Armor All 18706

Armor All Ultra Shine Protectant (Model 18706) Instruction Manual

Your guide to achieving and maintaining a brilliant shine for your vehicle's interior.

INTRODUCTION

The Armor All Ultra Shine Protectant is designed to deliver a long-lasting, high-gloss shine while enhancing the deep, rich look of your vehicle's interior surfaces. This product is formulated with proprietary gloss enhancers to help prevent cracking, fading, discoloration, and premature aging caused by UV damage. It renews and revitalizes vinyl, rubber, and plastic components, providing an intense luster.

This manual provides detailed instructions for the proper use and care of your Armor All Ultra Shine Protectant to ensure optimal results and product longevity.

IMPORTANT SAFETY INFORMATION

- **Keep out of reach of children and pets.**

- **Avoid contact with eyes and skin.** In case of contact, rinse thoroughly with water. If irritation persists, seek medical attention.

- **Do not ingest.** If swallowed, do not induce vomiting. Call a poison control center or doctor immediately.

- **Use in a well-ventilated area.** Avoid prolonged breathing of vapors.

- **Do not use on surfaces where slipperiness may be hazardous,** such as vehicle controls (steering wheels, pedals), floor mats, or motorcycle seats.

- **Not for use on glass, painted surfaces, or fabrics.**

- **Proposition 65 Warning:** This product may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

SETUP AND PREPARATION

Before applying the protectant, ensure the surface is clean and dry for best results.

1. **Clean the Surface:** Use an appropriate automotive interior cleaner to remove dirt, dust, and grime from the vinyl, rubber, or plastic surfaces you intend to treat.

2. **Dry the Surface:** Allow the cleaned surface to dry completely before applying the protectant.

3. **Shake Bottle:** Shake the Armor All Ultra Shine Protectant bottle well before each use to ensure proper mixture of

ingredients.

OPERATING INSTRUCTIONS (APPLICATION)

Follow these steps for effective application of Armor All Ultra Shine Protectant:

1. **Spray Product:** Spray the product directly onto the desired surface, or for more controlled application, spray onto a clean microfiber cloth.

2. **Wipe Evenly:** Spread the protectant evenly over the surface using a clean cloth or sponge.

3. **Allow to Penetrate:** Allow the product to penetrate for a few minutes.

4. **Wipe Off Excess:** Wipe off any excess product with a clean, dry cloth to achieve a brilliant, non-greasy shine.

5. **Repeat if Necessary:** For a deeper shine or heavily faded surfaces, repeat the application process.

Image: A bottle of Armor All Ultra Shine Protectant placed on a car seat, with text highlighting its "Non-greasy formula." This image reinforces a key product benefit.

MAINTENANCE AND STORAGE

- **Regular Application:** For continuous protection against UV damage and to maintain a high-gloss finish, apply the protectant regularly as part of your vehicle care routine.
- **Storage:** Store the product in a cool, dry place, away from direct sunlight and extreme temperatures. Ensure the cap is tightly closed to prevent leakage or evaporation.
- **Disposal:** Dispose of empty containers according to local regulations.

TROUBLESHOOTING

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Streaking or uneven finish	Excess product applied; surface not clean; product not wiped evenly.	Ensure surface is clean and dry before application. Apply a thin, even coat. Wipe off all excess product thoroughly with a clean, dry microfiber cloth.
Dull finish after application	Not enough product applied; surface not adequately cleaned; product not allowed to penetrate.	Ensure surface is thoroughly cleaned. Apply a slightly more generous amount and allow it to penetrate for a few minutes before wiping. Repeat application if necessary.
Product residue on unintended surfaces	Overspray during application.	Spray product onto a cloth first, then apply to the desired surface to prevent overspray. Immediately wipe off any unintended residue with a damp cloth.
