August Home ASL-03, AC-R1

August Home Smart Lock Pro + Connect Hub User Manual

Model: ASL-03, AC-R1

Brand: August Home

INTRODUCTION

The August Home Smart Lock Pro + Connect Hub provides a secure and convenient way to control and monitor your door from anywhere. This smart lock integrates seamlessly with your existing deadbolt, allowing for keyless entry and smart home automation. With features like Auto-Lock and Auto-Unlock, it enhances your home's security and accessibility.

WHAT'S INCLUDED

Your August Home Smart Lock Pro + Connect Hub package includes the following components:

- August Smart Lock Pro
- August Connect Wi-Fi Bridge
- DoorSense Sensor
- 4 AA Batteries (included)
- Lock Adapter and Mounting Hardware

SETUP

Installation of the August Smart Lock Pro is designed to be straightforward, typically taking minutes. The August app provides step-by-step instructions to guide you through the process.

Installation Steps:

1. Ensure your existing deadbolt is compatible. The August Smart Lock Pro installs on the inside of your door, retaining your existing exterior lock and keys.
2. Download the August app from your device's app store.
3. Follow the in-app instructions to remove the interior portion of your existing deadbolt.
4. Attach the August Smart Lock Pro using the provided mounting hardware and lock adapter.
5. Install the DoorSense sensor to detect if your door is open or closed.
6. Insert the 4 AA Batteries into the Smart Lock Pro.
7. Plug in the August Connect Wi-Fi Bridge into a power outlet within 10-15 feet of your Smart Lock Pro for optimal connectivity.
8. Complete the setup and calibration within the August app.

