# **Jaybird RUN True Wireless Headphones User Manual**

Model: 985-000688 | Brand: Jaybird

## **INTRODUCTION**

The Jaybird RUN True Wireless Sport Headphones are designed to provide a completely wireless audio experience for active users. These earbuds offer a secure and comfortable fit, are sweat-proof and water-resistant, and deliver customizable sound. With up to 12 hours of portable battery life when combined with the included charging case, they are ideal for running and other sports activities.

## **SETUP AND FIRST USE**

### **Charging Your Headphones**

Before first use, fully charge your Jaybird RUN headphones and the charging case. The earbuds provide up to 4 hours of playtime on a full charge, and the charging case provides an additional 8 hours, totaling 12 hours of portable battery life. A quick 5-minute charge can provide 1 hour of playtime. The carrying case itself takes approximately 1.11 hours to fully charge.

**SECURE + COMFORT-FIT**  
INTERCHANGEABLE TIPS & FINS  
FOR ALL EAR SIZES

### **Achieving a Secure and Comfortable Fit**

The Jaybird RUN headphones come with interchangeable silicone tips and secure-comfort fins to ensure a snug fit for various ear shapes. Experiment with different sizes of tips and fins to find the combination that provides the best seal and comfort for your ears. A proper fit is crucial for optimal sound quality and to keep the earbuds secure during physical activity.

## Bluetooth Pairing

To pair your Jaybird RUN headphones with your device (iOS or Android), ensure Bluetooth is enabled on your phone. The headphones utilize Bluetooth 4.0 and have a range of up to 10 meters. Follow these general steps:

1. Remove both earbuds from the charging case. They should automatically enter pairing mode (indicated by a flashing LED light).
2. On your device, go to Bluetooth settings.
3. Select "Jaybird RUN" from the list of available devices.
4. Once connected, a voice prompt will confirm successful pairing.

## OPERATING YOUR JAYBIRD RUN HEADPHONES

## Button Controls

Each earbud features a single control button. These buttons allow you to manage music playback, calls, and activate voice assistants without interrupting your activity. The specific functions of single-click, double-click, and long-press can often be customized via the Jaybird app.

## Custom Sound with the Jaybird App

Enhance your listening experience by downloading the Jaybird app. The app allows you to fully customize your sound profile by adjusting the lows, mids, and highs to your preference. It also includes a "Find My Buds" feature, which can help locate your earbuds if they go missing by showing their last connected location.

## CARE AND MAINTENANCE

The Jaybird RUN headphones are designed to be sweat-proof and water-resistant, making them suitable for intense workouts and outdoor use. While they can withstand sweat and splashes, they are not intended

for submersion in water.

**ON-THE-GO CHARGING**

To maintain optimal performance and hygiene, regularly clean your earbuds. Gently wipe the earbuds and charging contacts with a dry, soft cloth. Ensure the charging case is also kept clean and dry. Store the headphones in their charging case when not in use to protect them and keep them charged.

## TROUBLESHOOTING

If you encounter issues with your Jaybird RUN headphones, try the following common troubleshooting steps:

- **No Sound/Intermittent Sound:** Ensure both earbuds are charged. Check the Bluetooth connection on your device; try disconnecting and re-pairing. Sometimes, the left earbud may temporarily lose connection with the right (master) earbud; placing them back in the case and taking them out can

reset this.

- **Pairing Issues:** Make sure the earbuds are in pairing mode (flashing LED). Forget the device from your phone's Bluetooth settings and attempt to pair again. Ensure no other devices are actively connected to the headphones.
- **Battery Drain:** Confirm the earbuds are properly seated in the charging case. Ensure the charging case itself is charged. High volume usage can also lead to faster battery depletion.
- **Controls Not Responding:** Check if the earbuds are connected. If customized controls are set via the app, ensure the app is updated and settings are correctly applied.

For more detailed troubleshooting or persistent issues, refer to the official user manual or contact Jaybird customer support.

## TECHNICAL SPECIFICATIONS

Feature	Specification
Model Name	Jaybird RUN True Wireless Headphones
Connectivity Technology	Wireless (Bluetooth)
Bluetooth Version	4.0
Bluetooth Range	10 Meters
Battery Life (Earbuds)	4+ Hours Playtime
Battery Life (with Case)	Up to 12 Hours
Charging Time (Earbuds)	5 minutes for 1 hour playtime
Water Resistance Level	Water Resistant (Sweat-Proof)
