

SEMILITS Solar String Lights

SEMILITS Solar Honey Bee String Lights (20 LED)

Model: Solar String Lights

Outdoor Waterproof Simulation Honey Bees Decor for Garden & Holiday Decorations

INTRODUCTION

Thank you for choosing SEMILITS Solar Honey Bee String Lights. This manual provides essential information for the proper installation, operation, and maintenance of your new solar lights. Please read these instructions carefully before use and retain them for future reference.

SAFETY INFORMATION

- Ensure the solar panel is placed in an area that receives direct sunlight for at least 6-8 hours daily for optimal charging.
- Do not attempt to open or modify the solar panel or battery compartment.
- Keep the product away from fire or other heat sources.
- This product is designed for outdoor use and is waterproof, but avoid submerging it in water.
- Keep out of reach of children.

PARTS LIST

Please check that all the following parts are included in your package:

- 1x Set of Solar Honey Bee String Lights (20 LED)
- 1x Solar Panel with integrated battery
- 1x Ground Spike (2 parts)
- 1x User Manual

What you get:

Image: Package contents including solar string lights, solar panel, ground spike, and manual.

SETUP & INSTALLATION

1. **Assemble the Ground Spike:** Connect the two parts of the ground spike together. Attach the assembled spike to the back of the solar panel.
2. **Position the Solar Panel:** Choose a location for the solar panel that receives maximum direct sunlight throughout the day. Avoid shaded areas. Insert the ground spike firmly into soft soil.
3. **Unravel the String Lights:** Carefully uncoil the honey bee string lights, ensuring they are not tangled.
4. **Decorate:** Arrange the string lights as desired in your garden, around trees, bushes, or other outdoor features. Ensure the solar panel remains exposed to sunlight.

Charging in Daytime

Working at Night

OPERATING INSTRUCTIONS

The solar panel has two buttons: **ON/OFF** and **MODE**.

1. **Initial Use:** Before first use, ensure the solar panel is charged for at least 6-8 hours in direct sunlight with the ON/OFF button in the 'ON' position.
2. **Power On/Off:** Press the **ON/OFF** button on the back of the solar panel to turn the lights on or off.
3. **Select Lighting Mode:** Press the **MODE** button to cycle through the available lighting patterns. The lights will remember the last selected mode.
4. **Automatic Operation:** Once charged and turned 'ON', the lights will automatically illuminate at dusk and turn off at dawn.

MAINTENANCE

- **Clean the Solar Panel:** Regularly wipe the solar panel with a soft, damp cloth to remove dust, dirt, or debris. A clean panel ensures efficient charging.
- **Check Connections:** Periodically inspect all connections to ensure they are secure.
- **Storage:** If storing the lights for an extended period, ensure the solar panel is fully charged, then turn the unit off. Store in a cool, dry place.

TROUBLESHOOTING

- **Lights do not turn on at night:**
 - Ensure the ON/OFF switch is in the 'ON' position.
 - Verify the solar panel is receiving sufficient direct sunlight (6-8 hours) during the day.
 - Check if the solar panel is clean and free from obstructions.
 - Ensure the solar panel is not placed near other light sources at night, which might prevent it from activating.
- **Lights are dim or only last a short time:**
 - The solar panel may not be fully charged. Relocate it to an area with more direct sunlight.
 - The battery might be old or damaged. While the battery is included and rechargeable, its lifespan can vary.

SPECIFICATIONS
