### 1. Introduction

The Vinturi On-Bottle Wine Aerator is designed to enhance the flavor and aroma of both red and white wines. By introducing air into the wine as it is poured, the aerator allows the wine to 'breathe,' softening tannins and releasing its full bouquet. This manual provides instructions for the proper use and care of your Vinturi wine aerator.

### 2. Product Overview

The Vinturi On-Bottle Wine Aerator (Model V9060) is a compact device that fits directly into the neck of a wine bottle. It features a patented design that draws in and mixes the optimal amount of air with your wine as it passes through. The aerator is constructed from durable poly resin, stainless steel, and silicone components.

Figure 2.1: Close-up of the Vinturi On-Bottle Wine Aerator. The clear acrylic body allows visibility of the aeration process, while the black silicone stopper ensures a secure fit in the bottle neck.

### 3. Setup

---

Before first use, rinse the Vinturi On-Bottle Wine Aerator with warm water. To prepare for use:

1. Open your bottle of wine.
2. Insert the Vinturi aerator firmly into the opening of the wine bottle. Ensure a snug fit to prevent leaks.

Figure 3.1: The Vinturi On-Bottle Wine Aerator securely placed in a wine bottle, ready for pouring.

## 4. Operating Instructions

Using the Vinturi On-Bottle Wine Aerator is a simple process that enhances your wine in seconds:

1. With the aerator securely in the bottle, hold the bottle at a 45-degree angle, ensuring the aerator's air intake holes are not obstructed.
2. Pour the wine through the aerator into your glass. As the wine passes through, you will hear a distinctive sound, indicating that air is being infused into the wine. This patented technology ensures optimal aeration.
3. Observe the wine in your glass; it may initially show small bubbles, which will dissipate, leaving a smoother, more aromatic wine.

The aerator is designed to conveniently enhance the flavor, bouquet, and finish of any wine in under 30 seconds, providing a full-bodied experience with every pour.

## 5. Maintenance

---

Proper cleaning ensures the longevity and performance of your Vinturi aerator:

- After each use, rinse the aerator thoroughly with warm water.
- The Vinturi On-Bottle Wine Aerator is **not dishwasher safe**. Hand washing is recommended.
- Allow the aerator to air dry completely before storing.

## 6. Troubleshooting

---

If you encounter issues with your Vinturi On-Bottle Wine Aerator, consider the following:

- **Leaking during pour:** Ensure the aerator is inserted firmly and straight into the bottle opening. A loose or wiggly fit can cause wine to leak around the seal.
- **No distinctive sound or aeration:** Check that the air intake holes on the aerator are not blocked by your hand or the bottle neck. Ensure wine is flowing consistently through the device.
- **Wine not aerating effectively:** Confirm that the wine is being poured at a consistent rate, allowing the aerator's design to draw in sufficient air.

## 7. Specifications

---

<b>Model Number</b>	V9060
<b>Color</b>	Black
<b>Material</b>	Poly Resin, Stainless Steel, Silicone
<b>Item Weight</b>	1.44 ounces
<b>Dishwasher Safe</b>	No
<b>Included Components</b>	On-Bottle Aerator, Care and Use Instructions

## 8. Warranty & Support

---
