IMPORTANT SAFETY INFORMATION

WARNING: To prevent tip-over accidents, always secure the cabinet to the wall using the provided wall anchor kit. Keep cords from electrical devices organized and away from heat sources to prevent fire hazards. Ensure all components are properly assembled before use.

SETUP AND ASSEMBLY

This cabinet is designed for easy assembly. All necessary materials, hardware, and detailed instructions are included. It is recommended to assemble the unit on a soft, clean surface to prevent scratches. Two people are recommended for assembly due to the weight of the components.

Key Assembly Features:

- **Adjustable Shelves:** The cabinet features multiple pre-drilled holes for shelf pegs, allowing you to customize the height of the four adjustable shelves to suit your storage needs.
- **Adjustable Base Levelers:** Integrated adjustable base levelers ensure stability on uneven floor surfaces.

- **Self-Closing Adjustable Hinges:** The doors are equipped with self-closing adjustable hinges for smooth operation and proper alignment.

OPERATING INSTRUCTIONS

The Sauder HomePlus Storage Cabinet is designed for straightforward use. Simply open the framed panel doors to access the interior. The adjustable shelves can be repositioned by removing the shelf pegs, moving the shelf to the desired height, and reinserting the pegs into the corresponding holes. The self-closing hinges ensure the doors close securely and quietly.

Storage Capacity:

- Each adjustable shelf holds up to 25 pounds.

- The bottom stationary shelf holds up to 50 pounds.

MAINTENANCE AND CARE

To maintain the appearance and longevity of your Sauder HomePlus Storage Cabinet, wipe it with a damp cloth as needed. Avoid using harsh chemicals or abrasive cleaners, as these may damage the finish. Regularly check the stability of the cabinet and ensure the wall anchor kit remains securely fastened.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Cabinet feels wobbly or unstable.	Uneven floor surface; base levelers not adjusted; wall anchor not secured.	Adjust the base levelers until the cabinet is stable. Ensure the wall anchor kit is properly installed and tightened.

Problem	Possible Cause	Solution
Doors do not close properly or are misaligned.	Hinges need adjustment; cabinet not level.	Adjust the self-closing hinges using a screwdriver as per assembly instructions. Check if the cabinet is level using the base levelers.
Shelves are not level.	Shelf pegs not fully inserted or unevenly placed.	Ensure all four shelf pegs are fully inserted into the corresponding holes at the same height.
