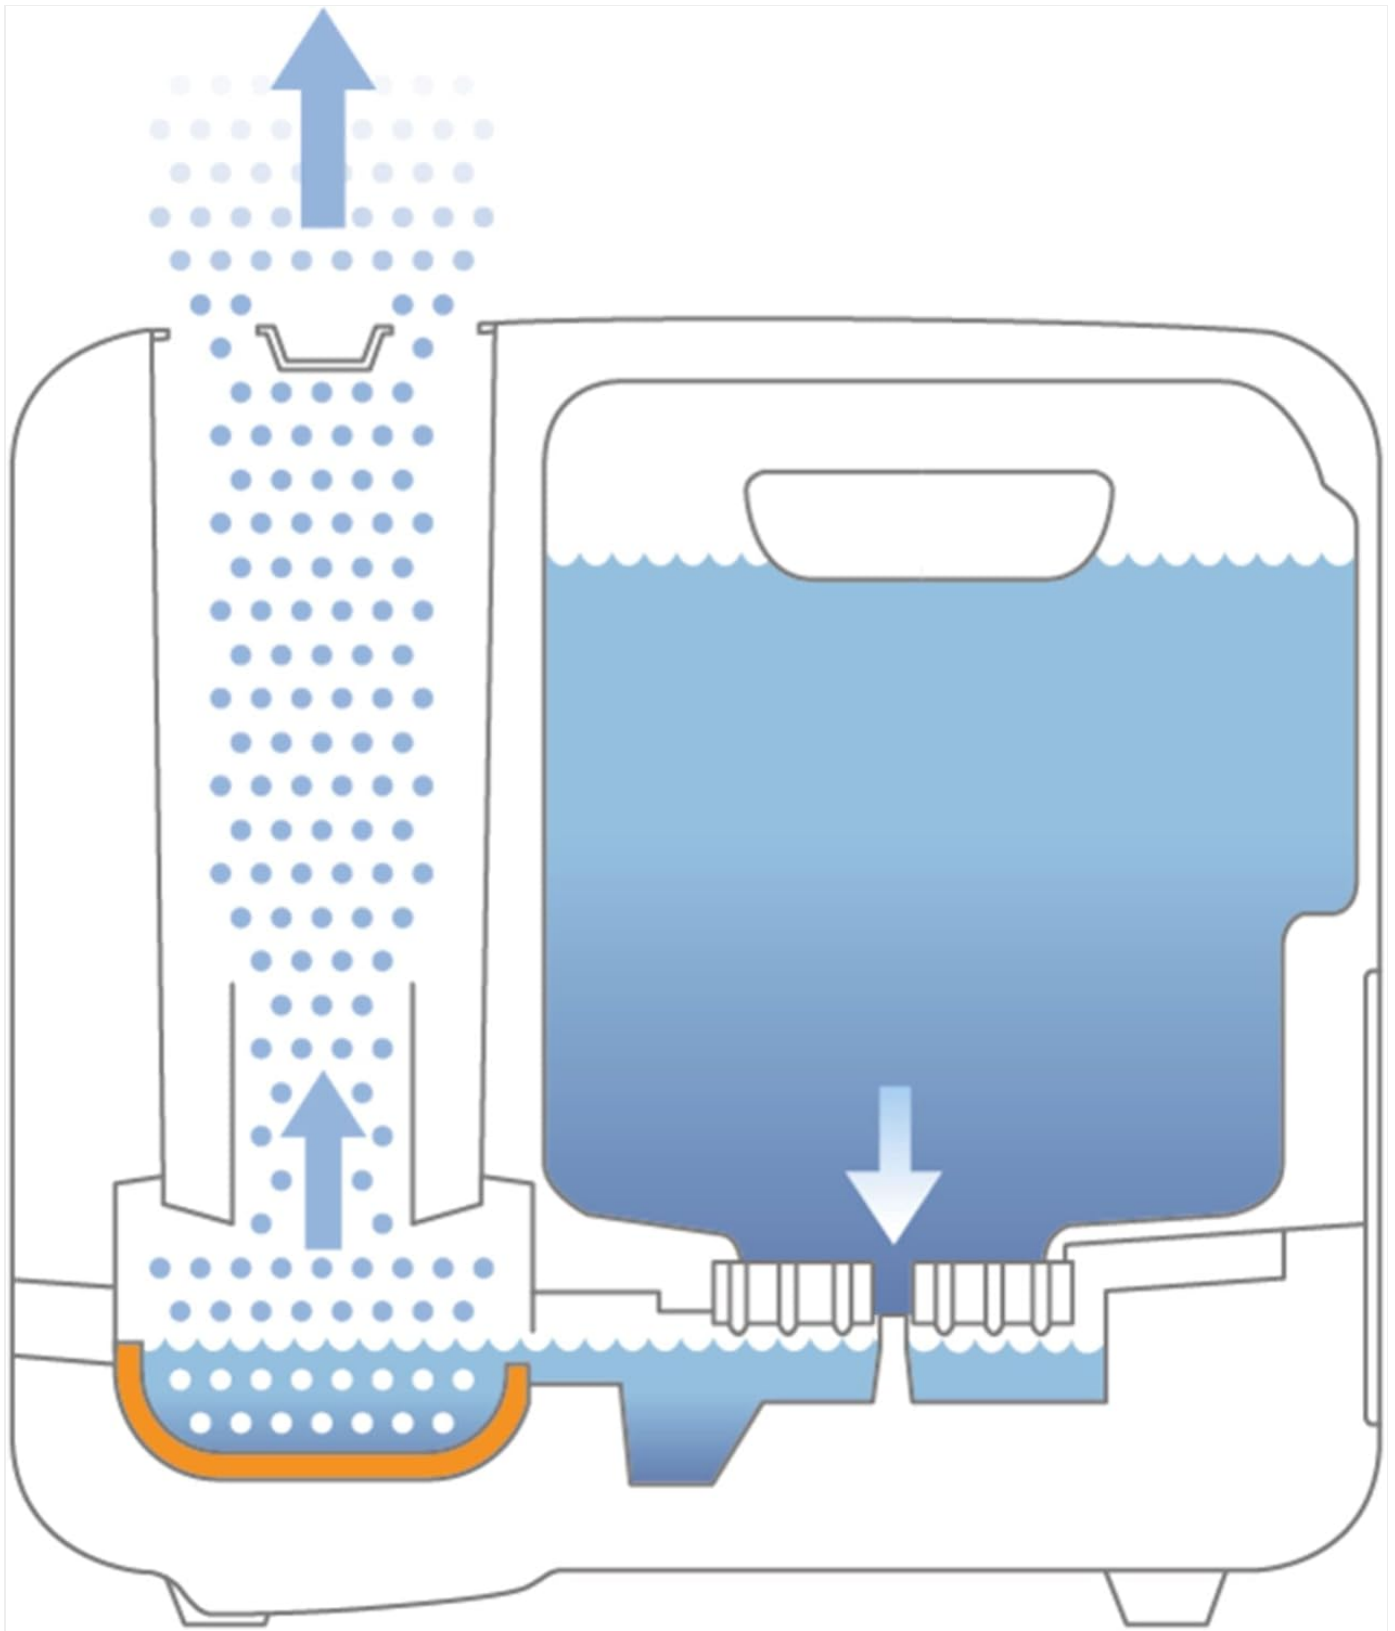

Figure 6: Internal diagram showing the water boiling process and steam release, emphasizing the heating element that requires regular cleaning.

TROUBLESHOOTING

If you encounter issues with your BONECO S250, consult the following table before contacting customer support.

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
No mist output.	Water tank empty; Unit not powered on; Heating element scaled; Safety shut-off activated.	Refill water tank; Ensure power is connected and unit is on; Perform descaling procedure; Check for proper assembly.
Digital display shows incorrect humidity.	Sensor obstruction; Inaccurate sensor reading.	Ensure nothing is blocking the sensor area; Allow time for the sensor to stabilize; Consider external hygrometer for comparison.
Unit is noisy (boiling sound).	Normal operation for steam humidifiers; Mineral buildup on heating element.	A gentle boiling sound is normal for steam humidifiers; If excessive, perform descaling.
Water leaks from the unit.	Water tank not seated correctly; Tank cap not tightened; Unit damaged.	Re-seat the water tank; Tighten the tank cap securely; If damage is suspected, discontinue use and contact support.

SPECIFICATIONS

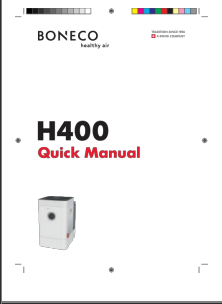

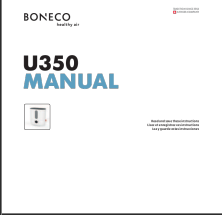

Specification	Value
Brand	BONECO
Model Name	S250
