

TAFFIO 10DAB01

TAFFIO Universal Android Car Radio USB DAB+ Receiver/Antenna Digital Radio User Manual

Model: **10DAB01** | Brand: **TAFFIO**

1. INTRODUCTION

The TAFFIO Universal Android Car Radio USB DAB+ Receiver/Antenna is designed to bring high-quality digital radio (DAB/DAB+) to your Android car radio or head unit. This device allows you to enjoy a wide range of digital radio stations with enhanced sound clarity and additional data services. It is compatible with car radios running Android 4.4 or higher. Simply connect the receiver to a USB port and install the dedicated application to begin.

2. SAFETY INFORMATION

Please read and understand the following safety guidelines before using the product:

- Do not expose the device to water, moisture, or extreme temperatures.
- Avoid dropping or subjecting the device to strong impacts.
- Do not attempt to disassemble or modify the device. This will void the warranty and may cause damage.
- Ensure proper ventilation around the device during operation.
- Dispose of electronic waste responsibly. Follow local regulations for recycling.

3. PACKAGE CONTENTS

Verify that all items are present in your package:

- TAFFIO USB DAB+ Receiver (Model: 10DAB01)
- DAB+ Antenna with adhesive backing

4. SETUP AND INSTALLATION

Follow these steps to install your TAFFIO USB DAB+ Receiver:

- 1. Prepare your Android Car Radio:** Ensure your car radio or head unit is running Android 4.4 or higher and has an available USB port.
- 2. Connect the Receiver:** Plug the TAFFIO USB DAB+ Receiver into an available USB port on your Android car radio.
- 3. Connect the Antenna:** Connect the cable from the DAB+ antenna to the antenna port on the TAFFIO USB DAB+ Receiver.
- 4. Mount the Antenna:** Carefully peel the backing from the adhesive antenna. Mount the antenna on a non-metallic surface, such as the inside of your car's windshield, ensuring it is positioned for optimal signal reception. Avoid placing it near metal obstructions.

5. **Install the Application:** You will need to install a compatible DAB+ application on your Android car radio. This application is typically provided by the car radio manufacturer or can be found on their support website. Follow the app's instructions for installation.

Image: A close-up view of the adhesive DAB+ antenna, showing its flat, rectangular design with a cable extending from one end. This antenna is designed to be discreetly mounted inside the vehicle.

5. OPERATING INSTRUCTIONS

Once the receiver and antenna are installed, you can begin using your digital radio:

1. **Launch the DAB+ App:** Open the installed DAB+ application on your Android car radio.
2. **Scan for Stations:** Within the app, initiate an auto-scan or channel search. The receiver will scan the

frequency range of DAB band III (174.0MHz-239.0MHz) to find available digital radio stations.

3. **Select a Station:** Once the scan is complete, a list of available channels will be displayed. Select your desired station from the list.
4. **Utilize Features:** The application supports features such as RDS (Radio Data System), DLS (Dynamic Label Service), and SS (Slide Service), which provide additional information like song titles, artist names, and images, depending on the broadcast.

6. MAINTENANCE

The TAFFIO USB DAB+ Receiver requires minimal maintenance:

- Keep the device clean by wiping it with a soft, dry cloth.
- Do not use harsh chemicals or abrasive cleaners.
- Ensure the USB port and antenna connection remain free of dust and debris.

7. TROUBLESHOOTING

If you encounter issues, refer to the table below for common problems and solutions:

Problem	Possible Cause	Solution
No signal or poor reception	Antenna not properly connected or positioned; weak signal area; app issue.	Check antenna connection. Reposition antenna for better line of sight. Perform a new station scan in the app. Try in a different location.
DAB+ app not launching or crashing	Incompatible Android version; app corruption; USB connection issue.	Ensure Android version is 4.4 or higher. Reinstall the DAB+ app. Disconnect and reconnect the USB receiver. Restart the car radio.
Device not recognized by car radio	Loose USB connection; faulty USB port; driver issue.	Ensure the USB receiver is firmly plugged in. Try a different USB port on the car radio. Check if the car radio's firmware needs updating.

8. SPECIFICATIONS
