## DAISO Excavator Petit Block Instruction Manual

Model: 4549131475401

### 1. PRODUCT OVERVIEW

The DAISO Excavator Petit Block set allows users to construct a miniature excavator model using small building blocks. This set is designed to provide an engaging assembly experience, resulting in a detailed, small-scale replica.

This package contains 42 mini-sized blocks, which are designed to interlock and form the complete model. The primary material used for these blocks is ABS plastic, known for its durability and suitability for construction toys.

**Image 1.1:** Front view of the DAISO Excavator Petit Block packaging. The image displays the brand logo, product name "Petit Block Excavator", an illustration of the assembled model, and a clear window showing the individual building blocks inside. The packaging also indicates "Age 12+" and "Work vehicle" in multiple languages.

## 2. SAFETY INFORMATION

### **WARNING: CHOKING HAZARD - Small parts. Not for children under 3 years old.**

This product contains small components that could pose a choking hazard if swallowed. It is imperative to keep all parts out of reach of infants and young children, especially those under 3 years of age.

- **Recommended Age:** This product is intended for individuals aged 12 years and up.

- **Parental Supervision:** For younger users within the recommended age range, parental or guardian supervision is advised during assembly and play.
- **Intended Use:** Use this product only for its intended purpose of building the excavator model. Do not use for other purposes.
- **Storage:** Store the blocks in the re-sealable pouch provided or a secure container to prevent loss of parts and keep them away from infants.

**Image 2.1:** Back view of the DAISO Excavator Petit Block packaging. This side features important safety warnings regarding small parts and choking hazards, translated into Japanese, English, and Spanish. It also details the materials (ABS plastic) and manufacturer information.

### 3. ASSEMBLY INSTRUCTIONS

---

The DAISO Excavator Petit Block set requires assembly to construct the final model. Detailed, step-by-step instructions are typically included within the product packaging. Please refer to these enclosed instructions for the precise sequence and placement of each block.

#### General Assembly Guidance:

1. **Unpack:** Carefully open the re-sealable pouch and empty all blocks onto a clean, flat surface. Ensure no small parts are lost.
2. **Identify Parts:** Familiarize yourself with the different shapes and sizes of the blocks. The enclosed instructions will likely show diagrams of the parts.
3. **Follow Steps:** Begin assembly by following the numbered steps or diagrams provided in the manual. Each step will guide you on how to connect specific blocks.
4. **Secure Connections:** Ensure each block is firmly pressed into place to create a stable structure.
5. **Verify:** After completing the assembly, compare your model with the image on the packaging or in the instructions to ensure all parts are correctly placed.

No special tools are required for the assembly of this block set.

### 4. MAINTENANCE

---

To ensure the longevity and cleanliness of your DAISO Excavator Petit Block model, follow these simple maintenance guidelines:

- **Cleaning:** If the blocks or assembled model become dusty, gently wipe them with a soft, dry cloth. For more stubborn dirt, a slightly damp cloth can be used, followed by immediate drying. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** When not on display, store the assembled model or loose blocks in a clean, dry place, away from direct sunlight and extreme temperatures, to prevent material degradation or discoloration. The original re-sealable pouch is suitable for storing loose blocks.
- **Handling:** Handle the assembled model with care to prevent accidental disassembly or damage to the interlocking connections.

### 5. TROUBLESHOOTING

---

As this is a static building block model, extensive troubleshooting is generally not required. However, if you encounter issues during or after assembly, consider the following:

- **Missing or Damaged Parts:** Carefully check the packaging and surrounding area for any small, overlooked blocks. If a part is genuinely missing or damaged upon opening, contact the retailer or manufacturer for assistance.
- **Model Instability:** If the assembled model feels unstable, review the assembly instructions to ensure all blocks are correctly and firmly connected. Sometimes, a block may not be fully pressed into place.
- **Difficulty Connecting Blocks:** Ensure blocks are aligned correctly before applying pressure. Avoid forcing blocks together, as this can cause damage.

### 6. SPECIFICATIONS

---

Feature	Detail
---------	--------

Feature	Detail
Brand	Daiso
Model Number	4549131475401
UPC	300742664042
Number of Pieces	42
Main Material	ABS Plastic
Assembly Required	Yes (user assembly)
Batteries Required	No
Recommended Age	12 years and up
Parcel Dimensions	16.6 x 8.2 x 2.6 cm
Item Weight	20 g
ASIN	<a href="#">B074YM8M2H</a>
Manufacturer	DAISO
