5.2. Mobility Options: Casters vs. Adjustable Feet

Your VASAGLE End Table offers flexibility in placement:

- **With Casters:** If you installed the rolling casters, the table can be easily moved across various floor types. This is convenient for repositioning the table as needed, such as moving it from one side of the sofa to another or storing it away.
- **With Adjustable Feet:** If you opted for the adjustable feet, the table will remain stationary. The adjustable feet also help to level the table on uneven floors, preventing wobbling and ensuring stability.

- **Spills:** Promptly wipe up any spills to prevent staining or damage to the tabletop finish.
- **Protection:** Use coasters for drinks and placemats for hot dishes to protect the tabletop surface.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Re-tighten if necessary.