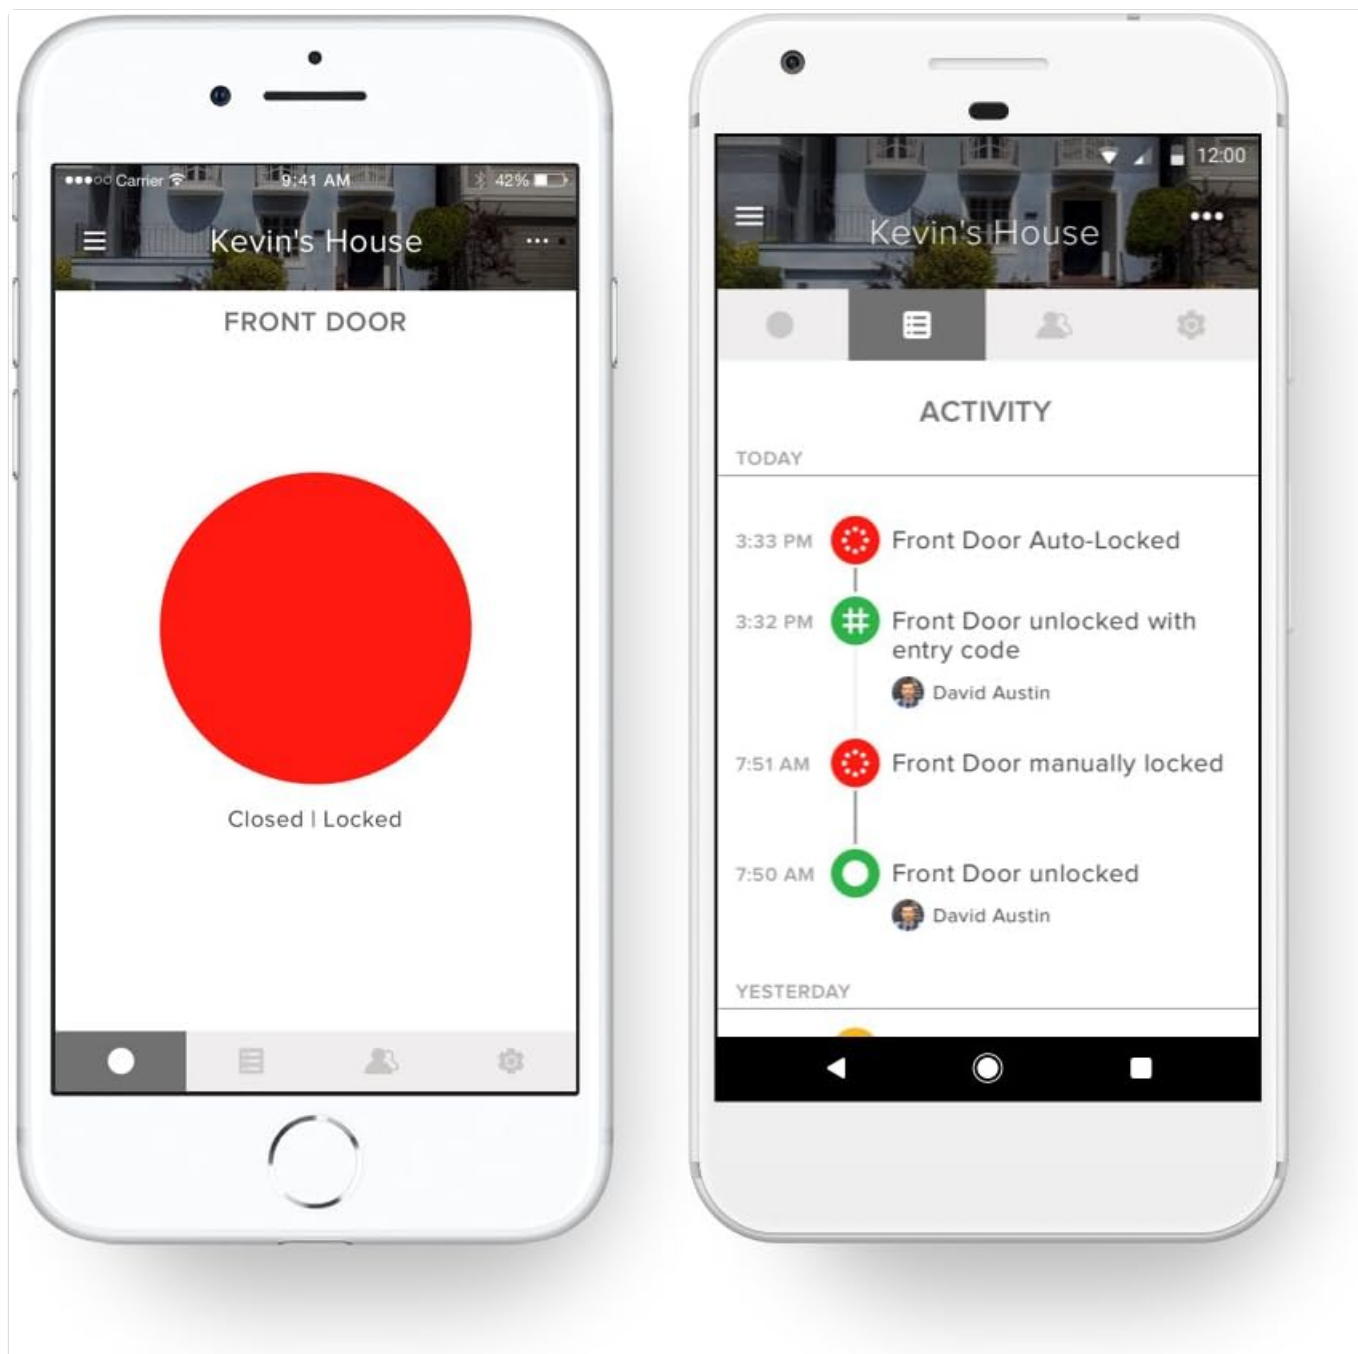

Image: Diagram illustrating the simple installation process, showing how the August Smart Lock Pro attaches to a standard single-cylinder deadbolt on the inside of the door.

Easy Installation

Works with your existing single-cylinder deadbolt.
Installs in minutes on the inside of your door.

