KINUJO W Worldwide Model Straight Hair Iron User Manual

Model: SG_B0754XNDNF_US | Brand: KINUJO

1. INTRODUCTION

Thank you for purchasing the KINUJO W Worldwide Model Straight Hair Iron. This manual provides essential information for the safe and effective use, maintenance, and troubleshooting of your new hair iron. Please read this manual thoroughly before use and keep it for future reference.

2. SAFETY INFORMATION

- Always unplug the appliance immediately after use and before cleaning.
- Do not use this appliance near water, such as in a bathtub, shower, or sink.
- Keep the appliance out of reach of children and pets.
- Do not touch the heating plates when the appliance is on or cooling down, as they can cause severe burns.
- Ensure the voltage specified on the appliance matches your local power supply before plugging in.
- Do not use the appliance if the cord or plug is damaged. Contact customer support for repair.
- Avoid wrapping the power cord around the appliance, as this can damage the cord.
- This product is PSE mark certified for safe use.

3. PRODUCT OVERVIEW AND FEATURES

The KINUJO W Straight Hair Iron is designed for versatile styling with advanced features to protect your hair.

Key Features:

- **Silk Plate Technology:** Unique silk plates prevent water evaporation from hair, enhancing shine and minimizing damage.
- **Worldwide Compatibility:** Designed for international use, making it ideal for travel.
- **Heat-Resistant Cap:** Includes a special silicone heat-resistant cap for safe and immediate storage after use.
- **Versatile Styling:** Capable of both straightening and curling hair ends.
- **Digital Temperature Control:** 5 temperature settings (140°C, 160°C, 180°C, 200°C, 220°C) adjustable in 20°C increments.

- **360-Degree Swivel Cord:** Prevents tangling during use.
- **Auto Power-Off:** Automatically turns off after approximately 60 minutes of inactivity for safety.
- **Lightweight Design:** Reduces strain during use and is convenient for portability.
- **Matte Finish:** Provides a luxurious feel and comfortable grip.

Diagram illustrating how Silk Plate technology protects hair cuticles from steam damage.

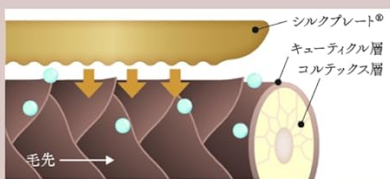

キューティクルを 摩擦ダメージから守る新設計

一般的なプレートの場合

熱が髪の毛の内部まで伝わり、キューティクル層（毛先の表面部）で起こってしまうのが「水蒸気爆発」。使用し続けると髪の毛の水分が失われ、パサツキの原因にもなります。

シルクプレート®の場合

KINUJOの根幹ともいえる独自技術「シルクプレート®」。水蒸気爆発によるダメージを抑えながら、キューティクル層を整えます。使うたび艶やかな髪になる、新感覚のヘアアイロンです。

The KINUJO W Straight Hair Iron is available in white and black.

4. SETUP

1. **Unpack:** Carefully remove the hair iron and all accessories from the packaging.
2. **Inspect:** Check the appliance for any signs of damage. Do not use if damaged.
3. **Placement:** Place the hair iron on a heat-resistant, flat surface away from water.
4. **Plug In:** Insert the power plug into a suitable electrical outlet. Ensure your outlet voltage matches the appliance's specifications.

5. OPERATING INSTRUCTIONS

Power On/Off and Temperature Selection:

1. **Power On:** Press and hold the power button until the digital display illuminates.
2. **Select Temperature:** Use the touch panel controls to select your desired temperature (140°C, 160°C, 180°C, 200°C, or 220°C). The iron heats up quickly.
3. **Power Off:** Press and hold the power button again until the display turns off. The auto power-off function will also turn

off the device after approximately 60 minutes of inactivity.

Hair Straightening:

1. Ensure hair is clean, dry, and detangled.
2. Divide hair into small, manageable sections.
3. Take one section of hair and place it between the heating plates, close to the roots.
4. Gently clamp the plates together and glide the iron slowly down the hair section from root to tip.
5. Repeat for all sections until desired straightness is achieved.

Hair Curling (Hair Ends):

1. Follow steps 1-2 for straightening.
2. For curling hair ends, clamp a section of hair and rotate the iron 180 degrees as you glide it down the hair, creating a curl.
3. Experiment with different angles and speeds to achieve various curl styles.

Your browser does not support the video tag.

This video demonstrates the KINUJO W Straight Hair Iron in use, showcasing its ability to straighten hair and its compact design. It highlights the ease of use and the smooth results achieved with the device.

6. MAINTENANCE AND CLEANING

Regular cleaning ensures optimal performance and extends the life of your hair iron.

1. **Unplug and Cool Down:** Always unplug the appliance and allow it to cool completely before cleaning.
2. **Clean Plates:** Wipe the heating plates with a soft, damp cloth. Do not use abrasive cleaners or harsh chemicals.
3. **Clean Body:** Wipe the exterior of the iron with a soft, dry cloth.
4. **Storage:** Once completely cool, place the heat-resistant silicone cap over the plates for protection. Store the iron in a dry place, away from moisture and direct sunlight.

7. TROUBLESHOOTING

If you encounter any issues with your KINUJO W Straight Hair Iron, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Iron does not turn on.	Not plugged in correctly, power outlet issue, or internal fault.	Ensure the plug is fully inserted. Try a different outlet. If the problem persists, contact customer support.
Iron is not heating up.	Temperature not selected, or internal heating element issue.	Check if a temperature setting has been selected on the digital display. Allow a few moments for heating. If no heat, contact customer support.

Problem	Possible Cause	Solution
Hair gets caught or pulled.	Hair not properly detangled, or too large a section.	Ensure hair is thoroughly detangled before use. Work with smaller sections of hair.

For issues not listed here or if problems persist, please contact KINUJO customer support.
