Cleaning the Spray Arms

Check the spray arm nozzles periodically for any food particles or mineral deposits that might obstruct water flow. Clean them as needed to maintain effective spray patterns.

Cleaning the Interior and Exterior

Wipe down the interior and exterior surfaces with a soft, damp cloth. For stubborn stains, use a mild, non-abrasive cleaner. Ensure the door seal is clean to prevent leaks.

TROUBLESHOOTING

Before contacting customer service, review the following common issues and their potential solutions.

Problem	Possible Cause	Solution
Dishwasher does not start	Power cord not plugged in; Door not closed properly; Fuse blown or circuit breaker tripped.	Ensure power cord is securely plugged in. Close the door firmly until it latches. Check household fuse/circuit breaker.
Dishes are not clean	Improper loading; Insufficient detergent; Clogged spray arm nozzles; Clogged filter.	Reload dishes correctly, avoiding overcrowding. Use recommended amount of detergent. Clean spray arm nozzles. Clean the filter system.
Water not draining	Drain hose kinked or blocked; Clogged filter; Sink drain blocked.	Check drain hose for kinks or obstructions. Clean the filter. Check if the sink drain is clear.
Excessive noise	Dishes rattling; Foreign object in pump; Unit not level.	Rearrange dishes to prevent contact. Inspect pump area for foreign objects. Ensure the dishwasher is level.
Water leaks	Door seal dirty or damaged; Hoses loose; Too much detergent.	Clean or replace door seal. Tighten hose connections. Use only recommended amount of detergent.
