Shappy TO-10

Shappy TO-10 4-Way Utility Key Instruction Manual

Model: TO-10

INTRODUCTION

The Shappy TO-10 4-Way Utility Key is a versatile tool designed for accessing various utility panels and meters. Constructed from durable zinc alloy, this key features four distinct shapes, making it suitable for a wide range of applications including electric cabinets, gas meters, water meters, and other public facility doors. Its compact and lightweight design ensures easy portability and convenient use.

FEATURES

- **Four-Way Design:** Includes two square shapes, one triangle shape, and one key shape for broad compatibility.
- **Durable Material:** Made from zinc alloy for strength and longevity.
- **Compact and Portable:** Easy to carry in a pocket or tool bag.
- **Multi-Application:** Suitable for electric cabinets, gas meters, water meters, and public facility doors.

KEY SHAPES AND SIZES

The Shappy TO-10 utility key features four distinct ends, each designed for specific applications:

1. **Square Shape (8x8 mm):** Ideal for various square-headed locks found on electric cabinets and other panels.

Image: Detail of the 8x8 mm square key end.

2. **Square Shape (6x6 mm):** A smaller square size for different panel types.

SETUP

Before using the Shappy TO-10 4-Way Utility Key, ensure that the specific lock or valve you intend to operate matches one of the four shapes and corresponding sizes on the key. This key is designed for standard utility applications and may not be suitable for all types of radiators or specialized locking mechanisms. Verify compatibility to prevent damage to the key or the device.

OPERATING INSTRUCTIONS

To operate a lock or valve with the Shappy TO-10 4-Way Utility Key:

1. Identify the correct shape and size on the utility key that matches the lock or valve.
2. Insert the appropriate end of the key firmly into the lock or valve mechanism.
3. Turn the key clockwise or counter-clockwise as required to open or close the mechanism. Apply steady pressure; avoid excessive force to prevent damage.

Multi-functional and versatile

The 4-way key can open the toolbox doors, electric doors, especially suitable for the doors and windows of public places

MAINTENANCE

The Shappy TO-10 4-Way Utility Key requires minimal maintenance. Keep the key clean and dry to prevent corrosion. If the key becomes dirty, wipe it with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials that could damage the zinc alloy finish.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Key does not fit the lock/valve.	Incorrect key shape or size.	Verify the lock/valve type and ensure you are using the correct key shape and size. This key is not universal for all locks.
Key is difficult to turn.	Mechanism is stiff or corroded.	Apply a small amount of lubricant to the lock/valve mechanism. Do not force the key, as this may cause damage.
Key appears damaged.	Excessive force applied or impact.	Discontinue use if the key is bent or broken. Replace the key if necessary.

SPECIFICATIONS

Attribute	Detail
