KODIAK TG-2500LM/4/8/16

Kodiak Kolossus 2500 Lumen Tactical Grade Flashlight Instruction Manual

Model: TG-2500LM/4/8/16

1. Introduction

Thank you for choosing the Kodiak Kolossus 2500 Lumen Tactical Grade Flashlight. This high-powered flashlight is designed for durability and performance in various conditions, offering exceptional brightness and versatile lighting modes. This manual provides essential information for the safe and effective use of your flashlight.

2. Safety Information

- **Eye Safety:** Do not look directly into the flashlight beam or shine it into the eyes of others. The high intensity light can cause temporary vision impairment or permanent eye damage.
- **Battery Safety:** Use only the specified battery type and ensure correct polarity during installation. Do not mix old and new batteries, or different types of batteries. Remove batteries if the flashlight will not be used for an extended period.
- **Heat:** The flashlight head may become warm during prolonged use on high settings. Handle with care.
- **Children:** Keep out of reach of children.
- **Proposition 65 Warning:** This product may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

3. Package Contents

Verify that all items are present in the package:

- Kodiak Kolossus 2500 Lumen Tactical Grade Flashlight (Model TG-2500LM/4/8/16)
- 9 AA Alkaline Batteries

4. Setup: Battery Installation

The Kodiak Kolossus flashlight requires 9 AA batteries for operation. These batteries are included with your purchase.

1. Unscrew the tail cap of the flashlight by turning it counter-clockwise.
2. Insert 9 AA batteries into the battery compartment, ensuring correct polarity (+/-) as indicated inside the flashlight.
3. Screw the tail cap back on by turning it clockwise until it is securely tightened.

5. Operating Instructions

The Kodiak Kolossus flashlight features multiple lighting modes and an adjustable focus beam.

5.1 Power On/Off and Mode Selection

The power switch is located on the side of the flashlight body.

- **To Turn On/Off:** Press the power switch once to turn the flashlight on. Press it again to cycle through modes or turn off.
- **Light Modes:** The flashlight offers two brightness modes:

- **High (2500 Lumens):** Provides maximum illumination for up to 2 hours.
- **Low (630 Lumens):** Offers extended runtime for up to 3.5 hours.

Image: Brightness levels and corresponding runtimes for the flashlight.

5.2 Focus Adjustment (Push-Pull Beam)

The flashlight features a push-pull mechanism to adjust the beam focus.

- **To Widen the Beam:** Gently pull the head of the flashlight forward. This provides a broad floodlight suitable for lighting up an entire area.
- **To Narrow the Beam:** Gently push the head of the flashlight backward. This creates a tightly focused spotlight, capable of illuminating objects up to 1400 feet away.
- **Hybrid Beam:** The design allows for a unique hybrid beam, combining a focused spotlight with a wide beam simultaneously.

5.3 Product Video

Your browser does not support the video tag.

Video: A short movie showcasing the Kodiak flashlight in various outdoor and camping scenarios, demonstrating its utility for activities like playing cards, navigating in the dark, and providing light inside a tent.

6. Maintenance

- **Cleaning:** Wipe the flashlight body with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Water Resistance:** The flashlight is water resistant. This means it can withstand splashes and light rain. It is not designed for submersion in water. Ensure all caps and seals are tightly closed to maintain water resistance.
- **Storage:** Store the flashlight in a cool, dry place. Remove batteries if storing for extended periods to prevent leakage.
- **Durability:** Constructed from aerospace-grade aluminum, this flashlight is built for heavy-duty use and can

withstand accidental drops.

7. Troubleshooting

If you encounter issues with your Kodiak Kolossus flashlight, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Flashlight does not turn on.	Dead or incorrectly installed batteries.	Check battery polarity. Replace all 8 AA batteries with new ones.
Light is dim or flickers.	Low battery power. Loose connections.	Replace batteries. Ensure tail cap and head are securely tightened.
Beam focus is not smooth.	Dirt or debris in the focusing mechanism.	Gently clean the exterior of the flashlight. Avoid disassembling the focusing mechanism.
Power button is unresponsive.	Internal switch malfunction or impact damage.	Ensure batteries are correctly installed. If the issue persists after checking batteries, contact customer support.

8. Specifications

Feature	Detail
Model Number	TG-2500LM/4/8/16
Light Output (Max)	2500 Lumens
Light Source Type	LED
Power Source	Battery Powered
Battery Type	8 AA Alkaline batteries (included)
Run Time (High)	Up to 2 hours
Run Time (Low)	Up to 3.5 hours
Beam Distance	Up to 1400 feet (approx. a quarter mile)
Material	Aerospace Grade Aluminum
Water Resistance Level	Water Resistant
Product Dimensions	2.25"D x 2.25"W x 10.5"H
Item Weight	1.85 Pounds

9. Warranty and Support

For warranty information or technical support, please refer to the contact details provided with your product packaging or visit the official KODIAK website. Keep your purchase receipt for warranty claims.

Ask a question about this manual

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