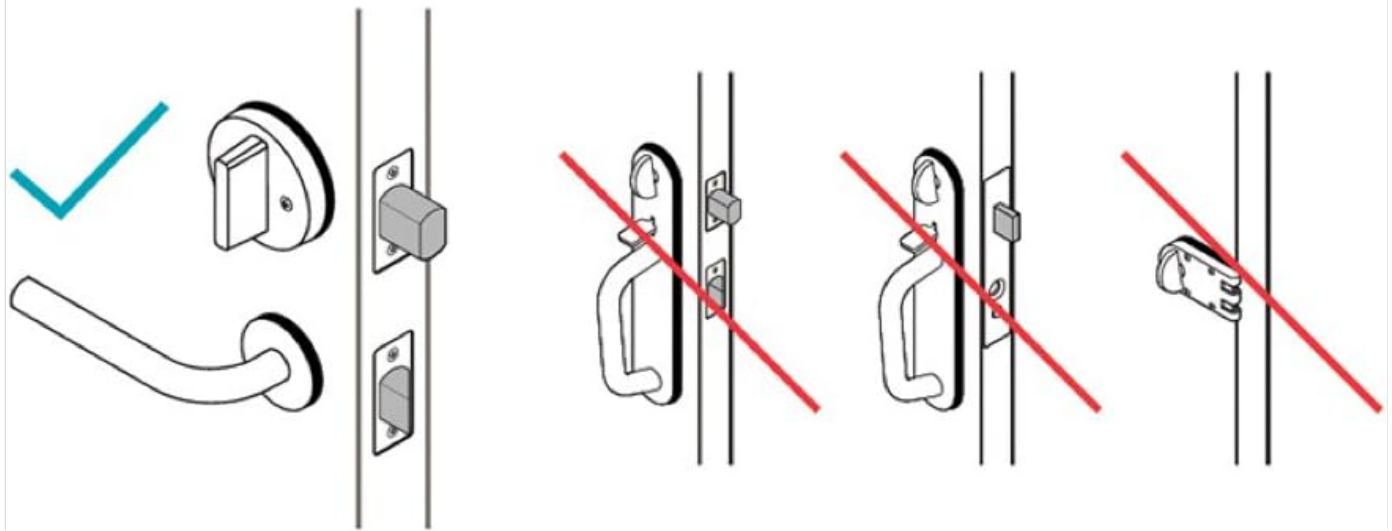

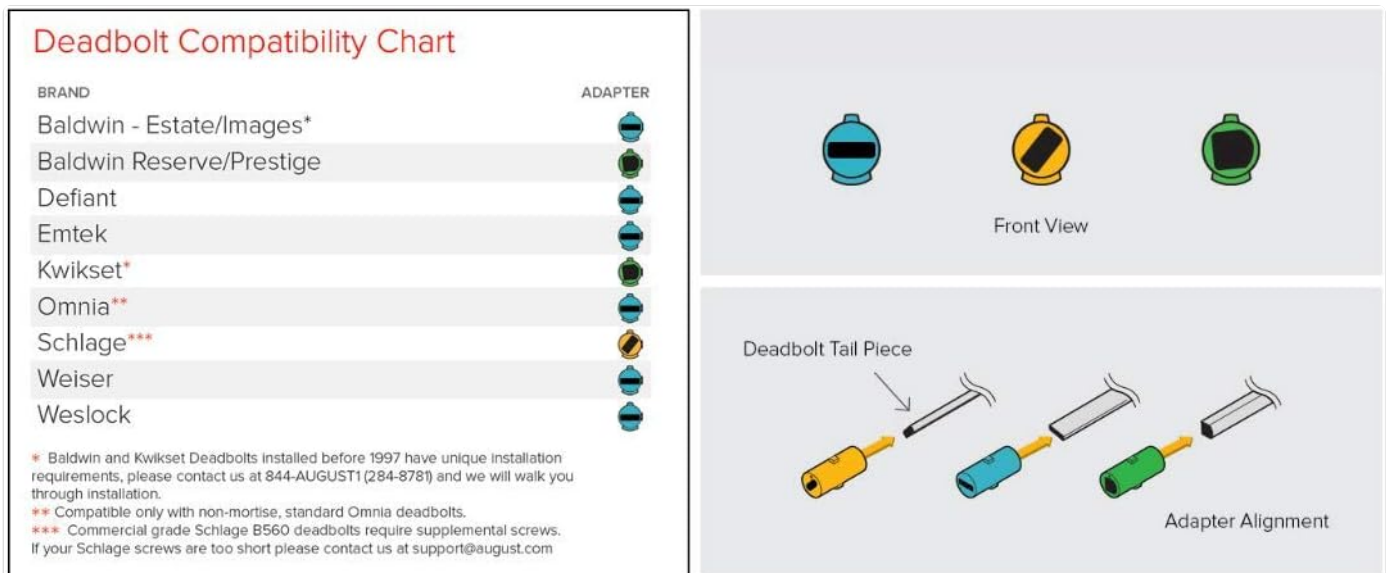

Image: The August Connect Wi-Fi Bridge plugged into a standard wall outlet, indicating its role in enabling remote access and smart home integrations.

