Korg Pa700 61-Key Arranger Workstation User Manual

Model: PA700 | Brand: KORG

1. INTRODUCTION

The Korg Pa700 is a 61-key arranger workstation designed for musicians seeking a powerful and versatile instrument. It combines a compact design with advanced sound capabilities, including the Defined Nuance Control (DNC) sound engine, to produce realistic and dynamic performances. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your Pa700.

Figure 1.1: Front view of the Korg Pa700 Arranger Workstation, showcasing the 61-key keyboard, integrated speakers, and central TouchView display.

2. SETUP GUIDE

2.1 Unpacking and Contents

Carefully remove the Pa700 from its packaging. Verify that all components are present:

- Korg Pa700 Arranger Workstation
- AC Adapter
- Music Rest
- Quick Start Guide (this document serves as a comprehensive manual)

2.2 Power Connection

Connect the supplied AC adapter to the DC IN jack on the rear panel of the Pa700. Plug the other end of the adapter into a standard AC power outlet. Ensure the power switch is in the OFF position before connecting power.

2.3 Audio and Peripheral Connections

The Pa700 offers various connectivity options:

- **Headphones:** Connect standard 3.5mm headphones to the HEADPHONES jack for private practice.
- **USB:** Use the USB Type A port for connecting USB storage devices (e.g., flash drives) and the USB Type B port for connecting to a computer for MIDI data transfer and software editing.
- **Audio Outputs:** Connect the LEFT/MONO and RIGHT audio output jacks to an external amplifier, mixer, or powered speakers for live performance or recording.
- **Pedals:** Connect sustain or assignable pedals to the appropriate jacks for enhanced control.

2.4 Initial Power-On

After connecting power, press the POWER button to turn on the instrument. The TouchView display will illuminate, and the system will boot up. Follow any on-screen prompts for initial setup, such as language selection or calibration.

3. OPERATING INSTRUCTIONS

3.1 Overview of Controls

The Pa700 features a 61-key velocity-sensitive keyboard, a central TouchView display for intuitive navigation, and numerous buttons and knobs for direct control over sounds, styles, and effects. Familiarize yourself with the layout of the front panel.

Figure 3.1: Angled view of the Korg Pa700, illustrating the keyboard, control panel, and the included music stand.

3.2 Sound Selection

The Pa700 includes over 1,700 sounds, enhanced by the Defined Nuance Control (DNC) engine for expressive realism. Use the TouchView display to browse categories and select desired instrument sounds. Sounds can be layered or split across the keyboard.

3.3 Style Selection and Performance

Access over 370 pre-programmed musical styles, each featuring four variations, three intros/endings, and four fill-in/breaks. Select a style from the TouchView display. Use the dedicated buttons to start/stop the style, switch variations, and trigger fills. The Pa700 allows for creation and storage of user-defined styles.

3.4 MP3 Player with Vocal Remover

The built-in MP3 player allows you to play back audio files. The vocal remover function can be applied to MP3 tracks, making it suitable for karaoke or practicing with backing tracks.

3.5 Effects and Processing

The Pa700 incorporates a range of effects, including KAOSS effects, to enhance your sounds and performances. These can be accessed and adjusted via the TouchView display.

3.6 Software Integration

The Pa700 supports the Korg Pa-Series Editor/Librarian software for detailed sound and style editing on a computer, and Korg MIDI Driver for seamless MIDI communication.

4. MAINTENANCE

4.1 Cleaning

To clean the instrument, use a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, followed by a dry cloth. Avoid abrasive cleaners, solvents, or waxes, as these can damage the finish. Keep the TouchView display clean using a microfiber cloth.

4.2 Storage

When not in use, store the Pa700 in a dry, dust-free environment, away from direct sunlight and extreme temperatures. Covering the instrument with a dust cover is recommended.

5. TROUBLESHOOTING

This section addresses common issues you might encounter with your Korg Pa700.

- **No Power:** Ensure the AC adapter is securely connected to both the instrument and a working power outlet. Check the power switch position.
- **No Sound:** Verify that the master volume is turned up. Check headphone connections or external audio output connections. Ensure the correct sound is selected and not muted.
- **Display Not Responding:** If the TouchView display is unresponsive, try restarting the instrument. If the issue persists, contact Korg support.
- **Unusual Behavior:** If the instrument behaves unexpectedly, try performing a factory reset (refer to the full owner's manual for instructions on how to perform a factory reset, as this will erase user data).
