## 4. OPERATING INSTRUCTIONS

Familiarize yourself with the mouse's buttons and their functions for optimal use.

- **Left Click:** Standard primary click function.
- **Right Click:** Standard secondary click function, typically opening context menus.
- **Scroll Wheel:** Roll up or down to scroll through documents and web pages. Pressing the scroll wheel acts as a middle click.
- **DPI Switch Button:** Located near the top of the mouse. Press this button to cycle between the two available DPI settings: 1000 DPI (standard sensitivity) and 1600 DPI (higher sensitivity for faster cursor movement).
- **Page Back Button:** Located on the side, typically used to navigate back in web browsers or file explorers.
- **Page Forward Button:** Located on the side, typically used to navigate forward in web browsers or file explorers.

## 5. MAINTENANCE

Proper care and maintenance will ensure the longevity and optimal performance of your PERIMICE-513L mouse.

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the mouse. For stubborn dirt, slightly dampen the cloth with water or a mild cleaning solution. Avoid harsh chemicals or abrasive materials.
- **Sensor Care:** Keep the optical sensor on the bottom of the mouse clean and free from dust or debris to ensure accurate tracking.
- **Cable Management:** Avoid sharp bends or excessive pulling on the USB cable to prevent damage.
- **Storage:** When not in use, store the mouse in a clean, dry environment away from extreme temperatures.

## 6. TROUBLESHOOTING

If you encounter issues with your PERIMICE-513L mouse, refer to the following common problems and solutions:

- **Mouse Not Responding:**

- Ensure the USB cable is securely plugged into a working USB port on your computer.
- Try plugging the mouse into a different USB port.
- Restart your computer.

- **Cursor Movement is Erratic or Inaccurate:**

- Clean the optical sensor on the bottom of the mouse with a soft cloth.
- Ensure you are using the mouse on a clean, non-reflective surface. A mouse pad is recommended.
- Adjust the DPI setting using the DPI switch button to see if a different sensitivity improves performance.

- **Side Buttons (Page Back/Forward) Not Working:**

- These buttons are typically recognized by most operating systems and applications without additional drivers. Ensure your operating system is up to date.
- Some applications may not support these functions by default. Check the application's settings for mouse button customization.