For detailed visual instructions, please refer to the official [Installation Manual \(PDF\)](#).

COMPATIBILITY

The August Smart Lock Pro is compatible with most standard single-cylinder deadbolts. It comes with various adapters to ensure a proper fit with different lock brands. Refer to the compatibility chart below to identify the correct adapter for your deadbolt.

Select your adapter from the Compatibility Chart above.

If your lock brand is not in the chart, slide each adapter onto the tailpiece to find the right one. The correct adapter will have the small nub pointing up.

NOTE: The adapters can be placed in the mounting plate backwards. So if the shape is correct, but it seems backwards, try flipping the adapter around.

Image: A chart displaying various deadbolt brands and their corresponding August Smart Lock adapters, along with a visual guide for aligning the adapter with the deadbolt tailpiece.

If your lock brand is not listed, slide each adapter onto the tailpiece of your deadbolt to find the one that fits correctly. The correct adapter will have the small nub pointing up. Adapters can sometimes be placed backwards; if the shape seems correct but the orientation is off, try flipping the adapter.

OPERATING INSTRUCTIONS

The August Smart Lock Pro offers multiple ways to control your door, providing convenience and enhanced security.

Using the August App:

The August app is your primary interface for controlling the smart lock. From the app, you can:

- **Lock/Unlock:** Manually lock or unlock your door from anywhere using your smartphone.
- **Auto-Lock:** Set your door to automatically lock after a specified period once it closes.
- **Auto-Unlock:** The lock can automatically unlock as you approach your door, detecting your presence via your phone's GPS and Bluetooth.
- **Guest Access:** Grant temporary or permanent access to family, friends, or service providers. You can set specific times and dates for access.
- **Activity Feed:** View a detailed history of who entered and exited, and when.

Image: Screenshots of the August mobile application, showing the main interface for locking/unlocking the door and viewing activity logs.

Voice Control:

The August Smart Lock Pro works with popular voice assistants like Alexa and Google Assistant. Once integrated, you can use voice commands to lock or check the status of your door. For unlocking via voice, a PIN is typically required for security.

Manual Operation:

You can still manually lock or unlock the door from the inside by turning the August Smart Lock's thumbturn. From the outside, your original key will continue to function.

MAINTENANCE

Battery Replacement:

The August Smart Lock Pro is powered by 4 AA batteries. The August app will notify you when the battery level is low,

allowing ample time for replacement. To replace the batteries:

1. Remove the August Smart Lock cover by pressing the August logo at the bottom and lifting the cover off.
2. Carefully remove the old AA batteries.
3. Insert four new AA alkaline batteries, ensuring correct polarity.
4. Replace the cover, aligning it properly until it clicks into place.

Regularly check the battery status in the August app to ensure continuous operation.

TROUBLESHOOTING

If you encounter issues with your August Smart Lock Pro + Connect Hub, consider the following common troubleshooting steps:

- **Connectivity Issues:** Ensure the August Connect Wi-Fi Bridge is plugged in and within range of both your Wi-Fi router and the Smart Lock. Check your home Wi-Fi network for stability.
- **App Not Responding:** Close and reopen the August app. If the issue persists, restart your smartphone.
- **Lock Not Responding:** Check the batteries in the Smart Lock Pro. Replace them if they are low. Ensure the lock is properly calibrated within the app.
- **Auto-Unlock Not Working:** Verify that location services and Bluetooth are enabled for the August app on your smartphone. Ensure the app has permission to access your location in the background.
- **DoorSense Sensor Issues:** Ensure the DoorSense sensor is correctly installed and aligned. Recalibrate the sensor in the app if necessary.

For more comprehensive troubleshooting guides and support, please refer to the official August Home support resources or the [User Manual \(PDF\)](#).
