

Zizo BOLT-IPH8-BLBK

Zizo Bolt Series Case Instruction Manual

For iPhone X and iPhone Xs

1. INTRODUCTION

Welcome to the instruction manual for your Zizo Bolt Series case. This manual provides essential information on the features, installation, operation, and maintenance of your new phone case. Designed for the iPhone X and iPhone Xs, the Zizo Bolt Series case offers robust protection and enhanced functionality.

2. PRODUCT OVERVIEW

The Zizo Bolt Series case is engineered to provide comprehensive protection for your device while maintaining accessibility and adding convenience. Key features include:

- **Military Grade Drop Protection:** Certified to meet 12 ft. Military Grade 810.1-G Compliance, ensuring your phone is protected against drops and impacts.
- **Built-in Kickstand:** Allows for hands-free viewing in landscape orientation.
- **Included Screen Protector:** A Zizo Lightning Shield 0.33mm 9H hardness and 100% clarity Tempered Glass Screen Protector is provided for display protection.
- **Holster:** A durable belt clip holster is included for convenient carrying.
- **Wireless Charging Compatible:** The case is designed to work seamlessly with Zizo Wireless Qi Chargers.

Product Components

The Zizo Bolt Series case typically includes the following components:

- Outer protective shell with integrated kickstand
- Inner shock-absorbing layer
- Tempered Glass Screen Protector
- Belt Clip Holster

This video provides a visual overview of the Zizo Bolt Series case, highlighting its design and features.

3. SETUP AND INSTALLATION

3.1 Installing the Case

1. Ensure your iPhone X or iPhone Xs is clean and free of dust or debris.
2. Separate the inner shock-absorbing layer from the outer protective shell.
3. Carefully place your iPhone into the inner shock-absorbing layer, ensuring all edges are properly seated.
4. Align the inner layer with the outer protective shell and firmly press them together until they snap securely into place.

3.2 Applying the Tempered Glass Screen Protector

For optimal screen protection, apply the included Zizo Lightning Shield Tempered Glass Screen Protector before installing

the case.

1. Clean your phone screen thoroughly using the provided cleaning wipes (if included) to remove all dust, smudges, and fingerprints.
2. Peel off the protective film from the adhesive side of the screen protector.
3. Carefully align the screen protector with your phone's screen, ensuring the cutouts for the speaker and camera are correctly positioned.
4. Gently lower the screen protector onto the screen. It will adhere automatically.
5. If air bubbles are present, gently push them towards the edges of the screen using a soft cloth or the provided squeegee card.

4. OPERATING THE CASE FEATURES

4.1 Using the Built-in Kickstand

The integrated kickstand allows for convenient hands-free media viewing.

1. Locate the kickstand on the back of the case.
2. Gently pull the kickstand outwards until it locks into its open position.
3. Place your phone horizontally on a flat surface to enjoy hands-free viewing.
4. To close, push the kickstand back into its recess until it clicks securely.

Note: The kickstand is designed for horizontal viewing only and may not support the phone in a vertical orientation.

Figure 4.1: The kickstand deployed for hands-free horizontal viewing.

4.2 Using the Belt Clip Holster

The included holster provides a secure and accessible way to carry your phone.

1. Slide your cased iPhone into the holster, ensuring it clicks securely into place.
2. Attach the belt clip to your belt or waistband. The clip can often rotate for preferred orientation.
3. To remove, press the release tab on the holster and slide the phone out.

5. MAINTENANCE

To keep your Zizo Bolt Series case in optimal condition, follow these cleaning guidelines:

- Wipe the case regularly with a soft, damp cloth to remove dust and smudges.
- For stubborn dirt, use a mild soap solution and rinse thoroughly. Ensure the case is completely dry before re-installing your phone.
- Avoid using harsh chemicals or abrasive materials, as these can damage the case's finish.
- Clean the screen protector with a microfiber cloth to maintain clarity.

6. TROUBLESHOOTING

Here are some common issues and potential solutions:

- **Kickstand feels loose or breaks:** The kickstand is designed for convenience. While durable, excessive force or improper use can lead to wear. Ensure it is fully extended when in use and fully retracted when not. If it breaks, contact Zizo support for assistance.

- **Buttons are difficult to press:** Ensure the case is correctly installed and fully seated around your phone. Sometimes, a slight adjustment can improve button responsiveness.
- **Case feels slippery:** The case features textured grips. If you find it slippery, ensure your hands are clean and dry. The material is polycarbonate, which offers a balance of durability and feel.
- **Wireless charging issues:** Ensure your phone is properly aligned on the wireless charger. If issues persist, try removing the case to confirm it's not interfering. The Zizo Bolt case is designed to be compatible with Qi chargers.

7. SPECIFICATIONS