Product Dimensions (L x W x H)	12.4"W x 6.8"D x 11"H
Item Weight	6.2 Pounds
Room Size (Recommended)	Up to 480 Square Feet
Water Capacity	0.8 Gallons
Humidity Output	1.9 Gallons per Day
Wattage	145 watts
Operation Mode	Manual, Automatic
Control Method	Touch (Digital Display)
Special Features	Digital Display, Quiet Operation, Essential Oil Compatible
Included Components	Humidifier unit, removable water tank, fragrance container

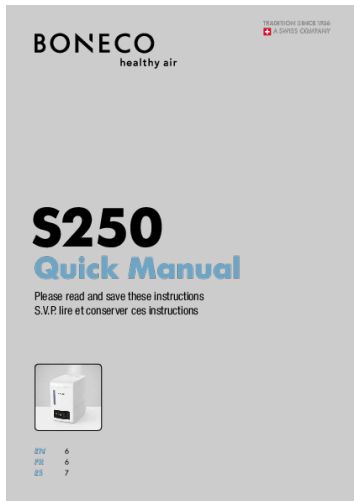

WARRANTY AND SUPPORT

For information regarding the product warranty, please refer to the warranty card included with your purchase or visit the official BONECO website. For technical support, replacement parts, or further assistance, please contact BONECO customer service.

You can often find contact details on the manufacturer's website:www.boneco.com

PERFEKT MILJØ
PERFEKT INNEKLIMA

God luftkvalitet er helt avgjørende for at folk skal trives i et bygg

SØRG FOR ET RIKTIG INNEKLIMA

De fleste av oss tilbringer mer enn 80 prosent av livet innendørs. Derfor er det veldig viktig å sikre et riktig innemiljø ikke bare på jobben, men også hjemme. De viktigste parametrene som påvirker innemiljøet er:

- luftfuktighet (RH)
- koncentrasjon av forurensninger i luften
- luftutveksling (m³/h)
- luftfuktighet (m/s)
- lufttemperatur (°C)
- belysning (lx)
- støynivå osv.

INNEKLIMA ER VIKTIG FOR HELSE

Stik får du bedre innemiljø hjemme
