Godox SL-60 LED Video Light Instruction Manual

INTRODUCTION

This manual provides detailed instructions for the safe and effective operation of your Godox SL-60 LED Video Light. Please read this manual carefully before use to ensure proper functionality and to prevent damage to the product or injury to yourself.

Key Features

- 60W LED bulbs guarantee high light brightness.
- The color rendering index (CRI) is greater than 93 and R9 is greater than 80, presenting objects authentically.
- Wirelessly adjust light brightness using the wireless 433MHz grouping system (6 groups & 16 channels).
- Large-sized LCD panel for clear settings display. Settings are automatically saved.
- Equipped with a temperature control function to prevent overheating.

WHAT'S IN THE BOX

Upon unpacking, please ensure all items listed below are present and in good condition:

- Godox SL-60 LED Video Light Unit
- Wireless Remote Control
- Clear Protective Cover
- Standard Reflector
- Power Cable

SETUP INSTRUCTIONS

Follow these steps to set up your Godox SL-60 LED Video Light:

1. **Mounting the Light:** Securely attach the Godox SL-60 LED Video Light to a compatible light stand using its integrated mounting bracket. Tighten the adjustment knob to fix the light's position.
2. **Attaching the Reflector:** Align the standard reflector with the Bowens mount on the front of the light. Insert the reflector and twist clockwise until it locks securely into place.
3. **Connecting Power:** Insert the power cable into the AC power input port located on the rear panel of the light. Connect the other end of the power cable to a suitable power outlet (AC 100-240V, 50/60Hz).

OPERATING INSTRUCTIONS

Learn how to control your Godox SL-60 LED Video Light:

1. **Power On/Off:** Locate the ON/OFF switch on the rear panel of the light. Flip the switch to 'ON' to power on the unit. The LCD screen will illuminate. Flip to 'OFF' to power down.
2. **Adjusting Brightness:** Use the 'SET' dial on the rear panel to adjust the light's brightness from 10% to 100%. Rotate clockwise to increase brightness and counter-clockwise to decrease it. The current brightness percentage will be displayed on the LCD screen.
3. **Wireless Control:** The light features a 433MHz wireless grouping system. Use the 'GR/CH' button to select the group (A-F) and channel (1-16) for wireless control. Ensure your remote control is set to the same group and channel for seamless operation.

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your light:

- **Cleaning:** Regularly wipe the light's exterior with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the light in a dry, cool environment away from direct sunlight and excessive humidity.
- **Overheating Prevention:** The light is equipped with a temperature control function. Ensure the ventilation openings on the unit are not obstructed to allow for proper airflow and prevent overheating during extended use.

TROUBLESHOOTING

If you encounter any issues, refer to the following common troubleshooting steps:

- **Light not turning on:**
 - Check if the power cable is securely connected to both the light and the power outlet.
 - Ensure the power switch is in the 'ON' position.
- **Light overheating:**
 - Verify that the ventilation openings on the light are not blocked.
 - Allow the unit to cool down before resuming operation.
- **Wireless remote not working:**
 - Check if the remote control has fresh batteries.
 - Ensure the remote and the light are set to the same group and channel.
 - Confirm there are no obstructions between the remote and the light's sensor.

SPECIFICATIONS

Feature	Detail
Product Dimensions	13.58 x 8.7 x 8.31 inches
Item Weight	4.86 pounds
Item Model Number	SL60
Brand	GODOX
Manufacturer	Godox
Compatible Mountings	Bowens
Battery Life	2 Hours (External battery not included)
Camera Flash	External
Flash Sync Speed	1/250
