Powerbank 8000 mAh Slim

Power Bank Slim 8000 mAh External Battery

USER MANUAL

1. Introduction and Overview

This user manual provides essential information for the safe and efficient operation of your Power Bank Slim 8000 mAh External Battery. This portable power bank is designed to provide on-the-go charging for various electronic devices, including mobile phones. With its 8000mAh capacity and ultra-slim design, it is an ideal companion for travel and extended use away from power outlets.

2. Safety Information

- Do not expose the power bank to extreme temperatures (above 45°C or below 0°C), direct sunlight, or high humidity.

- Avoid dropping, hitting, or disassembling the device. This can cause damage and void the warranty.
- Keep the power bank away from water and other liquids.
- Use only certified charging cables and adapters.
- Do not attempt to charge the power bank and another device simultaneously if the power bank does not support pass-through charging.
- Keep out of reach of children.

3. Package Contents

Please check the package for the following items:

- 1 x Power Bank Slim 8000 mAh External Battery
- 1 x USB Charging Cable (for charging the power bank)
- 1 x User Manual (this document)

4. Setup

Before first use, it is recommended to fully charge your power bank.

1. **Charging the Power Bank:** Connect the provided USB charging cable to the power bank's input port (usually Micro-USB or USB-C). Connect the other end of the cable to a USB wall adapter (not included) or a computer's USB port. The indicator lights will illuminate, typically blinking to show charging progress and solid when fully charged.
2. **Initial Charge Time:** A full charge may take several hours. Refer to the specifications for exact input current.

5. Operating Instructions

To charge your electronic device using the power bank:

1. **Connect Your Device:** Use your device's original charging cable (or a compatible USB cable) and connect one end to your device and the other end to the power bank's USB output port.
2. **Start Charging:** The power bank should automatically begin charging your device. Some models may require pressing a power button to initiate charging.
3. **Indicator Lights:** Observe the indicator lights on the power bank. These typically show the remaining battery level. For example, four lights might indicate 75-100% charge, three lights 50-75%, and so on.
4. **Disconnect:** Once your device is fully charged, disconnect it from the power bank. Disconnect the power bank from its charging source when it is fully charged.

6. Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the surface of the power bank. Do not use harsh chemicals or abrasive materials.
- **Storage:** Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures. For long-term storage, it is recommended to keep the power bank charged to about 50-70% to preserve battery health.
- **Battery Care:** To maximize the lifespan of the internal battery, avoid completely draining it frequently. Recharge it regularly, even if not in constant use.

7. Troubleshooting

- **Power Bank Not Charging:**
 - Ensure the charging cable is securely connected to both the power bank and the power source.
 - Try a different USB cable or wall adapter.
 - Verify the power source is active.
- **Device Not Charging from Power Bank:**
 - Ensure the power bank has sufficient charge.
 - Check that the charging cable connecting the device to the power bank is not damaged and is securely connected.
 - Try a different charging cable or device.
 - Some devices may require a specific charging current; ensure compatibility.
- **Slow Charging:**
 - Ensure you are using a high-quality cable.
 - Check the output current of the power bank and the input current requirement of your device.

8. Specifications

Brand	Powerbank
Capacity	8000 mAh
Type de connecteur	USB
Color	Argent (Silver)
Special Feature	Travel
Compatible Devices	Qilive 8, and other mobile phones/electronic devices
International Article Code	03615101860339
