iPazzPort NC-812-16F

iPazzPort NC-812-16F Wireless HDMI Display Adapter User Manual

Model: NC-812-16F | Brand: iPazzPort

1. INTRODUCTION

The iPazzPort NC-812-16F is a versatile wireless HDMI display adapter designed to mirror or cast content from your smartphone, tablet, or other compatible devices to a larger screen such as a TV, monitor, or projector. It supports both Miracast for Android devices and Airplay for iOS devices, providing a convenient solution for sharing media, presentations, and more.

2. PRODUCT OVERVIEW

2.1. Key Features

- Supports Miracast for Android devices.
- Supports Airplay for iOS devices.
- Wireless display for media, images, and presentations.
- Connects to HDMI-enabled TVs, monitors, and projectors.
- Compact and portable design.

2.2. Package Contents

Verify that all items are present in your package:

- iPazzPort Wireless HDMI Display Adapter
- USB Charging Cable
- HDMI Extension Cable
- User Manual

3. SETUP INSTRUCTIONS

3.1. Physical Connection

1. Connect the micro USB end of the charging cable to the iPazzPort adapter's charging port.
2. Connect the standard USB end of the charging cable to a 5V/1A USB power adapter (not always included) or a USB port on your TV/projector.
3. Plug the HDMI connector of the iPazzPort adapter directly into an available HDMI port on your TV, monitor, or projector. If space is limited, use the provided HDMI extension cable.
4. Power on your display device and select the correct HDMI input source.

Video: A demonstration of the physical connection process for the iPazzPort Wireless HDMI Display Adapter, showing how to connect the power cable and HDMI extension to the device and then to a power source and TV.

3.2. Wireless Connection (iOS - Airplay)

1. Ensure your iPazzPort adapter is connected to your TV and powered on. The TV screen should display the iPazzPort main interface with Wi-Fi name (SSID) and password.
2. On your iOS device (iPhone/iPad), go to **Settings > Wi-Fi**.
3. Select the Wi-Fi network named "iPazzPort_Cast-XXXX" (where XXXX is a unique identifier) and enter the password displayed on your TV screen (default is usually "12345678").
4. Once connected, swipe up from the bottom of your iOS device screen to open the Control Center.
5. Tap on **AirPlay** (or Screen Mirroring).
6. Select "iPazzPort_Cast-XXXX" from the list of available devices.
7. Toggle the **Mirroring** switch to ON. Your iOS device screen should now be mirrored on your TV.

3.3. Wireless Connection (Android - Miracast)

1. Ensure your iPazzPort adapter is connected to your TV and powered on. The TV screen should display the iPazzPort main interface.
2. On your Android device, navigate to the wireless display or screen mirroring settings. The name of this feature varies by device and Android version (e.g., Smart View, Screen Cast, Wireless Display, MirrorShare, AllShare Cast, etc.).
3. Enable the screen mirroring feature and search for available devices.
4. Select "iPazzPort_Cast-XXXX" from the list. Your Android device screen should now be mirrored on your TV.

4. OPERATING INSTRUCTIONS

Once connected, the iPazzPort adapter mirrors your device's screen to the larger display. Any content displayed on your mobile device will appear on the connected TV, monitor, or projector.

4.1. Casting Photos and Videos

Open your photo gallery or video player on your mobile device. The content will automatically display on the connected screen. For videos, ensure your device is in landscape mode for optimal viewing on the larger display.

4.2. Presenting Documents (PPT, etc.)

Open your presentation application (e.g., PowerPoint, Google Slides) on your mobile device. The presentation will be mirrored to the large screen, allowing you to control slides directly from your device.

4.3. Playing Games

Launch your favorite games on your mobile device. The game will be mirrored to the larger screen, providing an enhanced gaming experience. Note that some latency may occur depending on your device and network conditions.

5. TROUBLESHOOTING

- **No display on TV:** Ensure the adapter is properly powered and connected to the correct HDMI input. Check if the TV input source is set to the corresponding HDMI port.
- **Cannot connect to Wi-Fi:** Verify the Wi-Fi name (SSID) and password displayed on the TV screen. Ensure your mobile device's Wi-Fi is enabled.
- **Intermittent connection or lag:** Move your mobile device closer to the iPazzPort adapter to improve signal strength. Reduce interference from other wireless devices. Ensure the adapter has sufficient power.
- **iOS Airplay issues:** Ensure your iOS device and the iPazzPort adapter are on the same Wi-Fi network. Try restarting both devices.
- **Android Miracast issues:** Ensure your Android device supports Miracast and that the feature is enabled. Some devices may require specific apps or settings.

6. SPECIFICATIONS

Model Number	NC-812-16F
Connectivity Technology	Wi-Fi
Connector Type	HDMI, Micro USB
Special Feature	Wireless, Wireless Display
Resolution	1080p

Compatible Devices	Television, Monitor, Projector (with HDMI input)
Item Weight	0.1 Kilograms (approx. 3.52 ounces)
