Maintenance

To ensure the longevity and cleanliness of your building set, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to gently wipe dust from the blocks and figures. For more thorough cleaning, a

slightly damp cloth with mild soap can be used, followed by drying completely. Do not immerse the entire set in water.

- **Storage:** Store the assembled castle or disassembled blocks in a clean, dry place away from direct sunlight and extreme temperatures to prevent material degradation.
- **Handling:** Handle the assembled model with care to prevent accidental disassembly.

Troubleshooting

If you encounter any issues during assembly or play, refer to the following common solutions:

Problem	Solution
Missing Pieces	Carefully re-check all packaging materials. If pieces are still missing, contact Sluban customer support for assistance.
Difficulty Connecting Blocks	Ensure blocks are aligned correctly before applying pressure. Some blocks may require a firm, even push to connect securely. Avoid forcing misaligned blocks.
